FIRM IS GRANTED AN OPTION FOR
DISPOSITION OF PRESENT CAMPUS

Two Indianapolis businessmen, Messrs. William H. Keller, Jr. and Robert R. Goldstein, have been granted the option to purchase the present campus of Taylor University, President B. Joseph Martin has announced.

Keller and Goldstein, top officials of "Joint Ventures," have been optimistic over responses to inquiries concerning the disposition of the campus.

"As we continue to explore the potential uses (of the campus), we find that the arc of possibilities is ever widening. At this time we have at least 20 organizations who have expressed interest, and we haven't even scratched the surface. Some of the many possibilities now being pursued include the following: technical school, community junior college, theological seminary, retirement facility, industrial research center, agricultural college, specialized hospital and research center, and many more."

These officials anticipate that plans for the conversion of the campus facility to another use will be completed within the next year.

Commenting on the total relocation project, President Martin stated:

Faculty, Staff, Students
Pledge Over $44,000 for
Administration Building

The Taylor faculty and staff have already pledged over $32,000 toward their goal of $50,000 for the construction of the new administration-classroom building on the Fort Wayne campus.

Earlier, the student body, during a special convocation, "Taylor Futurama," pledged $12,500 toward their goal of $20,000, for Taylor's new headquarters.

The new administration - classroom building is the joint project of the Trustees, alumni, parents of students, faculty and staff, and students.

"One does not undertake the Herculean task of moving a college without some very persuasive motivation behind such an effort. Taylor has sought to face squarely the problem of her expanding responsibility to our nation and its youth in the immediate years ahead. With the (Continued on page 2)
Taylor Dean Moderates Middle East Seminar

Dr. Milo A. Rediger, Academic Dean, participated as panel moderator in a Middle East Seminar held recently at Ball State Teachers College.

Taylor co-sponsored the seminar with Ball State, Anderson and Marion Colleges, for the purpose of furthering studies of the non-Western world. A Ford Foundation grant assisted in sponsoring the conference, the first of three.

Comprising one of the largest delegations, Taylor representatives attended the four-session program dealing with the twelve states stretching from Pakistan to Morocco. Featured speaker was Dr. Charles F. Gallaher, an expert in Arab affairs and a member of the American University’s field staff.

FIRM GRANTED OPTION

(Continued from page 1)

anticipated nationwide doubling of college enrollments Taylor will be called upon to train as many students in the next ten years as in all her previous 116 years combined.

“If those who guide the destiny of Taylor had chosen the ‘status quo,’ the Upland campus would continue to be an ideal setting. However, college officials are firmly convinced that the Taylor of tomorrow must be a Christian University with a greatly expanded enrollment, several professional schools, and additional departments as the need warrants,” the President continued.

“The in-service training and laboratory possibilities in Fort Wayne are also a decisive academic factor. There, Taylor students will be able to receive valuable laboratory training in medical technology, psychology, sociology, nursing, Christian education, the ministry and other fields.

“Needless to say, progress has its price. In moving from Upland, the college will have to leave the community of which it has been a part since 1893. So close have been the ties, as ‘town and gown people’ have worked together in civic and church affairs, that it is difficult to tell where the college leaves off and the town begins.

“But, the hour is heavy with destiny. These are days of emergency for America and our way of life as free men. We feel it is our duty to train as many young people as possible, as thoroughly as possible and as quickly as possible to safeguard the future of our country and the free world,” Dr. Martin concluded.
Plans for Spring Revival Are Announced

Speaker for the annual Spring Revival, February 11-17 will be Dr. Andrew F. Gallman, pastor, Poplar Springs Drive Methodist Church, Meridian, Mississippi.

A leading evangelistic voice in southern Methodism, Dr. Gallman is District Secretary of Evangelism, and previously served as Chairman of the Mississippi Conference Board of Evangelism for four years.

He has spoken in many parts of the country at revivals, camp meetings, youth institutes, and college campuses. Dr. Gallman is also vice president of the Board of Trustees, Asbury Theological Seminary, his alma mater.

No stranger to the Taylor campus, Dr. Gallman was the revival speaker four years ago. Evening services will be held at 7:00 Monday-Thursday and 7:30 on Friday, Saturday and Sunday nights. The public is invited.

Sixth Annual Science Lecture Series Set

The Sixth annual Science Lecture Series will be presented at Taylor University March 19-21 and will again feature five noted American scientists.

Guest participants and the fields they represent include Dr. Ralph T. Overman, Chairman, Special Training Division, Oak Ridge Institute of Nuclear Studies, (atomic energy); Dr. Marie Conklin, Chairman, Department of Biology, Adelphi College, (botany); Dr. Harry Beavers, Department of Biological Sciences, Purdue University, (plant physiology); Dr. Gilbert H. Ayres, Department of Chemistry, The University of Texas, (analytical chemistry); and Dr. O. Hobart Mowrer, Department of Psychology, University of Illinois, (psycho-therapy).

The first three speakers named will appear under the auspices of the American Institute of Biological Sciences, while the visit of Dr. Mowrer is sponsored by the American Psychological Society. Dr. Ayres is a graduate of Taylor University.

The Series is planned and conducted by the Science Club of the college.

SCIENTISTS REPORT FINDINGS

Radiation Research Programs Continue

Experiments with radioactive tracer gases are continuing for the fourth consecutive year under sponsorship of the Atomic Energy Commission, Dr. Elmer Nussbaum, Director of Research, has announced.

