Introduction	3
Conference Program.....	4
Parallel Sessions Schedule	7
Christian Perspective: Mathematics and Computer Science	
Chaos Theory and Metaphysical (In) Determinism	9
Integrating Moral and Spiritual Themes in Middle School and High School Mathematics	
Teaching Units	21
Portrayals of Mathematicians in Culture.....	26
Six Ways, Yea Seven, that Scripture is Integral to our Science and Math Classes	29
The God-Fearing Life of Leonhard Euler	35
Computer Science	
Connection-Oriented Computer Science Education	47
Integrating Ethics into the Database Course With a Focus on Data Modeling and	
Normalization.....	61
Curricular Issues	
Breathing Life into the Liberal Arts Math Course: Ten Teaching Tips.....	74
Tanzania, Mathematics, and Me: Reflections from my work with Tanzanian Teachers.....	78
Teach a Course in the Math of Voting and Choice	85
Write about Mathematicians in Non-Major Courses	89
Mathematics	
Bach (to the Calculus of) Variations	92
Counting Tulips: Three Combinatorial Proofs.....	102
Exploring Loci in Geometry.....	114
Mathematical Knowledge and Leibniz' Epistemology	141
Optimize Your Math Services Through Networking.....	148
Trigonometry Without Sines and Geometry Without Angles.....	150
Mathematics Aesthetics	
The Beautiful and Sublime in Mathematics.....	162
Philosophy and Mathematics	
An Augustinian Perspective on the Philosophy of Mathematics	163
Modeling Growth in Christian Evangelism†	173
Rules and Insights: Connecting the Mathematical and Linguistic Abilities of C.S. Lewis	183
Vocation and the Ordinary Christian	190
Voltaire: A Study in Finding a Needle in a Haystack	204
List of Participants	211
Conference Photograph	213
