NOTICE OF
Appointment of Administrator.
Notice is hereby given, that the under-
signed has been appointed administrator
of the estate of Albert L. Ritter, deceased,
late of Jefferson Township, Grant County,
Indiana.

Said Estate is supposed to be solvent.
Nette V. Ritter,
Administrator.

E. F. Davis,
Attorneys.

NOTICE OF
Final Settlement of Estate

No. 3122
Notice is hereby given to the creditors
heirs and legatees of Eliza J. Jones, to appear
in the Grant Circuit Court held in Marion,
Indiana, on the 8th day of March 1917, and show
cause, if any, why the Final Settlement Ac-
counts with the estate of said decedent should
not be approved; and said heirs are notified to
then and there make proof of heirship and re-
ceive their distributive shares.

Witness, the Clerk of said Court, this 14th
day of February 1917.

W. S. Malott,
Clerk of Grant Circuit Court.

There is more Catarrh in this section
of the country than all other diseases
put together, and for years it was sup-
posed to be incurable. Doctors prescribed
local remedies, and by constantly failing
to cure with local treatment, pronounced
it incurable. Catarrh is a local disease,
greatly influenced by constitutional con-
ditions and therefore requires constitu-
tional treatment. Hall's Catarrh Medi-
cine, manufactured by F. J. Cheney &
Co., Toledo, Ohio, is a constitutional
remedy, is taken internally and acts
thru the Blood on the Mucous Surfaces
of the System. One Hundred Dollars re-
ward is offered for any case that Hall's
Catarrh Medicine fails to cure. Send for
circulars and testimonials.
F. J. CHENEY & CO., Toledo, Ohio.
Sold by Druggists, 75c.
Hall's Family Pills for constipation.

FOR SALE—House and three lots,
good fruit and water. Known as the
Monroe property.

Riley Waterman,
Upland, Ind.

DEAL

H. T. Connelly, cashier of the Upland
State Bank, has purchased the George
Glassgow property on East Half-st. and
will move to his new home about the
first of April. Mr. Glassgow is yet undecided as
to where he will locate. S. A. Connelly
will move to his brother's farm the first
of April and engage in agricultural
pursuits.

New Office

Al Curry, manager of the Bottle Fac-
tory here, states that a new office is to
be built in the near future by the com-
pany. The old office will be moved nearer
the factory where it will serve the pur-
pose of a mould room. The new structure
will be built east of the present office and
a cement sidewalk will be made from
First street leading to the office. The
building will be larger than the present
one and equipped as a modern office.

NOTICE

The Ladies Aid Society of the M. E.
Church will serve lunch for the Bell
Hardware Co. Sale Saturday, March 10,
at the Shoemaker corner.
Lida Outland, Pres.

Live Stock Shippers, Attention

Greatly reduced rates are now effective
for the shipment of live stock for breed-
ing purposes in less than carload lots. If
your freight agent is not aware of these
new rates, call his attention to Supple-
ment 14 to Tariff 43, or to Official
Classification Tariff No. 44, effective
February 1, 1917. The decision of the
Interstate Commerce Commission, af-
fecting weights of animals, etc., became
effective December 1st, and if you have
been overcharged since that time, your
money will be refunded. Your local agent
will be willing to base the freight rates
under the new ruling as soon as his at-
tention is called to it, because his com-
pany is liable to a \$5,000 fine for over-
charges.—Farm Life.

Contract for Course

The Upland Literary Society has con-
tracted for next year's Lecture Course
with the International Lyceum Bureau
of Chicago, through their representative,
A. A. Thornburg. Miss Edna Zimmer
of this place will appear with a Sextette on
one of the numbers.

OPENING

The Spring Opening of Carroll Hard-
ware made another big day for Upland
last Saturday. The streets were lined
with auto's and rigs and all business
houses in town were rushed in the after-
noon as a result of the large number that
attended the drawing at the Carroll
Hardware.

Tel Helms proved to be the lucky man
holding number 990 which drew the
buggy. Chas. Byall with number 11,292
drew a \$12.50 Vacuum Sweeper. No. 564
held by Howard Simons drew a \$12 set
of Silver Buena knives and forks. Chester
Hults with number 12,536 drew a boys
Ford auto. Ticket number 13,129, held
by Albert Lucas, received a \$5 sickle
grinder. Ollie Thurman holding 1044
drew \$3 worth of Sherwin Williams house
paint. Ora Florea held number 7,244
which drew a white enamel pitcher and
bowl. C. Futrell with number 11,346
drew a 10 gal. dasher churn. Number
2,433 drew a 5 sporg cultivator hoe and
was held by John Clamme. Elbert Beak-
mau drew a Never Fail oil can by holding
992. Earl Porter held 1,113 and by so
doing drew 1 gal. Diamond Barn paint.
Andrew Stover, drew a package of Pratts
Egg producer by holding number 11,806.
Three numbers were called for prizes
and the ticket holders failed to have their
tickets there, which lost them their
claims. The numbers were 14,250, 7,224
and 2,414.
The drawing committee selected by
ticket holders were Edw. Drischel, O. B.
Whiters and E. L. Gottsheal.

Falls for Old Game

Marion, Ind., March 3.—Dr. H. M.
Chiera, age thirty-eight, believed to be
from Chicago, was arrested here last
night by the police on a description given
by James Gardner, a farmer in Van
Buren township, Grant county, who said
Chiero obtained \$700 from him by chang-
ing an envelope containing only paper
for an envelope containing the money.

Early Hatching for Size

Washington, D. C., Mar. 8, 1917. Con-
trary to general belief and practice, chicks
do not grow or thrive as well during the
warm months or hot summer days as
they do earlier in the spring. Experienced
poultrymen realize this fact. The average
farmer, however, does not make an effort
to hatch early so that the chicks will
have the advantage of a longer and more
favorable growing season. Early hatching
not only insures more rapid gains in the
growth of chicks but has a favorable in-
fluence on the size of the individuals of
the flock. Late hatched chicks rarely, if
ever, attain the size of those hatched
early. Early hatching likewise influences
early maturity and consequently early
egg production.

Given the same food, care and atten-
tion, chicks hatched the first of March
will weigh more when they are four
months old than those hatched a month later,
say the poultry specialists of U. S. De-
partment of Agriculture. This likewise
holds true with chicks hatched the first
of April as compared with those hatched
May first. This is due to the fact that
the rate of the growth of a chick is great-
er during the first four weeks of its life
than at any other time. Consequently,
the early hatched chick, having the ad-
vantage of a more favorable growing
season, makes greater gains during the
first four weeks of its life than the late
hatched chick. During the early spring
months when the temperature is not so
varied the growth of chicks is more uni-
form and constant than it is during the
summer.

