## NOTES.

Zona Graves and Chancy Templeton of Dundee were in Upland Friday.

Miss Bertha Wilson of Lafontaine has accepted a position as stenographer with A. Y. Stout.

W. H. Albert of Gas City is celebrating the arrival of twins at his home.

Sol Johnson was in Upland Friday.

J. A. Loughry dentist of Columbus, O; has located in the Miller building.

Wm Rehbeck, Geo. Fuller, Al Myers and Jonathan Marine each dropped a dollar for the Monitor this week.

J. A. Loughry and Mrs. Daisy Barr are new readers of the Monitor this week.

Clayton Poorman has been kept busy receiving congratulations on the arrival of a new girl at his home. Geo. Fuller pulled the tubing at the Byall No. 3 Thursday.

Liberty Hamilton, C. C. Smith, Jay Atkinson, Obed Hineline and J. H. Hankinson were in town on business Thursday.

## NEW DENTIST.

Having located in the E. R. Zimmer dental parlors in the Miller Block, we wish to say that we are prepared to do all kinds of work in dental surgery and respectfully invite the patronage of the citizens of Upland and vicinity.

The office will be open the remainder of this week, but will be closed next week. After the 1st of May the office will be open permanently.

J. A. Loughry, Dentist.

## FOR SALE.

Three good houses in the University addition will be sold separately cheap for cash or on payments. one 5 room house, one 3 room house and one 7 room house. Inquire on the premises of Mrs. Molly J. Seymour.

## To The Public Generally;

We thank you for your patronage during our weeks cool  
hibit, and trusting you have enjoyed the event as we have, W  
to remind all our Friends that we have a complete line of eve  
usually kept in a first class Hardware store also a splendid

Buggies, Wagons, & Harness

tools, sewing machines, Build  
Hardware, ect.

in fact everything if y  
don't see what you w  
call for it.

YOURS FOR VALUES,

BELL &  
WILLIAM

The above is a cut of our "TELESCOPE" Walker or rider, the only perfect Cultivator that has ever been in the field, and it is the only plow that has ever been built on this plan. Notice the small cut and you will get a fair idea of the operation of this cultivator as regards the feature of changing from a riding to a walking cultivator. None so simple, none so perfect. The only practical method of making a combined cultivator is to slide the beams back. That is what we do. For convenience it cannot be beaten. We recommend this cultivator to the farmers as being the very best in the world. We don't swing the axle as all others do. We just slide the beams back.

In our "Telescope" we have the very latest thing out. Heretofore the success given by this style of cultivators has been only moderate for the reason that the cultivator was neither satisfactory as a walking cultivator nor as a rider. They were necessarily so constructed that the weight could not be successfully shifted to make them balance as they should.

By simply swinging the axle no cultivator, can be made to balance perfectly.

The distance covered by the "swing" is so small that the weight is not placed in such a position as to make the cultivator balance perfectly either as a rider or a walker. In the "Telescope," as you will see by examining the plow we simply slide the whole top frame, which carries the beam and all backward or forward as desired as a walker or a rider, and as the distance covered is about 14 inches, the weight, balances the cultivator to a nicety.

In this operation we do not raise the point of the beam a particle as others do. It is slid directly back parallel with the frame, and it is done in the simplest manner, by throwing the seat over.

Originality is stamped all over it, and for special features it has no equal.

If you have tried a combined cultivator and condemned it, don't condemn this one, it is different. We have more good points on this plow and fewer bad points than any other plow on the market. We have simply got them all skinned when it comes to a rider or walker. Trucks can be narrowed in 6 in. We have a stouter hitch for the team, levers and caring springs to handle the plows with, shovels are set by a clamp, the best material is used in the construction, it is simple and there are not a lot of extra joints to be a wearing and breaking. This Telescope plow we have driven other plows out of the field with it, but we have never had to pull this plow out of the field for any other plow.

High class goods occupy a high position and there are none better than our planters. Made with flat, concave or open wheels.

Where lightness, neatness, simplicity in construction, durability and quality are desired, you do not need to look further for it, in a corn planter. The planter is not made that can check corn as straight as the Sattley. They are first class all around, but the checking feature particularly is their "long suit."

Give them a trial and see for your self that they are the best planter on the market.

## THESE ARE ALL SATTLEYS.

For further explanation and to see sample call on

WISE & FISHERBUCK

Don't forget that they have the largest assortment of fine vehicles and harness in the city; Prices and goods guaranteed beyond any competition. Special prices on a limited amount of smooth wire. Call early.

The Sattley Walking Plows were first made in 1851 by Sattley. At this early date it was necessary, owing to the primitive methods and facilities, to shape the moldboards over a log and wooden mallet.

Every since that date Sattley plows have been constantly improved, and we do not misstate the facts when we say they are unequalled in steady running qualities. There is no plow on earth that equals them.

We unhesitatingly claim these plows to be the very finest respect ever offered to the farmer.

They are not cheap goods, but Al all the way through.

Thus we have the reason why Sattley plows are sought for by practical farmers.

90 per cent

top and if its  
ALL STEEL  
Peerless th

is a daily cash saving in fuel for the top plates are of malleable steel which do not fire crack or break and conduct heat 25 per cent quicker than top plates of other material. These top plates are ground smooth as glass have to be blackened, turn dark blue from heat and are the most possible to keep clean and bright.

WISE & FISHERBUCK

## SENTENCE SERMONS.

Sorrow is only our side of their joy.

Love is always a door into larger life.

Lofty souls never despise lowly service.

Circumstances cannot stunt the soul.

Misery is not a synonym for morality.

A little vim in religion is worth a lot of vision.

There are solemn sinners as well as solemn saints.

He who rebels against conscience ruins character.

Heart keeping is the secret of happy housekeeping.

The self-conceited are bound to suffer from solitude.

Lessons are for our learning rather than our liking.

Goods are among the least of the rewards of goodness.

