ACMS 1987: Table of Contents

Association of Christians in the Mathematical Sciences

A SIXTH CONFERENCE
ON
MATHEMATICS FROM A
CHRISTIAN PERSPECTIVE

Edited by Robert L. Brabenec

PROCEEDINGS OF THE CONFERENCE
SPONSORED BY THE ASSOCIATION OF
CHRISTIANS IN THE MATHEMATICAL SCIENCES
AND HELD AT CALVIN COLLEGE
MAY 27-30, 1987

TABLE OF CONTENTS

<u>PREFACE</u>	1
<u>MAIN ADDRESS</u>	
"3:16 - An Approach to Bible Study" by Donald E. Knuth, Stanford University	3
<u>PHILOSOPHICAL PAPERS</u>	
"A Philosophical Analysis of Formalism" by Michael Detlefsen, Notre Dame University	27
"An Activist Model of the Metaphysics of Mathematics" by Christopher Menzel, Texas A&M University	55
"Observations on Mathematics and the Christian Faith" by David Laverell and Carl Sinke, Calvin Collge	73
<u>MATHEMATICAL PAPERS</u>	
"Conic Sections in ℓ_p " by Richard Laatsch, Miami University of Ohio	87
"Riesz Spaces and Their Applications in Economics" by Calvin Piston, John Brown University	97
"Another Look at Pick's Theorem" by Dale Varberg, Hamline University	109

GENERAL PAPERS AND PRESENTATIONS

- "Mathematical Reflections: Standing on the
Shoulders of Giants"
by Karl J. Smith, Santa Rosa Junior College 119
- "Logic and Proof for Mathematicians: A Twentieth
Century Prospective"
by Calvin Jungsma, Dordt College 135
- "Computer Science in Liberal Arts Colleges"
by James Bradley, Calvin College 145
- "The Role of Computer Science in a Liberal Arts
College"
by Russell C. Bjork, Gordon College 149
- "Variations on a Theme"
by R. Creighton Buck, University of Wisconsin 155

LIST OF CONFERENCE DELEGATES 163

PREFACE

The 1987 ACMS Conference featured Donald E. Knuth of Stanford University as principal speaker. Professor Knuth was joined by his wife, Jill, who displayed some of the banners which she has designed and also lectured on their use in liturgy. The Knuths were most generous with their time, participating fully in the activities of the Conference and making themselves available for informal discussions and socializing. I shall never forget the wonderful afternoon session we had when Don sat on a table, surrounded by all of us, and masterfully answered the multitude of questions posed to him.

Professor Knuth gave two addresses at the conference, each of which was enthusiastically received. The first was entitled "Numbers and the Creator" and in it he gave us interesting insights into how his famous book "Surreal Numbers" was written. He also described his later work on "supernatural numbers."

The second talk is included in these Proceedings and is entitled: "3:16: An Approach to Bible Study." I am sure that you will enjoy reading this speech. I want to thank Jan Woudenberg of Calvin College for her work in helping with the transcribing of the speech into written form.

For those who want to listen to the tapes of the talk or who want to view a video recording, you may contact me at Calvin College and I will arrange to have such sent to you.

In addition, Michael Detlefaen gave us permission to include his extensive paper in these Proceedings. The talk he gave at the conference was based on this paper.

The paper provided by R. Creighton Buck is a copy of his after-dinner talk at the conference banquet.

Paul Zwier