Cutting Down Expenses

Mr. Edwin D. Turner, manager of the
Pioneer Drug has adopted a clever man-
ner of cutting down expenses in the store.
He has posted pla-cards about the store,
answering a few of the monotonous ques-
tions he is daily called upon to answer.
By letting them read the pla-cards he
he can go on about his work and not
waste valuable time answering questions.
The following may be found on the differ-
ent pla-cards about the store.

1. The telephone is back of the cigar
case. Help yourself. This doesn't mean to
candy and peanuts.
2. The Post-Office is next door. They
sell stamps.
3. Curtis Ferguson is Marsha' of this
here town. Office at the Pioneer Drug
Store.
4. No we don't know what the Ko-
moks means.
5. We will open our soda fountain as
soon as the weather permits.
6. Trains leave for Grs City at 9:07
and 11:42 A. M. and 5:38 P. M.
7. Noah's Ark is across the street.
8. Ycs! Our Clock is near right.

Schedules For The Assessors Are Completed

The township assessors and their depu-
ties met with County Assessor Frank
Wimmer Thursday and discussed sched-
ules and the work before them. For con-
venience, but not as fast binding on the
field men, schedules for taking property
were made out. The assessor will be guided
by relative values and use his own
judgment in the work of assessing. The
schedules of listing property follow:
Poultry—\$3.50 to \$5 per dozen.
Automobiles—New, one-fourth off of
wholesale price; one year run, one-half
off of wholesale price.

Horses and mules—Under one year, \$40
over one year and under two years; \$65;
over two and under three years, \$80;
three years and over \$125.

Cattle—Under one year, \$15; over one
and under two years, \$30; two and over,
\$40.

Milch cows - Top, \$63.
Fat cattle - Five cents per pound.
Hogs - Eight cents per pound.
Sheep - \$8 per head.
Brood sows - Top, \$25.
Soft coal - \$5 per ton.
Hard coal - \$8 per ton.
Wheat - \$1 per bushel.
Corn - Sixty cents per bushel.
Rye - Seventy-five cents per bushel.
Oats - Thirty-five cents per bushel.
Potatoes - \$2 per bushel.
Cloverseed - \$6 per bushel.
Timothy seed - \$2 per bushel.
Hay - \$6 per ton.
Straw - \$3 per ton.
Bulk pork - Ten cents per pound.
Lard - Ten cents per pound.
Steel rails - 10 to \$20 each.
Telephone poles - 1 to \$7 each.
Railroad ties - Forty cents each.
Ensilage - \$1.50 per ton.
Ice - \$1 per ton.
Money - One-fourth off face value.

The I. O. O. F. are giving work
every Tuesday night and members
are expecting to initiate a large
class soon.

SIXTH ANNUAL

Auction Sale

We will sell at our store in Upland on
Saturday, March 10, 1917
beginning promptly at 10 a. m., the following articles:
New Implements, etc.

Widespread Low Cloverleaf manure spreader; I. H. C. corn planter;
Black Hawk corn planter; Oiver No 12 cultivator; Oiver No. 1
cultivator; Sattley cultivator, Leverless cultivator; 7-hoe cultivator;

Money Getting

Is a business which most people
can follow. To be successful
means persistent work, self denial
and a systematic scheme of saving.
But there is no plan that brings
more satisfactory results than that
afforded by using the Upland
State Bank. Possibly you would
like to test this matter for yourself.
Paid up Capital \$25,000.
Surplus \$6,000.

Pres. R. J. Spencer.

Cashier, H. T. Connelly.

UPLAND STATE BANK

**YOUR TREES NEED
"SCALECIDE"**

Because it kills every kind of scale and de-
stroys the aphids eggs before they
hatch

Because it wipes out the Pearl Psylla, Bud Moth
and Case-Bearer. Also stops the growth
of Canker and Collar Rot

Because it is invigorating to tree growth insuring
better fruit and bigger crops

Because it saves money, time and trouble. You
cannot afford to do without it

Sold on a "money-back" proposition

A woman is no older than she looks
when happy.

Even a reformatory turns out a
black sheep now and then.

It must be maddening to a woman
to dream about people she doesn't
like.

When the war ends it will be a
capital moving day for divers small
nations.

The person who knows it all never
leaves anything to the imagination of
the listener.

Recognizing that she is as old as
she looks, lovely woman takes pains
never to look old.

Meanwhile, most of us continue to
wear shoes built to fit the highly con-
ventionalized foot.

In the shaveterian man may shave
himself for a dime. This suggests that
a kickateria ought to pay.

As nearly as can be figured out, nothing
fans the neutrals toward peace as
much as a canceled war order.

Reforestation is one of those govern-
ment enterprises that have peculiar
interest for a baldheaded man.

There are captains of industry and
head waiters in this country who have
a remarkable memory for faces.

What is there to soften the worry of
the man who thinks up the pleasantest
ways to tell people not to worry?

Cigarettes are going up. As far
as the juvenile population is con-
cerned this will be one evil smoked
out.

At least one distressing shortage is
to be relieved. A German submarine
is to bring a cargo of diamonds to this
side.

The borrower cannot be scared off
by reading the physicians who assert
that borrowed articles spread dis-
ease.

A Frenchman has invented a shock-
absorber for wheelbarrows. Somebody
will be inventing a self-dumping hod
next.

The temperamental opera singer
who wants a divorce and declares that
war is heavenly probably will marry
again.

So many people are dieting these
days that there is going to be a sharp
falling off in the demand for pepsin
tablets.

Sometimes a fellow thinks he is suf-
fering from some organic trouble when
it is merely the new graphophone
next door.

Generosity is a virtue that we love
to see in others, because it doesn't
hurt us so much when another parts
with the coin.

In view of the immense growth of
vehicular travel of all kinds, the next
great problem of the age will be, Why
is a pedestrian?

The people who can afford to pay a
dancing master \$5 and \$10 a lesson are
not worrying about the high cost of
living enough to notice.

Soldiers in the trenches are getting
five meals a day, but there are serious
disadvantages in trench life, which
need not be mentioned.

About the only compensation to the
soldier who has undergone a double
amputation is that he won't have to
worry over the high price of shoe
leather.

More Southern farmers are raising
peanuts, according to the department
of agriculture. Perhaps this is an in-
dication of the caliber of the next crop
of politicians.

The oldtime girl who used to buy
one pair of fox garters annually at
\$2.50 a pair now has a daughter who
needs seven pairs of shoes each season
at \$12 a throw.