Suffering should leave a legacy of ability to sympathize.

Men of shiftless habits are never of immovable character.

It is no use singing "sunshine" if your life is all moonshine.

The true man never lets his living stand in the way of his life.

The man who resists a tendency will not have to regret a habit.

No good is found in a difficulty by the man who crawls around it.

The only effective criticism of a poor religion is the creation of a better one.—Chicago Tribune.

## AS A WOMAN SEES IT.

Until civic life the whole is perfect, domestic life the unit can never become an unqualified success.

When our dwellings and streets are preserved in the antiseptic cleanliness of the hospital, hospitals will no longer be needed.

So strongly, so hopelessly is the web of social life interwoven that no woman will be able to live her own life ideally, to raise her children as she would wish, until all are able to do so.

One secret act of generosity, one sacrifice of inclination to duty, is worth all the mere good thoughts, warm feelings, passionate prayers, in which some people indulge themselves.

The interiors of some homes have the look of having been furnished by magpies. These birds have a way of gathering up everything glittering and gaudy objects that meets their eyes, which is strongly suggestive of the means many householders employ in house decorations.

## WHEN OLD AGE IS LOVELY.

You sometimes see a woman whose old age is as exquisite as was the perfect bloom of her youth. You wonder how this has come about. You wonder how it is that her life has been a long and happy one. Here are some of the reasons:

She knows how to forget disagreeable things.

She did not expect too much from her friends.

She relieved the miserable, and sympathized with the sorrowful.

She retained her illusions, and did not believe all the world wicked and unkind.

She never forgot that kind words and smiles cost nothing, but are priceless treasures to the discouraged.

## WISDOM'S WHISPERS.

Happiness can be driven away by demanding too much of it.

The wisdom of wishing lies in not allowing it to lead to extravagance.

Sorrow declines to see the rays of sunshine which appear on the horizon.

All children are pretty in the eyes of the mother, no matter what their defects.

Youthful enthusiasm has encouraged acts which lead to the very brink of destruction.

Meaningless phrases have been known to take a brilliant turn by constant repetition.

Love carries the mind into channels where fame and fortune seem awaiting only a claimant.

It is that which we save that counts when the pinch comes.

## Simple Remedy Works Wonders, So It Is Claimed.

At the board of health office a small lot of circulars are being handed out to those interested, and because of the announced value of the cure for pneumonia it is herewith printed.

"Take 6 to 10 onions, according to size, and chop fine, put in a large spider over a hot fire, then add about the same quantity of rye meal and vinegar enough to form a thick paste. In the meanwhile stir it thoroughly, letting it simmer 5 or 10 minutes. Then put it in a cotton bag large enough to cover the lungs and apply to the chest as hot as patient can bear.

"In about 10 minutes apply another and thus continue by reheating the poultices, and in a few hours the patient will be out of danger. This simple remedy has never failed to cure this too often fatal malady, usually three or four applications will be sufficient, but continue always until the perspiration starts freely from the chest.

"This simple remedy was formulated many years ago by one of the best physicians New England has ever known, who never lost a patient by this disease, and won his renown by saving persons by simple remedies after the best medical talent had pronounced their cases hopeless.

"Personally I can say that I know of three persons who were saved by the remedy last winter in this city, after their physicians had given them up to die, and if a record was made of all similar cases during the last six years they would fill a good-sized volume. Dr. J. Q. A. McClester, one of Waltham's oldest and best physicians, states that he has used this remedy for several years with success in every case."—Newport News.

## Their Reasons.

A writer in Lippincott's tells of a young teacher who had taken special pains to implant a knowledge of United States history, who could but feel that much good seed had fallen on stony ground when at the final examination the question, "What character do you like best, and why?" brought forth the following astonishing replies:

"Andrew Jackson, because he whipped the British with an old hickory."

"Grant, who was elected president twice and around the world once."

"I like Monroe for doctrin' the people and Jackson, standing on a stone wall, and fell dead."

"Lincoln, who was shot and killed standing in a booth, and died saying, 'Jefferson survives, I am contented.'"

"De Soto, who waded in the Mississippi up to his elbows and there found his grave."

"Old General Putnam, who left his ox and his ass in the field and went and beat the British."

"The redoubtable John Paul Jones, because he said, 'We'll beat them British or bust,' and then did it."

## Historic Accuracy.

William Jennings Bryan visited Warwick Castle in course of his recent tour of Europe.

A tall young soldier took Mr. Bryan through the historic house, pointing out each object of interest with a long stick.

"Ere, sir," he said, in one of the state chambers, "ere is an ancient old portrait of Queen Bess. A fine work."

Mr. Bryan looked at the portrait, and there was a long, impressive silence. To break this silence more than for any other reason the visitor finally said:

"Queen Bess, eh? She was a pretty old lady when she died, wasn't she?"

The guide shook his head.

"Not pretty, sir, but very old," he said.

## Experiments in Feeding.

It is clear that some men, Americans and Europeans, can live long and well on very little food, says Harper's Weekly. It is known that Indians, and most Asiatics, can do the same; it is also known that overfeeding is one of the common causes of disease and premature collapse. The idea that we Americans could cut down our food and our food bills about half and suffer no detriment is highly attractive in these dear times from the economical standpoint. But the truth of that has not been demonstrated yet, and will probably never be demonstrated on a large scale until an absolute scarcity of food compels it. Meanwhile, persons who want to try how far a little food will go are recommended to eat it slowly and chew it long, as Mr. Fletcher does.

## Vesper.

A late lark twitters from the quiet skies And from the west,  
Where the sun, his day's work ended,  
Lingers as in content,  
There falls on the old, gray city  
An influence luminous and serene,  
A shining peace.

The smoke ascends  
In a rosy-and-golden haze. The spires  
Shine, and are changed. In the valley  
Shadows rise. The lark sings on. The sun,  
Closing his benediction,  
Sinks, and the darkening air  
Thrills with a sense of the triumphing night.

