Introduction

Conference schedule

Invited Papers

Introduction	1
<i>The Rigorous and the Natural in Eighteenth Century Mathematics</i> Joan Richards, Brown University	3
<i>Mathematical and Religious Knowledge in Nineteenth Century England</i> Joan Richards, Brown University	23
<i>Cantor's Concept of Infinity</i> Bruce Hedman, Univ. of Connecticut at Hartford	61

Contributed Papers - Technical

<i>Using Mathematica to Teach Calculus</i> Russell Howell, Westmont College	79
<i>Real Number Representations and the Distribution of Following Segments</i> Ray Rosentrater, Westmont College	90
<i>Revising the Argument from Design</i> William Dembski, Northwestern University	101

Contributed Papers - General

<i>Discrete Mathematics Versus Calculus</i> Marvin Johnson, College of Lake County	146
<i>A Tale of Two Mathematicians - Fourier and Cantor</i> Robert Brabenec, Wheaton College	154
<i>C.S. Lewis, George MacDonald and Mathematics</i> David Neuhouser, Taylor University	167
<i>Can Mathematical Methods Yield Theological Truth?</i> Jan de Koning, University of Toronto	176
<i>How Has Christian Theology Furthered Mathematics?</i> Gene Chase, Messiah College	191

List of Delegates	209