"Economy begins at home," observes
the Louisville Courier-Journal. Our
contemporary means that economy
ought to begin at home. What econ-
omy needs and hasn't got is the begin-
ning.

Automobiles are to be substituted
for stage coaches in the Yellowstone
National Park, notwithstanding the
fact that the poorest way in the world
to view scenery is from a speeding
auto.

World Citizenship Forced Upon People of United States by New Conditions

By A. G. BRYANT of Chicago

Citizenship now has a new definition. Unprecedented events have revolutionized our civic standards.

America once stood indifferent to the proceedings of the nations across the sea. The great Atlantic barrier shielded an adolescent country in large measure from the frenzies of the French revolution and the ambitions of Napoleon. To beware of "entangling alliances" was the warning of Washington.

Later, when Europe again grew restive and the western hemisphere became a promised land, the Monroe Doctrine halted a growing menace. But Europe still seemed far away and world politics never moved America's citizenship. The statesman of the day was confined to domestic problems. The voter, the plain citizen, was interested in nothing further than national affairs. Wars were fought, but even these brought no realization of international matters to the average American.

Citizenship now requires a broad grasp of the world's affairs, as an essential qualification. You and I do not belong to the nth ward, Posey township, or the state of Pennsylvania. We are American citizens, and we are also world citizens, neighbors of troubled friends across the way. We must therefore accept our international duty and familiarize ourselves with the conditions and purposes of our neighbors' moves. It cannot profit a man permanently for his neighbor's house to burn down. Likewise the conflagration across the way will affect us in the future more than in the past. If we are to cope with the situation our citizenship must be internationally trained.

Now citizenship means service. Service includes responsibility, obligation, duty, sacrifice. To serve as a citizen is interpreted as the acceptance of responsibility for the nation's character, the obligation to carry out the nation's purpose, the realization of a duty to be expressed in fidelity, and the willingness at all times to make such sacrifices as may be necessary in the interest of the nation's maintenance and development.

Concretely expressed, this kind of citizenship means the intelligent exercise of the franchise, a consistent effort toward sound and honest living within the spirit of the law, and universal service for military or any other national co-operative purpose. This is real privilege, a new freedom, betokening a universal democratic citizenship.

Enforced Competition Must Give Way to Co-operation Properly Safeguarded

By CHARLES F. STEINMETZ

In the European war we see the final fight between the waning competitive system and the coming co-operative era. This issue has been decided, and co-operation won, whatever may be the military outcome of the war, for the individualistic nations, even England included, had to adopt the co-operative organization of their national organism to survive.

Against the terrible efficiency of the co-operative industrial organization of the Europe after the war, our country will have no chance; but, hopelessly outclassed, will sink to second rank as an industrial nation unless we also accept industrial co-operation as the guiding light.

This means recognition of the corporation as industry's most efficient tool. It means that we must cease to legislate against industrial co-operation, stop to attempt the resurrection of a dead era, that of competition, by man-made laws, which violate the economic laws of nature, but must assist and encourage co-operation and consolidation of corporations into organizations controlling all industries, while at the same time providing such safeguards which, without in the least interfering with the industrial productive efficiency of co-operation, protect the public against any possible abuse of corporate power.

Furthermore, we must bring about the co-operation of the worker with the industries by eliminating the three great fears which now hang over the majority of human beings: the fear of unemployment, the fear of sickness, and the fear of old age, by providing an effective unemployment, sickness and old-age insurance.

That is, we must forever outlaw the attitude of Cain's question: "Am I my brother's keeper?" and realize that every one of us in modern society is indeed responsible for the well-being of every other member of our nation.

Then the social condition of the masses of our people will be superior to that in any other nation, then the masses will have an interest in the maintenance of our nation, and without preparedness parades and other vain attempts of creating a sham patriotism, we will again find all the citizens of our nation as patriotic as they were in the days of old. Patriotism means the realization that your own nation is superior to any other, and this can exist only when based on economic facts.

Civilization of United States Menaced by Abnormal Growth of Divorce Evil

By MRS. JANE DEETER RIPPIN
Chief Probation Officer Philadelphia Municipal Court

What is the reason for the abnormal increase in divorce? Undoubtedly it is because of the universal condition of social unrest that maintains today in this country and throughout the world. This condition of social unrest engenders a situation where we find people ignoring the fixed customs of society and flouting the conventions that bind together a stable civilization.

Just these conditions—starting with the overthrow of the home and spreading like a conflagration to the uprooting of human society—brought about the collapse of the great civilizations. Go back over history. Read between the lines of the rise and fall of Babylon, of Athens, of Rome. And now what of the United States? We face a critical situation; we must solve these sociological problems or go down as the other civilizations have done.

What shall we do? Well, in divorce we must take a leaf from Denmark. There it requires two years to get a divorce. A couple desiring permanent separation must apply first to the church where they were wedded. The pastor or priest considers the case for a year. Then the legal authorities conduct an inquiry for a year. Finally the government must sanction the remarriage of divorced persons.

In states where divorce is so easy we can enact laws that will make it more difficult to secure a divorce. That would be a beginning.

"CASCARETS" ACT ON LIVER; BOWELS

No sick headache, biliousness,
bad taste or constipation
by morning.

Get a 10-cent box.

Are you keeping your bowels, liver, and stomach clean, pure and fresh with Cascarets, or merely forcing a passageway every few days with Salts, Cathartic Pills, Castor Oil or Purgative Waters?

Stop having a bowel wash-day. Let Cascarets thoroughly cleanse and regulate the stomach, remove the sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will make you feel great by morning. They work while you sleep—never gripe, sicken or cause any inconvenience, and cost only 10 cents a box from your store. Millions of men and women take a Cascaret now and then and never have Headache, Biliousness, Coated Tongue, Indigestion, Sour Stomach or Constipation. Adv.

Tit for Tat.

"Homely as you are," remarked the husband who was trying to be funny. "I love you just as much as if you were pretty."

"Fool that you are," rejoined his wife, who was there with the repartee. "I love you just as well as if you had good sense."

A MINISTER'S CONFESSION

Rev. W. H. Warner, Myersville, Md., writes: "My trouble was sciatica. My back was ached and took the form of lumbago. I also had neuralgia, cramps in my muscles, pressure or sharp pain on the top of my head, and nervous dizzy spells. I had other symptoms showing my kidneys were at fault, so I took Dodd's Kidney Pills. They were the means of saving my life. I write to say that your medicine restored me to perfect health." Be sure and get "DODD'S," the name with the three D's for diseased, disordered, deranged kidneys; just as Rev. Warner did, no similarly named article will do.—Adv.