Night, with her train of stars  
And her great gift of sleep.

So be my passing!  
My task accomplished and the long day  
done,  
My wages taken, and in my heart  
Some late lark-singing,  
Let me be gathered in the quiet west,  
The sundown splendid and serene,  
Death!

—W. E. Henley.

Youngest Kentucky Attorney.

John E. Shepard, the son of a Methodist minister at Ludlow, Ky., has just been admitted to practice in the courts of Newport after passing a brilliant examination. Mr. Shepard is but 22 and is the youngest qualified attorney in the blue grass state.

## Blouse or Shirt Waist.

Banding in Oriental colors are to be noted among the features of linen and cotton waists, as well as of those made from wool and silk. This smart and novel model suits materials of all sorts, but is shown in heavy white linen with bandings of the same material.

The vest effect obtained by the narrow front is exceedingly becoming and quite novel, yet it in no way detracts from the simplicity and usefulness of the waist, which is equally well adapted to the entire costume and to wear with a separate skirt. Fronts, back and sleeves are all tucked to simulate box plaits which give tapering lines at the back and provide fullness over the bust.

The waist consists of fronts, center front, back and sleeves, with fitted waist and sleeve linings that can be used or omitted as preferred. The center front is plain and is stitched to the right front, hooked over onto the left beneath the tuck, so making the closing invisible. The sleeves are tucked to be snug above the elbows and form full puffs below, the center tucks being extended to the cuffs, so giving the line that is so notable a feature of the season.

The quantity of material required for the medium size is 4 1/4 yards 21 inches wide, 3 3/4 yards 27 inches wide, or 2 3/4 yards 44 inches wide, with 1 1/2 yards of banding 5 inches wide to trim as illustrated.

The pattern 4670 is cut in sizes for a 32, 34, 36, 40 and 42-inch bust measure.

When the fat for deep frying looks muddy while very hot, a handful of crushed egg shells would clarify it.

For making sandwiches, bread baked in large-sized baking-powder cans will be just the right size and free from crusts.

Cranberries are more tempting if strained before sweetened, made into a jelly and cut into cubes when cold, than in the ordinary used form of sauce.

To have celery very crisp but not soggy wash it thoroughly eight or ten hours before using; do not dry but roll in a towel and put on ice till time to serve.

## Candle Shades.

Floral designs are the favorite for candle and electric light shades. Tulips, poppies, and chrysanthemums of mousseline in delicate colors, and also those dipped in silver or gilt, are popular. The newest floral designs are novelties, however, and look like big bouquets or roses, poppies, daisies or nasturtiums. An unusual one showed

## A HANDSOME WAIST.

Double yokes are among the latest novelties seen and are eminently becoming and attractive. This handsome waist shows one of brown chiffon velvet and heavy ecru lace with a blouse of tan-colored voile, which includes elbow sleeves finished with frills of Pierre lace, the two laces on the one gown making a distinctive

Topics of General Interest to Our Feminine Readers—Fashion's Decrees in Wearing Apparel—Hints for the Housekeeper—Handsome and Simple Coat for Infant—Pretty Costume for Girl.

a foundation of red silk, covered with white daisies made of satin ribbon. Another elaborate candle shade was in art shades of silk shirred at the top and edged with turquoise beads. Large turquoise beads finished the bottom edge, from which hung a fringe of small beads put on in circular effect. Long pendants of beads hung like earrings between the circular fringe.

## Importance of Capes.

Capes are important factors on tailor-made gowns, and are an immense assistance in remodeling a last season's coat. A velvet cape and cuffs with perhaps a stitched belt and tabs, will bring a garment of last season quite up to the high-water mark of fashion.

## Misses' Military Coat.

All things that suggest the military are dear to the girl's heart and certain to find favor in her sight. This smart little coat includes a novel cape, that is laid in plaits over the shoulders, and the severe standing collar that is characteristic of the style. As shown, it is made of military blue chevrot, with bands of black braid and gold buttons, and is single breasted, with full sleeves, but various cloak-making materials are appropriate, and the cape can be omitted in favor of shoulder straps, and the coat can be made double breasted with plain sleeves substituted for the full ones when desirable.

The coat is made with fronts and backs and is fitted by means of shoulder, under-arm and center back seams, the under-arm seams being left open for a short distance at the lower edge to provide flare. The cape is circular and is rendered specially graceful by the plaits which are stitched for a part of their length only. The full sleeves are made in one piece each, gathered and held by the cuffs, but the plain ones are made in regulation coat style.

The quantity of material required for the medium size is 4 yards 27 inches wide, 2 3/4 yards 44 inches wide, or 2 1/2 yards 52 inches wide when cape is used; 3 yards 27, 2 1/2 yards 44 or 1 3/4 yards 52 inches wide when cape is omitted.

Pattern No. 4668.

## Fancy Trimmings.

Fancy trimmings, as well as buttons, will be a feature of the early spring frocks, as well as various embroideries. A good many graduated bands of taffeta, satin and velvet will also be used. In some cases these bands are very smart, but on the other hand they are apt to accentuate any tendency to stoutness. These bands of satin ribbon are most useful where renovations are concerned; for instance, in order to lengthen a frock a new flounce may be added beneath a band, and all of us who patronize the cleaner realize that some things must shrink a little.

## Infant's Coat with Shirred Cape.

Long coats that are handsome and simple in one always are in demand for the wee babies who must be kept warm while they breathe the fresh pure air. This one includes a novel cape, that is shirred to give a yoke effect, and is adapted to various materials, but is shown in ivory henrietta with the cape enriched with motifs of heavy lace. For greater warmth it is interlined with wool wadding and lined with white China silk. Bengaline, silk, Bedford cord and all the materials used for infants coats are, however, appropriate and the cape can be of the same, or contrasting material as preferred.