Using the radioactive gases, radon and tritium, Dr. Nussbaum has sought to determine the diffusion rates of these gases through semi-permeable materials such as rubbers, plastics, films, and metals.

"Results have indicated that the new silicone rubbers are much less impervious to gases than some of the other synthetic rubbers," Nussbaum stated. "Tests with platinum and aluminum reveal that these metals are very effective barriers.

"We hope to start experimenting with tritium labeled methane in about two months," the scientist commented. "Methane is normally a non-radioactive gas but the molecules can be 'tagged' with radioactive tritium atoms. It is then possible to utilize methane in much the same way as radon and tritium."

New Members Added To Associates Board

In anticipation of the move to Fort Wayne the Taylor University Board of Associates has added four new members from Fort Wayne and surrounding areas.

Elected to serve as Taylor Associates were Norval S. Rich, M.D., Decatur, Indiana; Merle M. Rocke, Fort Wayne; D. L. Haffner, Garrett, Indiana; and Lester Rich, Archbold, Ohio. Dr. Rich is a Taylor graduate.

These additions increase the Associate Board membership to twenty-five. The group was organized in 1954 for the purpose of strengthening the college by broadening the base of Taylor's financial structure.

BOB DAVENPORT NAMED "COACH OF THE YEAR"

Following the best football season in Taylor history, head coach Bob Davenport was named "Coach of the Year" by both the Hoosier Conference and the N.A.I.A. which represents 16 Indiana colleges. In addition, five Taylor players were named to the All-Conference team.

Religion Forum Features Reformation Authority

The annual Religion Forum will be held March 2, Friday, with guest lecturer George W. Forell, Professor of Protestant Theology, the State University of Iowa.

An authority on the history of the Protestant Reformation, Dr. Forell received the B.D. degree from Lutheran Theological Seminary, the Th.M degree from Princeton Theological Seminary and the Th.D. from Union Theological Seminary. He also studied in Germany and Austria, and, in 1957-58, under the Fulbright Act.

His numerous books include The Protestant Faith and Luther and Culture.

Dr. Ralph Thompson, chairman of the division of philosophy and religion, is in charge of the program. Dr. Forell's address is scheduled for 8:00 p.m. in Shreiner Auditorium.
FIRST MASTER TEACHER AWARD CONVOCATION HELD

A unique event for the college education department, the first annual Master-Teacher Award Convocation was held November 30th, with approximately 500 public school officials and teachers, and Taylor faculty members and education students present.

The first recipients of Master-Teacher Awards were Miss Agnes Scott of the Marion Public Schools, for outstanding service in secondary education, and Lester George, Principal of the Nicholson School, Richmond, Indiana, who was honored for his service in elementary education.

In addition to the citations, each Master-Teacher was presented with a certificate by President Martin and received a gift from the Student Education Association of the college.

Featured speaker for the convocation was Miss Corma Mowrey, Associate Director of Lay Relations, National Education Association, Washington, D. C.

Other participating officials were William Wilson, Indiana State Superintendent of Public Instruction, and Robert Wyatt, Indiana State Teachers Association Executive Secretary.

An exhibit of literature from both the N. E. A. and the I. S. T. A. was displayed. Rhoda Williams, local services director of the I. S. T. A., was present to explain the materials.

In charge of the event was Dr. Robert Hayes, Chairman of the Taylor Division of Education.

Each year one elementary and one secondary teacher are to be selected for the Master-Teacher Award from among a group of Indiana public school educators who will be nominated by their peers. Criteria for the selection include professional education, teaching experience, professional affiliations and activities, and community service.

Both the Marion and Richmond school systems participate in the Taylor student teaching program. Other cities and schools include Fort Wayne, Bluffton, Alexandria, Berne, Fairmount, Hartford City, Kokomo, Mississinewa, and Oak Hill.

Annual Youth Conference Scheduled April 6-8

The 1962 Youth Conference will be held April 6-8, with guest speakers Rev. James Mannoia and Dr. J. T. Seemonds.

Co-chairmen for the three day meeting are Judy Johnson, senior from Freddie, Wisconsin and Gary Petzold, senior from Detroit, Michigan.

Registration is limited to 1,000 young people between the freshman year in high school and 23 years of age. For reservations, contact Elaine Brunz, Youth Conference Registrar, Box 741, Taylor University.

Students invite alumni and friends to pray for the services.

Gary Petzold and Judy Johnson

Odlemen Take Tourneys; Win Ten Straight Games

The Taylor basketball team, taking up where the championship football team left off, fashioned ten straight wins without defeat, through December 12. This skein included two tournament championships — both the Earlham and Taylor Tourneys, and a 79-73 conquest of powerful Calvin.

Trailing 38-31 at half-time, the Odlemen pulled away from the Calvin Knights with a devastating long-shot barrage by Ray Durham and some close-up fireworks by Billy Hwang, Don Schwarzkopf, Moose Paul and company. Paul was named “most valuable player” in the Richmond Tourney, while senior Tim Diller took individual honors in the Taylor meet.

The Trojans will have their hands full the rest of the season facing unusually strong Hoosier Conference competition, plus several well-respected outside challengers.

Scores to date are as follows:

- Taylor 86 Huntington 67
- Taylor 102 Tri-State 66
- Taylor 66 Marian 55
- Taylor 72 Earlham 52
- Taylor 95 Indiana Tech 87
- Taylor 112 Grace 79
- Taylor 93 Cedarville 84
- Taylor 85 Hanover 62
- Taylor 79 Calvin 73
- Taylor 96 Goshen 80