New Meter Successful.

The latest development in metering appliances is a coal meter built on the principle of a water or gas meter. This instrument was devised primarily to measure the coal consumption of factory boiler rooms, but it may find a wider application on a smaller scale. It operates on the same principle as a water meter, the stream of broken coal pouring down a chute and turning an inclosed vane. The meter can also be used for grain, according to the inventor. Its use on coal was entirely successful.

FRUIT LAXATIVE FOR SICK CHILD

"California Syrup of Figs" can't
harm tender stomach,
liver and bowels.

Every mother realizes, after giving her children "California Syrup of Figs" that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish, or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember, a good "inside cleaning" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Adv.

Appropriate.

"What head shall I put on this story about the electrocution at Sing Sing?" asked the new man at the copy desk.

"You might run it under 'Current Events,'" suggested the man who edited the alleged funny column.

The Quinine That Does Not Affect The Head Because of its tonic and laxative effect, Laxative Bromo Quinine can be taken by anyone without causing nervousness or ringing in the head. There is only one "Bromo Quinine." B. W. GRAY'S signature is on each box. 25c.

An integral part of the modern locomotive—the cast steel side frame—weighs nearly seven tons.

Anuric cures Backache, Lumbago, Rheumatism. Send 10c. Dr. V. M. Pierce, Buffalo, N. Y., for large trial package.—Adv.

DADDY'S EVENING FAIRY TALE

by MARY GRAHAM BONNER

WITTY WITCH'S BIRTHDAY.

"The Fairies," said Daddy, "thought that they would give a Candle party."

"And what is a Candle party?" asked the Children.

"They said," continued Daddy, "that they would each carry a Candle to the party which would be held in old Witty Witch's Cave."

"You see," said the Fairy Queen when she was explaining to the little Fairies what she meant by a Candle party, "we will each carry a candle to Witty Witch's Cave. Then we will look like a Torch-Light procession, and we'll give Witty Witch a surprise."

"Oh," said the Fairies, "aren't we going to tell her that we are coming?"

"No," said the Fairy Queen. "It will be her birthday to-morrow evening, and so we'll give her a surprise party. I've asked Mr. Giant to make the Speech. The Brownies will do some new tricks, and the Elves will bring the supper. The Gnomes are going to write her a Proclamation of Thanks for all her wonderful stories."

"And what is a Proclamation?" asked the little Fairies.

"A Proclamation," said the Fairy Queen, "is a notice with words written upon it. It's very much like a speech—only on paper. But the Gnomes are going to write their proclamation on some birch bark and it will be in letters made out of icicles."

"How lovely!" exclaimed the Fairies.

"When the following evening came, the Fairies, each carrying a tall lighted candle walked through the Woods until they reached Witty Witch's Cave. Behind them were the Elves bearing huge trays with goodies to eat upon them. Next followed the Brownies turning somersaults as they went along. And then came the Gnomes with a long piece of birch bark which was the Proclamation. Mr. Giant came last, for he was afraid he might walk over some of the Guests if he didn't come at the end."

"Upon the Gnomes' Proclamation were written the words:

"To Witty Witch we want to say,
"Many happy returns of the day.
"She tells us stories merry and gay,
"We'd like to hear them every day.
"For they are always such a treat,
"Whether they're sad, or pleasant and sweet."

"And we thank her now on this birch bark,
"As we're about to have our lark."

"But how surprised Witty Witch was when she saw her guests. She got

up from the corner of the Cave where a big fire was burning, and she clapped her hands and threw her tall hat up in the air, shouting:

"Hurrah, hurrah, it's my birthday!"

"The Fairies put their candles in the corners of the Cave and the Elves put their big trays of goodies in front of the fire."

"Then Mr. Giant made his speech. 'Ladies and Gentlemen,' he said. After that there was a great deal of applause and clapping and it looked as though he would not have to say another word. But soon they looked at him as if they were really expecting something more, so he began again,

"It's a great honor—"

"It is indeed," they all shouted.

"To be here this evening," continued Mr. Giant. "I am favored in being allowed to make a speech to the wonderful teller of stories."

"The wonderful teller of stories," the Guests all said.

"My words do not amount to much, but the supper of the Elves will make up for everything. And the Brownies will do tricks. The Fairies are giving the light, and we all want to wish our jolly old Witch many, many hundreds of birthdays and parties and all the nice things in the world!"

"Then Mr. Giant sat down, stretching his long legs before him. The Brownies hopped over him, turning somersaults and doing many new tricks, and after the fun-making was over, they all sat down before the fire and ate the delicious Birthday Supper made by the Elves!"

Stop When Finished.

It is not finding words for clothing our thought that is the most difficult part of conversation. It is stopping when you have finished. The number of people who say a thing and keep right on talking, passes belief. Think before you speak, find, if possible, the word that fits your thought, but above all things, stop when you have finished.

—Girl's Companion.

WHAT IS LAX-FOS

LAX-FOS is an improved Cascara A DIGESTIVE LAXATIVE—Pleasant to take In LAX-FOS the Cascara is improved by addition of certain harmless chemicals which increase the efficiency of the Cascara, making it better than ordinary Cascara. LAX-FOS aids digestion; pleasant to take; does not gripe or disturb stomach. Adapted to children and adults. Just try a bottle for constipation or indigestion. 50c.

Mother Gray's Powders Benefit Many Children

Thousands of Mothers have found MOTHER GRAY'S SWEET POWDERS an excellent remedy for children complaining of Headaches, Colds, Constipation, Feverishness, Stomach Troubles and Bowel Irregularities from which children suffer at this season. These powders are easy and pleasant to take and excellent results are accomplished by their use. Used by Mothers for 30 years. Sold by Druggists everywhere, 25 cents. Trial package FREE. IS IT TOO MUCH ROUTINE?

Writer Complains That Too Few Are Properly Familiar With the Pages of the Bible.

Bible-quoting is all the more effective nowadays, as an influence in literature or oratory—at least when it is rare and clever—for the fact that fewer people know the book than formerly. In spite of the Sunday schools and the International Lessons, familiarity with the Bible is becoming rarer.

Boys and girls go to Sunday school all through their childhood and somehow come out of it unable to quote a line from the Bible. And yet they are sufficiently familiar with it to be able to feel the force of a quotation or an illustration, and the rare individual who knows his way through the pages of the book can easily catch their sympathy.

Why should almost universal instruction in the Bible result in a generation that does not know the book? Why should rote lessons on "Hamlet" and "The Tempest" make the same generation hate Shakespeare? Why does everything that is "required" go in at one ear and out at the other? Why are the set words of the wise as odious goads, as nails fastened by the masters of assemblies, while bread eaten in secret is pleasant? Much study is now, as in the days of Solomon, a weariness of the flesh. It thwarts its own purpose.—Exchange.