The coat is made with a shallow yoke and skirt portions that are gathered and joined to its lower edge. The sleeves are full and are gathered into wristbands and the cape is circular, shirred on indicated lines and arranged over a plain foundation which serves to regulate the fullness. At the neck edge is a narrow frill.

The quantity of material required is 5 1/2 yards 21 inches wide, 4 1/4 yards 27 inches wide or 2 3/4 yards 44 inches wide.

The pattern 4669 is cut in one size only.

## Girl's Costume.

Tucked frocks are much in fashion for girls and are exceedingly attractive as well as girlishly simple. This one is made of white batiste dotted with pale green, and is charming, but all the pretty washable fabrics, as well as the many soft wools and simple silks, can be utilized, any material that allows of tucking being appropriate.

The waist is laid in narrow, perpendicular tucks that form the yoke, and again in wider horizontal ones

4667 Girl's Costume, 8 to 14 years.

above the belt, and is gathered at the waist line and arranged over a body lining that can be cut away beneath the yoke when a transparent effect is desired. The bertha is circular and cut in deep handkerchief points at front, back and shoulders, and is eminently graceful. The sleeves are made in two portions each, the upper ones tucked, the under ones full, and are gathered into straight cuffs. The skirt is straight, tucked in two groups of three each, and gathered at the belt.

The quantity of material required for the medium size is 8 1/2 yards 27 inches wide, 7 yards 32 inches wide, or 5 1/2 yards 44 inches wide.

The pattern 4667 is cut in sizes for girls of 8, 10, 12 and 14 years of age.

## Latest Ideas in Lace.

The day of the heavy, rope-like lace is waning, and all the new sorts coming in now to trim summer frocks are on the Chantilly order, thin and airy as cobwebs. But most beautiful cobwebs they are, wrought upon with delicate wreaths of flowers and other designs suggesting the Pompadour period. Breton, alencon and the maline laces, as those with a basis of fine net-like maline are called, are going to have a great season. Last year one couldn't get laces coarse enough. The thing was perhaps overdone, which accounts for this revolution in favor of more dainty, fragile trimmings.

Readers of this paper can secure any May Manton pattern illustrated above by filling out all blanks in coupon, and mailing, with 10 cents, to E. E. Harrison & Co., 65 Plymouth Place, Chicago. Pattern will be mailed promptly.

## RADIUM A BLESSING

PHYSICIAN TELLS OF CURES IT HAS ACCOMPLISHED.

Diseases Which Had Been Thought Beyond the Power of Science to Help Have Vanished Before the Action of This Marvelous Substance.

The experiments of scientists with radium are daily revealing fresh curative properties in that wonderful and precious mineral. Perhaps the most curious instance of its influence is that recorded below of the cure of a somnambulist who was addicted to wife-beating.

This was described recently by Dr. Darier, the eminent oculist. In an interesting conversation which our Paris correspondent had with him he mentioned some curious results which he had obtained in his work by experimenting with radium.

He recently treated a case of rodent ulcer of the orbit, which had destroyed the ocular globe and all the tissues. Although the patient had for two years suffered from pains so intolerable that during that period he had not enjoyed a single night's rest, his agony was completely and almost instantly ended by the introduction of radio-active power.

External application of radium has shown that it is a powerful agent in calming neuralgic and rheumatic pains and in allaying the excruciating suffering caused by cancers which cannot be operated upon. On the other hand, Dr. Darier is bound to admit that he failed to obtain any definite result in so far as an improvement of the vision itself is concerned, and he does not regard as serious the talk of those who speak of restoring sight to the blind.

In a case treated by the doctor a woman who had long suffered from epileptic fits and giddiness has not had a single attack since radium of weak intensity was applied to the temple.

"Radium was also tried with success," said Dr. Darier, "on a male patient who suffered from strange somnambulist attacks, during which he would get up, maltreat his wife and break everything within reach. Then he would leave the house and roam about the streets for two or three hours, at the end of which time he would return home, go to bed and fall asleep again. So frequent did these violent fits become that his wife left him."

"He came to me and I treated him with radium applications for twelve days. Then he disappeared, and I heard nothing more of him for about three months, when he and his wife came to tell me that the affliction from which he formerly suffered had gone and that they were living together again."

"I have since treated other nervous patients with radium, notably a lady who suffered from photophobia, or fear of the light. She was very neurasthenic and believed that she was ataxic. She could not walk without falling and her eyes were so weak that she could not bear the light of day and had to wear dark spectacles. I diagnosed her trouble as neurasthenia of a hysterical origin and I tried radium applications of a stronger kind than in the cases I have already mentioned, three hours per day on both temples. At the end of the third day she could bear the light without spectacles and could read and do needlework."—London Mail.

## MAKE WORK FOR UNCLE SAM

Careless People Overburden the Dead Letter Department.

The paternal assiduity of your Uncle Samuel is shown in the statement that the dead letter department is the most overburdened with work of any in the postal service.

The recapitulation shows that there were, in round figures, 10,000,000 careless people in this country last year. Specifying, it tells of an increase of 850,000 over the year before.

The book list makes a special heading necessary, as it amounts to 1,000 lots, each containing many items, books in English and all foreign languages, hundreds of the best selling novels in the last four or five years, many copies of Shakespeare and an inconceivable array of religious subjects. Miscellaneous paper-backed novels in stacks are found.

The jewelry list alone would stock a large store. There are hundreds of wedding rings, all kinds of timepieces, table and other silverware, secret society emblems and pins.

## Humility.

Just the humblest flower that grows—  
If I may not have the splendor  
Of the rich, unrivaled rose—  
Let my life, resembling, tender  
To the little world it knows!

Just the faintest star ashine—  
If I may not blaze with glory  
Rivalling yonder splendid light—  
Let its softened glow be mine;  
Let me tell "the old, old story"  
To some pilgrim of the night!

Just the scent of withered bloom  
Pressed between Life's written leaves  
Linger softly in my room  
When I carry home my sheaves  
—Letta Virginia Douglas in Philadelphia Record.