Oil From Fruit Stone Kernels.

Germany is preparing to take steps toward relieving her shortage of oils and fats by extracting an oil from the kernels of fruit stones, such as the pits of the plum and the cherry, both of which grow freely there. The pits are boiled in a calcium chloride solution, which separates the kernel from its shell. The oil is expressed from the kernel. The chief difficulty lies in the fact that the kernels of such fruits, especially the peach, contain minute quantities of hydrocyanic acid, sometimes called oil of bitter almonds. This is extremely poisonous, but special methods have resulted in its presence being reduced to a mere negligible trace, according to the reports.

The wall flower at a ball is often the only girl present who can bake bread.

A FRIEND'S ADVICE

Woman Saved From a Serious Surgical Operation.

Louisville, Ky.—"For four years I suffered from female troubles, headaches, and nervousness. I could not sleep, had no appetite and it hurt me to walk. If I tried to do any work, I would have to lie down before it was finished. The doctors said I would have to be operated on and I simply broke down. A friend advised me to try Lydia E. Pinkham's Vegetable Compound, and the result is I feel like a new woman. I am well and strong, do all my own house work and have an eight pound baby girl. I know Lydia E. Pinkham's Vegetable Compound saved me from an operation which every woman dreads."—Mrs. NELLIE FISHBACK, 1521 Christy Ave., Louisville, Ky.

Everyone naturally dreads the surgeon's knife. Sometimes nothing else will do, but many times Lydia E. Pinkham's Vegetable Compound has saved the patient and made an operation unnecessary.

If you have any symptom about which you would like to know, write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free.

GOOD FOR HUNGRY CHILDREN

Children love Skinner's Macaroni and Spaghetti because of its delicious taste. It is good for them and you can give them all they want. It is a great builder of bone and muscle, and does not make them nervous and irritable like meat. The most economical and nutritious food known. Made from the finest Durum wheat. Write Skinner Mfg. Co., Omaha, Nebr., for beautiful cook book. It is sent free to mothers.—Adv.

Words to Girls.
The late Inez Milholland Boissevain, the beautiful suffragist, never wearied of impressing on young girls the duty of being as beautiful as possible, for she knew what an instrument for good beauty, rightly used, can be.

One of Mrs. Boissevain's favorite dicta was:
"A girl can't help her looks, but her looks can help her."

ACTRESS TELLS SECRET.

A well known actress gives the following recipe for gray hair: To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and 1/4 oz. of glycerine. Any druggist can put this up or you can mix it at home at very little cost. Full directions for making and use come in each box of Barbo Compound. It will gradually darken streaked, faded gray hair, and make it soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off. Adv.

Dose of His Own Medicine.

"You are not compounding that prescription as I would," remarked the stranger who had dropped in. "Dump in a little of this and a pinch of that."

"What do you mean? Are you a druggist?"

"Nope."

"Then what do you mean by telling me how to run my business?"

"Oh, I'm the manager of the ball team. I notice you in the bleachers occasionally handing me unsolicited advice."

GIRLS! GIRLS! TRY IT, BEAUTIFY YOUR HAIR

Make It Thick, Glossy, Wavy, Luxuriant and Remove Dandruff—Real Surprise for You.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderine hair cleanse." Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair—growing all over the scalp. If you care for pretty, soft hair and lots of it, surely get a 25 cent bottle of Knowlton's Danderine from any store and just try it. Adv.

Logical Result.
"That girl, rings true."
"Of course she does. She's a belle."

The Hell Gate bridge, now nearing completion, cost \$30,000,000.

SEVEN YEARS AGO AND TO-DAY

Then He Had 6 Mules, \$660 Cash and Some Equity—Today He Has \$20,000 and Owns 2 Sections of Land.

The story of the wealth of Western Canada cannot be told too often; the truth will bear repeating. And in telling of it it is hoped that advantage will be taken of the great opportunities that Western Canada offers by those who are today struggling for a mere existence, by those who are occupying lands, high in price and high in rentals.

From grain, live stock and dairying in 1916, there was a return from the three Prairie Provinces of \$258,000,000, or an increase of four million dollars over 1915, and 118 million dollars over 1914.

A prominent Trust Company says: Some of our contract holders have paid off their purchase money on lands bought a year ago out of this year's crop, and what one man can do another can do. Thousands of Southern Alberta farmers harvested an average of 40 to 50 bushels of No. 1 wheat to the acre. These farmers have more real money to spend than any other people on the American Continent. J. D. Johnston of Bladsworth, Sask., left Johnson County, Kansas, seven years ago. When he left he had \$660 in cash, six mules, some settler's effects and an equity in some prairie land. Mr. Johnston tells his story:

"In my seven years' residence in Saskatchewan, I have raised seven good crops the value of this year's crop alone being Twenty thousand dollars. I now own Two Sections of improved land, 17 horses and mules, 40 cattle, a large steam thrasher and a full line of farm machinery."

We have made five trips to Kansas, one trip to the Pacific Coast and return. We have enjoyed the society of a class of people than whom none better can be found. The climate is healthful and invigorating. The soil is fertile and productive, well adapted for the production of the best quality and large yields of all cereals and vegetables, wild and tame grasses. It is an excellent stock country."

The question of taxes is one that carries with it considerable weight. Coming from a man like Mr. Johnston the same weight should be given the answer. He says:

The tax system especially commends itself to me as being simple, reasonable and just. All direct taxes are levied on the land at its appraised market value, exclusive of improvements thereon. No tax on personal property. This tends to discourage the holding of lands by speculators who prevent its cultivation or improvement, hoping to realize profits from the enhanced value of their holdings due to the industrial activities of the bona fide settlers. It tends to encourage the settlers to rear substantial improvements upon their land without paying a penalty in the form of taxation therefor. It encourages the raising of live stock and the possession of other personal property necessary to the development of the country.

"The laws are well and economically administered. Citizens of the Dominion vote on election of members of parliament and members of the Provincial assembly, while on questions of local improvements and school matters the franchise is exercised by ratepayers, irrespective of citizenship.

The people are enterprising, school facilities are good. Taxation, just and reasonable. Military service voluntary. Patriotic fervor unsurpassed, law and order the rule, and crime the rare exception. It is the land of banks, schools, telephones, grain elevators, broad, fertile acres, good climate, good citizenship and abounding in opportunities for the industrious man or woman of good morals. In short, the land of promise and fulfillment, I know of no better anywhere."