## Large Induction Coil.

The largest induction coil, which produces the longest spark for service in wireless telegraphy, is said to be the one which is used for flashing messages between the coast of Japan and Korea. It can produce, in fact, a miniature streak of lightning 45 inches in length, capable of killing any number of persons who might get in its way, and when in operation sends out something like thunder rolls. The entire apparatus weighs about 2,000 pounds.

# EIGHT YEARS OF TORTURE.

No suffering more keen than kidney suffering. Sick kidneys make bed blood; cause weak, stiff and aching backs; cause blind, sick and dizzy headaches, lack of appetite and loss of sleep; keep you all tired out and spoil digestion.

To have perfect health, you must cure the kidneys. Read how one man was cured by Doan's

Kidney Pills after eight years of torture. Henry Soule of Pultney St., Hammondsport, N. Y., says: "For eight years I suffered constant agony from kidney complaint. I endured the worst torture from gravel and the kidney secretions were excessive and contained sediment like brick dust. I had to get out of bed from ten to twenty times a night and the loss of sleep wore me out. Indigestion came on and the distress after eating was terrible. Doan's Kidney Pills effected a complete and lasting cure, and after the symptoms of kidney trouble were gone my stomach began to work as it should. This lasting cure, especially in a person of my age, proves the great value of Doan's Kidney Pills more convincingly than could any words of mine."

Doan's Kidney Pills sold by all druggists; price 50 cents per box, or mailed on receipt of price by Foster-Milburn Co., Buffalo, N. Y. Write for free trial.

## Japanese Viscountess.

Viscountess Hayashi, wife of the Japanese ambassador to England, is a very charming member of the diplomatic circle, and both she and her husband possess hosts of friends. She owns the quaint and pretty name Misao. On certain days during the season the Japanese legation in Grosvenor Gardens sees an influx of Japanese visitors, who are entertained after the fashion of the far East with curious cake and native dishes, and Japanese tea. Viscountess Hayashi is an exceedingly cultivated woman, who shares her husband's love of England. The Japanese ambassador was, indeed, educated in England, and is a D. C. L. of Oxford university.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

## British and American Areas.

The area of Canada is 3,745,574 square miles and the population estimated in 1902 at 5,456,931, or 1.5 persons to the square mile. The total area of the United Kingdom is 121,371 square miles, with a population of 41,605,220. The total area of the United States, including Alaska, is 3,610,035 square miles, with, in 1900, a population of 76,149,386.

One of the latest publications by Paul Elder & Co. (San Francisco) is the "Psychological Year Book," compiled by Janet Young; the object of the compilation being to illustrate the active influence of the power of thought in practical affairs. The volume is artistically printed and daintily bound.

## Railway Hedge Fences.

A bill has been introduced in the New York legislature looking toward the removal of all hedge fences along railway tracks, on the ground that such fences do a considerable amount of harm by banking up snow, while no practical good is derived from them.

## Mother Gray's Sweet Powders for Children.

Successfully used by Mother Gray, nurse in the Children's Home in New York, cure Constipation, Feverishness, Bad Stomach, Teething Disorders, move and regulate the Bowels and Destroy Worms. Over 30,000 testimonials. At all druggists, 25c. Sample FREE. Address A. S. Olmsted, Le Roy, N. Y.

The fair champion of the dew bath is Miss Vesta La Vesta of New York. Vesta just divests herself of her vesture and stands among the dewdrops until the last vestige of weariness has evanesced. It's all very sweet and vestal.

The table of contents for March, 1904, "Impressions Quarterly" (Paul Elder & Co., San Francisco) contains announcements of many articles of highest literary merit. The new cover design is especially artistic.

## Rheumatism's Killing Pain.

Left in quick order after taking 10 doses of Dr. Skirvin's Rheumatic Cure, in tablet form. 25 doses 25c, postpaid. WIS. DRUG CO., LA CROSSE, WIS. (W. N. U.)

Do not dare to live without some clear intention toward which your living shall be bent. Mean to be something with all your might.—Phillips Brooks.

## Defiance Starch

should be in every household, none so good, besides 4 oz. more for 10 cents, than any other brand of cold water starch.

He laughs best who laughs first, when you have made the joke.

Smokers find Lewis' "Single Binder" straight 50 cigar better quality than most 10c brands. Lewis' Factory, Peoria, Ill.

Charity covereth a multitude of sins.

# TICKLE GRASS

BY BYRON WILLIAMS

The Snow Man's Romance. A snow man made love to a pretty snow drift. Way down in the orchard where all was quite still! He stretched forth his arms in a pleading of love, But this little snow drift was haughty and chill!

The snow man loved on in his own patient way. Until the cold snow drift was softened and won! Then, suddenly, burst through the dark clouds overhead A heat that was called by the South Wind, the Sun!

It melted the man that was molded of snow; It thawed all the pretty snow drift in a day! And gladly their lives did the two lovers join To sing in a river, forever, away!

## Realization.

Pleasure is always greatest when least expected. It is like twins that come all unheralded. It's charges and sallies may rout trouble at any turn; but court it, and like a frightened dog, it backs away slowly, distrustful. How often have you looked forward, for weeks, to the plucking of a pleasure-flower that dropped its withered petals at your plucking! And, again, how happiness has taken possession of your very heart o'er the unexpected finding of a \$5 bill in your old clothes that your wife has forgotten to give to the dog! You rejoice in that William valingloriously; and, inasmuch as your

## "NICE DOGGIE!"

wife doesn't know you have it, you decide to "see a man" downtown that night and spend it. You do! And there's no pleasure in it at all—next morning! This is the way of the world. Queer old world, isn't it?

## The Way of the World.

We fret, Regret—And sweat—And yet Forget—You bet!—New Orleans Times-Democrat. We dream, We choose—We bet, We lose. —New York Sun

We sigh For pie, We try, We vie, Fly high—And die. —Chicago Record-Herald.