Marvelous Electric Power.
The tremendous, almost inconceivable possibilities of electric power are strikingly brought out in a giant motor recently built for use in Pennsylvania steel mills. This motor is the biggest in the world. It develops 15,000-horse power. While the motor is of an impressive bulk, it could be easily inclosed in a medium sized room. Some idea of the concentrated efficiency of electric power is realized when one thinks of how many acres would be covered by the 15,000 horses whose work equivalent it can tirelessly produce.

SKIN TORTURES
That Itch, Burn and Scale Quickly Relieved by Cuticura—Trial Free.

It takes about ten minutes to prove that a hot bath with Cuticura Soap followed by gentle applications of Cuticura Ointment will afford relief and point to speedy healing of eczemas, itchings and irritations. They are ideal for all toilet purposes.

Free sample each by mail with Book. Address postcard, Cuticura, Dept. L, Boston. Sold everywhere.—Adv.

Telephone lines in use in the United States during the year 1912 amounted to 20,248,326 miles.

Do you happen to know a father who would want his son to follow in his footsteps?

Temperance Notes

(Conducted by the National Woman's Christian Temperance Union.)

PERSONAL RIGHTS.

Replying to the "personal liberty" argument of the wets, Clinton N. Howard, who is characterized as one of the bomb-throwers in the prohibition ranks, puts it this way:

"You have a personal right to eat putrid meat; I have no right to sell it. If your hog dies a natural death, or with the cholera, you have a personal right to grind it up into sausage and eat it; but you have no right to offer it for public sale. A man has a personal right to corn his dead mule and serve it on his own table. You have as good a right to eat your cat as I have my chicken, or your dog as I have my pig. The Chinese in New York have a dog feast at their New Year's celebration and the police have never interfered with their personal right. But if you opened a meat market and skinned dogs and cats and exposed horse sausage for public sale the meat inspector would confiscate the entire supply, close up the place as a public nuisance and arrest you for selling what you had a personal right to eat."

"We have a law against the sale of impure literature. We do not say that a man shall not read it, even though that may harm him; because it is his personal right to damage his own character and corrupt his own mind; but if he opens a shop for the dissemination and sale of such literature to corrupt the youth of the community, society steps in and interferes—not with his personal liberty to read what he likes, but with his social right to sell that which corrupts public morals. Under this law tons of impure literature, licentious post cards and immoral books are seized and destroyed every year, without compensation to their owners; indeed, they are prosecuted and fined or jailed for the offense against public morality and decency. That is prohibition."

MORE AND BETTER.

The argument that the workingman will lose his job if the liquor traffic is abolished is based upon the absurd proposition that, if the liquor dealer fails to get the money now spent for beer and whisky, nobody else will get it.

It is assumed that the farmer who now sells his grain and grapes, his apples and cherries, to the liquor interests will be compelled to destroy them; when the fact is that figures furnished by the United States government clearly indicate that the ability of the American farmer to raise enough grain to adequately supply this country is gradually decreasing. To listen to the defender of the saloon, one would think that nobody likes grapes and cherries and apples, unless they come in form of booze. There are millions of youngsters who would be delighted to have at least one chance to eat all the fruit they really need.—Charles Stelzel, Member of Machinists' Union, and Secretary of Church and Labor Department of Presbyterian Church.

MODERATE DRINKING.

The degeneration due to the so-called "moderate" consumption of alcohol is very similar to senile decay. In the opinion of Prof. G. Sims Woodhead, M. A., M. D., F. R. C. P., F. R. S. E., of England.

"Alcoholic degeneration, however," Professor Woodhead points out, "does not proceed equally in every part of the body. The weaker tissues are first attacked and the patient gives way at the weak link of the chain."

"Alcohol calls upon the reserve strength which ought to be held like a balance at the bank to meet sudden and unexpected emergencies. If you have such a physical reserve, you are able to tide over emergencies and wear out gradually, but if you let alcohol withdraw your balance, exhausting your reserve, you may become a physical bankrupt at any moment."

LET GO!

The story is told of a man who one night fell over a cliff. Thinking that bottom was hundreds of feet below, he clung to the edge as long as he could, crying for help. When, exhausted, he let go, he found that the good firm road was only a few inches under his feet.

Some there are who cling to the liquor traffic imagining that to let go means a drop into industrial chaos. But community after community has tried letting go of it. No disaster has followed. The good sound road of industry furnishes firm footing for all, individuals or communities, who let go of booze. And the drop to it is so short as to scarcely be noticeable by those who muster up courage to take it.—The Liberator.

"NO, THANK YOU," LEAGUE.
Sacramento has a "No Thank You" league, the members of which pledge themselves "not to take an intoxicating drink in a saloon at another's invitation or expense," and each member wears a "No Thank You" button.

TWO VOTES.

"Two men went up to the ballot to vote. The one a Christian, the other a bloat. One held in his hand the Word of God. The other a license to sell forty-rod; And the angel looked down in grief and shame, For the ballots they cast were exactly the same."

Uric Acid!

Ever since the discovery of Scheele in 1775 that uric acid was found within the body—most eminent physicians agree that rheumatism is caused by it; also many distressing symptoms as headache, pain in back, stomach distress, swollen feet and ankles, gout, etc.

It was Dr. Pierce of the Invalids' Hotel, Buffalo, N.Y., who discovered a new agent—called Anuric, a harmless remedy that if taken before meals will carry off the uric acid from the system and in this way the pains and aches, the creaky joints and all the distressing symptoms of rheumatism and other maladies disappear. You can easily prove this yourself, by obtaining Anuric at almost any drug store, or send Dr. Pierce 10c. for trial package. Try it and be convinced that Anuric is many times more active than lithia and eliminates uric acid as hot water melts sugar.

Not His Fault.
His Wife (a year later)—When you proposed to me you said all I'd have to do if I married you would be to sit around and look pretty. But, alas! How different!
Her Husband—Well, it isn't my fault if you can't look pretty any more.

To Drive Out Malaria
And Build Up The System
Take the Old Standard GROVE'S TASTELESS chill TONIC. You know what you are taking, as the formula is printed on every label, showing it is Quinine and Iron in a tasteless form. The Quinine drives out malaria, the Iron builds up the system. 50 cents.

Real Experience.
"Yes," said a traveling man, "I was once out of sight of land on the Atlantic ocean twenty-one days."

Another man spoke up: "On the Pacific ocean one time I didn't see land for twenty-nine days."

A bald man knocked the ashes from his cigar and contributed his bit:

"I started to cross the Kaw river at Topeka in a skiff once," he said, "and was out of sight of land before I reached the other side."