We weep, We creep—And weep! We leap, And reap! Then sleep A heap Down deep!

## Rag Weed.

"Who owns the United States?" demands a bold questioner. Not I, kind sir.

If inspiration bought the baby shoes, the poet would have sufficient footwear to endow an orphan asylum. All the world loves a lover, at least until the wedding cigars have been passed!

Now that war is on between Japan and Russia, we tremble to think of the suffering that will be caused by the magazines.

An exchange complains that a Washington man drank seventeen beers and died! Why plaiteth our brother? Was not that heaven enough for any man?

A society reporter tells of a fashionable party at which every guest arrived on time. Such lack of breeding prompts one to gasp, "Whither, oh whither, are we drifting?"

## Hard on the Dog.

A hobo asleep on a haycock one day, Was nipped by a dog as he lay on the hay; "Oh, run for your life," cried the farmer, "Oh fly!" For Fido was mad and I fear you will die!

## "GO BURY YOUR DOG."

"Fear not," said the hobo, "a scratch that's scarce red—Go bury your canine—I see he is dead!"

The farmer he took to the first woods in sight, For fear that the hobo would offer to bite!

We read—ah!—a man smoked and lived 101 years. Here, office boy, skip across the street and get ten cents worth of stogies! We guess that'll add about ten years more to our longevity.

## Some Queer Hobbies.

Hobbies have been known to develop into absolute crazes, and it has been argued that, carried to excess, they occasionally invert our moral equilibrium. Yet hobbies reasonably treated have many points in their favor, and they have often been an undoubted boon to young people of both sexes.

We all know the boy or girl who has passed through the various phases of collecting, from white rats, rabbits and guinea pigs to birds' eggs and postage stamps; of the latter many boys possess collections of value. The picture postcard has evidently come to stay; it makes a pleasant souvenir of one's travels, and is indulged in by old and young indiscriminately.

The latest grown-up fad is the collection of liqueur bottles, which are to be had in many quaint shapes. They are quite a familiar sight now in drawing rooms, on mantelpieces or tables.

Princess Ferdinand of Bulgaria collects perfume bottles, and inherited a collection from a relative which is said to be worth £5,000.

A well-known society woman has a magnificent collection of fans, another of shoes of a bygone age, and so our hobbies go on in bewildering variety.

## For Growing Girls.

West Pembroke, Me., March 21—Mrs. A. L. Smith of this place, says that Dodd's Kidney Pills are the best remedy for growing girls. Mrs. Smith emphasizes her recommendation by the following experience:

"My daughter was thirteen years old last November and it is now two years since she was first taken with Crazy Spells that would last a week and would then pass off. In a month she would have the spells again. At these times she would eat very little and was very yellow, even the whites of her eyes would be yellow.

"The doctors gave us no encouragement, they all said they could not help her. After taking one box of Dodd's Kidney Pills, she has not had one bad spell. Of course, we continued the treatment until she had used in all about a dozen boxes, and we still give them to her occasionally, when she is not feeling well. Dodd's Kidney Pills are certainly the best medicine for growing girls."

Mothers should heed the advice of Mrs. Smith, for by so doing they may save their daughters much pain and sickness and insure a healthy, happy future for them.

## A Bird's Foot.

The typical vertebrate limb, variously modified in the arm of a man or the forelimb of a cat or frog or bird, has one bone in the upper arm, which gives support to two in the forearm, which similarly yield to four at the wrist and from these five digits can just comfortably be extended. The bird, however, decided to fly rather than grasp with its hand, so that three and a half fingers are all it has retained of the five which its reptilian ancestors bequeathed to it.

"The World To-Day" has many features that will appeal particularly to the busy man, as it contains monthly the latest information in every department of human progress. The able treatment of the "Events of the Month," "The World's Thought," "The Calendar of the Month," with leading articles will give a clear insight into the world's happenings. The Cumulative Index makes it convenient for quick reference.

## Insist on Getting It.

Some grocers say they don't keep De-fiance Starch. This is because they have a stock on hand of other brands containing only 12 oz. in a package, which they won't be able to sell first, because De-fiance contains 16 oz. for the same money. Do you want 16 oz. instead of 12 oz. for same money? Then buy De-fiance Starch. Requires no cooking.

The "Twentieth Century Home" is the title of a new magazine the Cosmopolitan Co. are offering to the reading public. It is devoted entirely to the interests of women and the home and is unusually attractive, being finely printed and illustrated.

Ask Your Dealer For Allen's Foot-Ease, A powder. It rests the feet. Cures Corns, Bunions, Swollen, Sore, Hot, Callous, Aching Sweating Feet and Ingrowing Nails. Allen's Foot-Ease makes new or tight shoes easy. At all Druggists and Shoe stores, 25 cents. Accept no substitute. Sample mailed FREE. Address Allen S. Olmsted, Le Roy, N. Y.

We are to respect our responsibilities, not ourselves. We are to respect the duties for which we are capable, but not our capabilities simply considered.—W. E. Gladstone.

Excessive grief, like excessive joy, being violent in its nature, is of short duration. The human heart is incapable of remaining long in an extreme.—Victor Hugo.

The Best Results in Starching can be obtained only by using De-fiance Starch, besides getting 4 oz. more for same money—no cooking required.

Love should be the supreme thing, because it is going to last; because in the nature of things it is eternal life.—Drummond.

## BO-KO BALM.

Cures sore throat in a night. Relieves congested lungs and inflammation of the chest. 50 cents. Ask the druggist.

If we cannot live so as to be happy, let us at least live so as to deserve happiness.—Fichte.

When You Buy Starch buy De-fiance and get the best, 16 oz. for 10 cents. Once used, always used.

Straight tip: Buy radium. It is going up.

# THE OLD FOLKS AT HOME

## Are Never Without Peruna in the House for Catarrhal Diseases.

MR. AND MRS. J. O. ATKINSON, INDEPENDENCE, MO.