"What!" demanded the man who had spun the first yarn. "The Kaw is not more than three hundred feet wide at Topeka."

"Quite true," said the bald man quietly. "The skiff turned over and I sank twice."

WOMEN! IT IS MAGIC!
LIFT OUT ANY CORN
Apply a few drops then lift corns or calluses off with fingers—no pain.

Just think! You can lift off any corn or callus without pain or soreness.

A Cincinnati man discovered this ether compound and named it freezone. Any druggist will sell a tiny bottle of freezone, like here shown, for very little cost. You apply a few drops directly upon a tender corn or callus. Instantly the soreness disappears, then shortly you will find the corn or callus so loose that you can lift it right off.

Freezone is wonderful. It dries instantly. It doesn't eat away the corn or callus, but shrivels it up without even irritating the surrounding skin.

Hard, soft or corns between the toes, as well as painful calluses, lift right off. There is no pain before or afterwards. If your druggist hasn't freezone, tell him to order a small bottle for you from his wholesale drug house.—adv.

Although the average man may know when to stop, he seldom does it.

It's a fortunate thing for one-half the world that the other half doesn't know how it lives—or why.

In proportion to its size a fly walks 13 times as fast as a man can run.

Canada's Liberal Offer of Wheat Land to Settlers

is open to you—to every farmer or farmer's son who is anxious to establish for himself a happy home and prosperity. Canada's hearty invitation this year is more attractive than ever. Wheat is much higher but her fertile farm land just as cheap, and in the provinces of Manitoba, Saskatchewan and Alberta

160 Acre Homesteads Are Actually Free to Settlers and Other Land Sold at from \$15 to \$20 per Acre

The great demand for Canada's Wheat will keep up the price. Where a farmer can get near \$2 for wheat and raise 20 to 45 bushels to the acre he is bound to make money—that's what you can expect in Western Canada. Wonderful yields also of oats, barley and flax. Mixed Farming in Western Canada is fully as profitable an industry as grain raising.

The excellent grasses, full of nutrition, are the only food required either for beef or dairy purposes. Good schools, churches, markets, convenient climate, excellent military service is not compulsory in Canada but there is an unusual demand for farm labor to replace the many young men who have volunteered for the war. Write for literature and particulars as to reduced railway rates to Sept. of immigration, Ottawa, Can., or to

Australia Destroying Her Trees.
In view of the present and prospective value of Australia's national tree, it is a little surprising to find that cutting and burning is proceeding with scant scientific supervision. California and South America are planting eucalyptus; Australia is cutting them down.

Australian hardwoods rival mahogany in beauty and susceptibility of polish, and are unsurpassed among the world's timbers in strength, durability and resistance to fungus and insect attacks.

Education Finished.
Wigg—The young men have learned to know her like a book.
Wagg—Yes, and now she's on the shelf, so far as they're concerned.—Town Topics.

For genuine comfort and lasting pleasure use Red Cross Ball Blue on wash day. All good grocers. Adv.

How the average man dislikes another who is smarter than he!

Feel Achy All Over?

To ache all over in damp weather, or after taking a cold, isn't natural, and often indicates kidney weakness. Uric acid causes many queer aches, pains and disorders of the organs. Well kidneys keep uric acid down. Tired, dizzy, nervous people would do well to try Doan's Kidney Pills. They stimulate the kidneys to activity and so help clear the blood of irritating poisons.

An Indiana Case

Mrs. John Knox, 1907 One Hundred Thirty-Seventh St., Indiana Harbor, Ind., says: "I was in such awful shape, with my back and legs aching, that I couldn't move in bed. When the bed clothes were changed, I had to be lifted into another bed. My kidneys were weak and irregular in action and the sharp pains in my back drove me almost frantic. Doan's Kidney Pills brought back my health and cured every symptom of kidney complaint. This medicine saved my life."

Green's August Flower

When the stomach and liver are in good working order, in ninety-nine cases out of every hundred general good health prevails.

Green's August Flower has proven a blessing and has been used all over the civilized world during the last fifty odd years. It is a universal remedy for weak stomach, constipation and nervous indigestion. A dull headache, bad taste in the mouth in the morning or that "tired feeling" are nature's warnings that something is wrong in the digestive apparatus. At such times Green's August Flower will quickly correct the difficulty and establish a normal condition. At all druggists or dealers, 25c and 75c bottles.

Carpets, Rugs and Curtains.

Marion's Leading Store
BLUMENTHAL & CO.
Marion, Ind.

DEATH

Clarence King, age 26 years, died at
8:05 Wednesday morning after a long
fight for life against the white plague.

Mr. King was married a little over a
year ago to Miss Hazel Swarts, a daugh-
ter of Mr. and Mrs. Abe Swarts. Shortly
after his marriage he contracted a deep
cold on his lungs which lead to tubercu-
losis and resulted in his death.

To mourn his loss he leaves a wife; his
parents, Mr. and Mrs. Frank King; one
brother, Arthur, and a sister, Mrs. Marie
Shields besides a host of friends.

The funeral will be held at Oak Chapel
Friday at 1 o'clock, in charge of Rev.
Baker. Burial will be made in the Van
Buren cemetery.

Recovery Unexpected

Mrs. Cal Horner who was taken to the
Grant County Hospital last week where
she underwent an operation for gall
stones, is in a very critical condition. The
operation proved successful but cancer of
the liver was discovered during the opera-
tion and the doctors have given up
hope that she will leave the hospital alive.

FIRE

Fire about 1 o'clock Wednesday morn-
ing totally destroyed a 9 room house in
the south-west part of town, owned by J.
F. Campbell, a contractor of Logansport.
The blaze had made great head way be-
fore the alarm was sounded. It so hap-
pened that a number of young men were
in the U. L. S. club room, awaiting the
arrival of the night trains, and when the
alarm was sounded they soon had the
engine and hose cart on the scene, but
without avail as the house at that time
was past saving.

The property was owned until last week
by Fred Keppler who traded it to J. F.
Campbell of Logansport. He was having
the house repaired. Those seeing the first
claim the flames were seen on the west
side of the house first and that it was
probably a defected flue that caused the
fire, as the owner had a fire in the house
all day and left on the evening train for
Logansport where he had his goods packed
and was making arrangements to
move here. There was \$750 insurance
carried on the house, Alfred Pugh being
the agent.

NEWS ITEMS.

Geo. Snyder is remodeling a barn at
the rear of his business block, which will
be used as a garage for his new Stude-
baker and the machine of Frank Broder-
ick.

Ryce Luzadder and wife expect to
leave this week for Chicago, where Mr.
Luzadder will be employed with an
electric company.

Mr. and Mrs. Chas. Burcaw of Du-
kirk and Mrs. Dean Zimmerman of
Muncie visited with Mr. and Mrs. A. M.
Curry over Sunday.

Mr. and Mrs. Ira Knight have return-
ed from Pa. where they have been visit-
ing relatives for the past month.

For Sale--Fertilizer, See Geo. Him-
lick.

Mrs. Dr. Gravelle visited friends in
Swayzee over Saturday and Sunday.

There will no doubt be another large
crowd in town Saturday on account of
the Bell Hardware Sale and the Ladies
Aid are making arrangements to serve
dinner at the noon hour.

The "Windmill Lung Tester" has
proved to be a popular machine about
Upland the past few days.

Mrs. E. M. Loy was brought back
from the Grant county hospital last
Sunday night.

A. C. Clippenger, manager of the Ren-
ner stock farm, returned Saturday from
Missouri, where he purchased a yearling
Hereford calf for the unusual price of
\$6,000.

It is expected that the animal will ar-
rive on the Renner farm within the next
few days. Mr. Clippenger has not yet
received its full pedigree. He made the
purchase of Harris & Sons, of Sullivan
county, Mo. That firm at its recent sale
disposed of 140 head of cattle for \$184,000.

A calf belonging to W. O. Modlin,
living near Matthews, out of Bullion
Fourth, a Renner stock farm bull recent-
ly sold for \$1,100 at a sale held at Des
Moines, Iowa.

Fletcher Oren of Marion was in Upland
Saturday on business.

Jap Nelson has moved to the "Lee-
Land" farm recently vacated by Eli Graf.

O. B. Peelle of Chicago sent us \$1.50
this week for the renewal of his subscrip-
tion.

Daniel Marine has favored his son
Clinton Marine, at Beech Grove, with a
fine big potato for a birthday present.

Clell Pierce and Andy Ferguson made
a deal this week whereby Mr. Andy
Ferguson will become the possessor of 30
acres in Monroe township and Clell
Pierce will become the owner of a house
and 5 acres in the east part of town.

Mr. and Mrs. Joseph Adams of Mon-
roe township are the proud parents of an
11 lb. boy.

Have you seen the beautiful woman in
the display window at the Economy
Store? She wears a "Madame Grace"
corset.

Linus Marshall was in town Tuesday
stated that his son, Harry, was no better
and that Harley Marshall had just re-
turned the day before stating that he
thought it impossible for Harry to live
another week.

Ed Leonard and family will move to a
farm near Canfield, O.

Carroll Dillman having taken employ-
ment at the Templeton Lumber Co., will
move to his property now being rented
by Edward Turner. Mr. Turner expects
to move to the V. B. Korner property
recently vacated by Dr. E. C. Williamson.

All that the assessor could possibly say
in a case like this is that "I'm Sorry," as
no rebates are made by the assessor. Mr.
L. M. Hydorn was assessed \$2 for a very
pretty collie dog on one day and the
next day it was poisoned by some
irresponsible.

What You Should Demand of Your Corset

STYLE LINES of the party gown
or street dress are dictated by
the newest fashions and your
corset should impart these LINES
to your figure.

COMFORT is essential to good
health and the pleasure of liv-
ing; your corset should be com-
fortable at all times.

WEAR - the life of the corset de-
pends on its construction, the
material and how accurately
you are fitted.

These features are ALL of them
to be found in

Madame Grace
Corsets

continue throughout the week. Evan-
gelist R. M. Reynolds of Kentucky is in
charge. The attendance is large every
evening.

Dr. J. L. Brasher of Boaz, Ala., begun
a ten day's special mee'ing at T. U. last
Thursday evening.

A sale of the personal property of the
late John Troxell was held at the late
home last Saturday.

Miss Louise Dillman of Van Buren
visited friends here this week.

Dr. Stout reports the arrival of a new
8 lb. baby girl at the home of Mr. and
Mrs. Joe Dilling.

Nile Shaffer, who has been suffering
with the diptheria, is reported to be just
a little better, he has been under the care
of a nurse since Sunday.

ARCANA

Mrs. Chas. Stroup and Mrs. Jesse
Johnson spent Monday with Mr. and
Mrs. Jake Stroup near Van Buren.

Mr. and Mrs. Scott Graham of Grs
City will move soon to the home of
Thomas Pierce, where they will help
with the farm this coming year.

W. C. Forbes of Chicago was here on business last week with the Upland Flint Bottle Co.

The Parcel Post Sale given by the W. C. T. U. at the home of Mr. and Mrs. H. R. Miles was largely attended, there being 125 people present.

Miss Hazel Fleming, who has been teaching at Kokomo, the past school term, spent Saturday and Sunday with her parents Mr. and Mrs. Geo. Fleming.

A prominent business man wants to know, why the town council does not have the cistern tops cleaned. He owns property that he wants fire protection on, and states that if anybody wants to know who he is, that the Monitor man can cheerfully direct them to him for information.

Wm. Pierce of Marion was in Upland Tuesday looking after business matters.

S. G. Wilson was serving notices Tuesday on people interested in the Wilson and Mittank ditch for which a petition has been drawn up. Hearing will be held in the circuit court room at Marion April 2.

The Mayor of Upland does not have to force prices on milk down in Upland. Milk can still be bought here at 4 cents a quart. The Broderick meat shop sold 170 gallons at that price last week.

Chas. Cox, went to Richmond Saturday, from which place he accompanied his brother to Cincinnati, where he was placed in a hospital.

Lawrence Lynch is seriously ill with pulmonary pneumonia.

HOME NEWS

Halleck Beuoy and Earl "Toba" Bugher are assisting as deputy assessors under Albert Fisherback, Jefferson township assessor.

Don Sutton renewed his subscription to the Monitor this week.

The L. A. L. Sorority members were pleasantly entertained Saturday evening at the home of Sara Broyles. Following the usual business session the evening was spent in social conversation and music. A short program was planned for the next meeting which will be held at the home of Edith Ross. A delicious luncheon was served to the Misses Leah Brogneaux, Farol Horner, Edith Ross, Mabel Fisherback, Mildred King, Lucille Sargent and Grace Graves.

Since women have been given the right to vote, the "white ribbons" about Upland have been very actively engaged in gathering knowledge pertaining to their new rights.

The mysterious circles in the sky last Friday night, have to our knowledge been unexplained. They were seen by any number of people and a great deal of talk was occasioned by their appearance. It is understood that a few students of Taylor University preached at the factory at the midnight hour and referred to a verse in the Bible in connection with the signs in the skies during their sermon.