UNDER date of January 10, 1897, Dr. Hartman received the following letter:

"My wife had been suffering from a complication of diseases for the past 25 years. Her case had baffled the skill of some of the most noted physicians. One of her worst troubles was chronic constipation of several years' standing.

"She also was passing through that most critical period in the life of a woman—change of life. In June, 1895, I wrote to you about her case. You advised a course of Peruna and Manalin, which we at once commenced, and have to say it completely cured her. She firmly believes that she would have been dead only for these wonderful remedies.

"About the same time I wrote you about my own case of catarrh, which had been of 25 years' standing. At times I was almost past going. I commenced to use Peruna according to your instructions and continued its use for about a year, and it has completely cured me.

"Your remedies do all that you claim for them, and even more. Catarrh cannot exist where Peruna is taken according to directions. Success to you and your remedies."

John O. Atkinson.

In a letter dated January 1, 1900, Mr. Atkinson says, after five years' experience with Peruna:

"I will ever continue to speak a good word for Peruna. In my rounds as a traveling man I am a walking advertisement for Peruna and have induced many people during the past year to use Peruna with the most satisfactory results. I am still cured of catarrh."

John O. Atkinson.

Box 272, Independence, Mo. When old age comes on, catarrhal diseases come also. Systemic catarrh is almost universal in old people.

This explains why Peruna has become so indispensable to old people. Peruna is their safe-guard. Peruna is the only remedy yet devised that meets these cases exactly.

Such cases cannot be treated locally; nothing but an effective systemic remedy could cure them. This is exactly what Peruna is.

If you do not receive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis. Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

# Maple-Flake

FLAKED PURE  
WHOLE MAPLE  
WHEAT SYRUP

A delicious cereal, as well as healthful; and economical enough for all.

# DOLLAR HUMOR CURE

## From Pimples to Scrofula From Infancy to Age

To those who have suffered long and hopelessly from Humors of the Blood, Skin, and Scalp, and who have lost faith in doctors, medicines, and all things human, CUTICURA Soap, Ointment, and Pills appeal with a force hardly to be realized. Every hope, every expectation awakened by them has been more than fulfilled. More great cures of Simple, Scrofulous, and Hereditary Humors are daily made by them than by all other Blood and Skin Remedies combined, a single set, costing but one dollar, being often sufficient to cure the most distressing cases when all else fails.

Sold throughout the world. Cuticura Resolvent, 50c. (in form of Chocolate Coated Pills, 25c. per vial of 60), Ointment, 50c. Soap, 25c. Depot: London, 27 Chancery House Sq.; Paris, 5 Rue de la Paix; Boston, 137 Columbus Ave. Potter Drug & Chem. Corp., Sole Props. Send for "All About the Skin and Scalp."

"From the cradle to the baby chair."

## HAVE YOU A BABY?

If so, you ought to have a

# PHOENIX WALKING CHAIR

(PATENTED)

## "BETTER THAN A NURSE."

OUR PHOENIX Walking Chair enables the baby to learn to walk, without injury or excessive exercise. It is impossible for the child to fall and injure itself, and it enables it to walk without assistance, thus gaining confidence in itself at once. It is well made, and is provided with a sanitary cloth removable seat; it also has a table attachment which enables the baby to enjoy itself with its toys without further attention. This chair is so constructed that it prevents colds and diseases from drafts or floor germs. It will prevent enough soiled clothes to pay for itself. It is attractively made and is an ornament to any home, and baby will get more strength, comfort and enjoyment out of it than any other chair you can get.

"As indispensable as a cradle."

MANUFACTURED ONLY BY

## PHOENIX CHAIR CO.

SHEBOYGAN, WIS.

Can only be had of your furniture dealer.

GOOD SPIRITS.

Good spirits don't all come  
from Kentucky. Their main source  
is the liver and all the fine spirits  
ever made in the Blue Grass State  
could not remedy a bad liver or  
the hundred and one ill effects it  
produces. You can't have good  
spirits and a bad liver at the same  
time. Your liver must be in fine condition  
if you would feel buoyant, happy  
and hopeful, bright of eye, light  
of step, vigorous and successful  
in your pursuits. You can put  
your liver in fine condition by  
using Green August Flower—the  
greatest of all medicines for the  
liver and stomach and a certain  
cure for dyspepsia or indigestion.  
It has been a favorite household  
remedy for over thirty-five years.  
August Flower will make your  
liver healthy and active and thus  
insure you a liberal supply of good  
spirits. Trial size, 25 c; regular  
bottle, 75 c. At T. M. Smiths.

A man who wants the town to  
build a town hall, so as to help  
build a store room, for a private  
firm said I had caused more ditch-  
ing in Upland than any other man.  
"This ditching was to supply the  
people with water. The town has  
not helped this water works, which  
is a public benefit. Why should  
the town help build a store  
room, which is only a private be-  
nefit.

For nearly eleven years, I have  
worked at this water business;  
when I commenced this co. was  
in debt more than this plant was  
worth and the co. had no well. We  
now have a water well, and have  
greatly improved this plant; we  
have paid all the money we re-  
ceived for water for the expense of  
the co. The debts of the co. and  
to improve the plant and I have  
paid for the co. over four hundred  
dollars, more than I received  
from the Co.

We now supply with water: The  
Deeren factory; King and Teeters  
factory; a saw mill; a flour mill;  
the Steele Elevator; two livery  
barns; two gas and oil wells; and  
a majority of the people of Up-  
land.

In the future towns as large as  
Upland, will have water works;  
people will not continue to drink  
stagnant water from cisterns, and  
old wells.

Nature gives air and water per-  
petual motion to make them pure  
and healthy. The waters of the  
earth, by the forces of nature, are  
lifted up, to the higher atmo-  
sphere, where they appear in clouds,  
from which, these waters return  
to earth, as rain or snow, which  
falls on the mountains, hills and  
valleys, to be returned to the  
ocean; through God's innumera-  
ble ditches. God is the original  
and greatest ditcher. He has done  
more ditching than all the child-  
ren of men. Many of his ditches,  
like the Wabash, are not large  
enough for heavy rains. They  
sometimes overflow, and destroy  
people and property. Yet these  
ditches are good. They are the  
channels through which the waters  
continue their perpetual motion,  
without which people could not  
live.

If I have caused more ditching,  
than any other man to supply the  
people of Upland, with pure and  
healthy water, then, in this work,  
I have walked more nearly in the  
foot-steps of God, than any other  
man in Upland. For no other man,  
has given a cent to help this water  
works since I commenced. The  
only help that was given, was given  
by a few men signing some notes,  
when we commenced this work.  
Show me, any other town in this  
state, where one man a poor man  
has supplied the people of his  
town with water without help from  
the town and without help from  
any other man; and who has work-  
ed at this thing for near eleven  
years for but little pay, and no di-  
vidend on his water stock, and  
who above all has endured, in this  
work, the annoyance of dishonest,  
unreasonable and selfish people,  
which must be endured by any  
man in a work like this.

We have now finished ditching,  
except to make a few short con-  
nections and to repair our lines.  
So now we will say farewell, and  
we hope a long fare well, to the  
grumbler. And I can truly say with  
the poet:

How dear to my memory,  
Are the scenes of these ditches,  
When fond recollection brings  
them to view.  
With the old fashioned grumbler,  
The moss covered grumbler,  
That grumbles so well. J. B.

## HURLEY CASE.

A number of Upland people  
went to Matthews Friday on the  
case of the state vs Milton Hurley.  
Hurley had agreed to appear for  
trial at Matthews and was let go  
without giving bond. He went to  
Matthews at the appointed time  
but his attorney asked him to re-  
fuse to appear and Hurley left  
town without the case being tried.

## PLEASANT VIEW.

Miss Fern Pugh entertained  
quite a number of her friends  
Thursday evening.

School closed at No 6 Tuesday  
a fine dinner was enjoyed by all.  
The afternoon was spent in cip-  
hering.

Miss Carrie Hankinson has re-  
turned to her home to spend the  
summer.

Quite a number of our young  
folks attended the entertainment  
given at College Hill, Friday  
night.

Miss Ethyl Mc Vicker will spend  
the summer in Florida, the guest  
of Miss Duncan.

Grandma Owings is reported ill.

Those that attended Conference  
at Muncie from our vicinity were:  
Mesdames G. F. Slates, O. W.  
Pugh, Wm Ginn, John Hankinson  
Mr. & Mrs. L. M. Linder, Misses  
Grace Mc Vicker, Carrie Han-  
kinson, Nora Linder & Jennie Mc  
Vicker.

Mrs Pat Ballenger and child-  
ren visited her mother last week.

The Huntington Co. is drilling  
for oil on the Lawrence Daugherty  
farm.

Milo Palsley is working for  
Howard Lyons.

A card from Rev. H. S. Nicker-  
son asks that his Monitor be sent  
to Fort Colden, N. J. where he will  
have charge of the M. E. church.

The wedding of Earl Marker to  
Rachel Fry occurred 1st week.

Asidore Ravaux, of Upland a  
native of Belgium, appeared before  
Clerk Wall and took out his first  
naturalization papers.

Henry Tilman was born in Bel-  
gium 91 years ago and died in  
Upland Friday from the infirmities  
of old age. The funeral was held  
Monday and interment was made  
at Jefferson cemetery.

The Upland bank, by its trustees,  
S. S. Johnson has sold a lot to Earl  
Sprunce who will proceed to  
build.

J. S. Giles has bought the old  
Wilhelm lot at the corner of Main  
and Jefferson street and will pro-  
ceed to erect a fine residence.

Mrs. Clara Pittinger Percy of  
Marion has been visiting relatives  
and friends in Upland this week.  
Mr. Percy has gone to Reading,  
Pa; to take charge of a high school.

By all means persons owning  
lots on south Main street with high  
banks abutting to the street should  
see to it that the banks are sloped  
and sodded at once, as the contractor  
is now finishing up the work.

The Woodmen of the World will  
give a public installation of officers  
at the G. A. R. Hall Thursday eve-  
ning. Among the charter mem-  
bers are the following:

Thos Noe, Marion and Grover  
Davis, Mate Sands, Clarence and  
Arthur Kendrick, K. E. Crosby,  
Bert and Harry Moreland, Arthur  
Chance, Lloyd Jones, Dr. Jeffrey,  
Logan Randolph, Jasper Hiatt,  
Chas. Daily and Chas. 44cks.

NOTICE TO NON RESIDENTS.  
State Of Indiana, Grant County, SS;  
Superior Court of Grant County,

May Term, 1904  
Ida L. Dehoff vs. John B. Dehoff No 1984  
Complaint for divorce. Be it Known. That  
on this 19 day of April A.D. 1904 the above  
named plaintiff, by her Attorneys, filed in the  
office of the clerk of the Superior Court of  
said Grant county her complaint against  
said defendant in the above entitled cause  
together with an affidavit of a competent  
person that the following named defendant  
John B. Dehoff is not a resident of the  
state of Indiana.

Said defendant is therefore hereby not-  
ified of the filing and pendency of said com-  
plaint against him and that unless he ap-  
pear and answer or demur thereto at the  
calling of said cause on the 17th day of  
June, A. D. 1904, the same being the 17th  
judicial day of the May term 1904, of said  
court to be begun and held at the court  
house in Marion, on the 5th Monday in  
May 1904, said complaint, and the things  
therein contained and alleged, will be  
heard and determined in his absence.  
Witness the clerk and seal of said court  
this 19th day of April 1904

M. M. WALL.  
Clerk of the Grant Superior Court.
