UNIVERSITY EVANGELISTS:

REV. C. E. ROWLEY.

MRS. HATTIE ROWLEY.
"Thanks be to God which giveth us the victory." The year 1898-99 has been in every respect the best year in the history of Taylor University. More students have been enrolled and students of a more advanced grade, more donations to our library and apparatus have been received, more persons at a distance have sought enrollment as non-resident students, and the religious interest has been deeper and more general than ever before.

MOONEY LIBRARY.

We have received valuable donations of books this year from many individuals; the credits are given to each under the general head of "Donations Received." The total number for the year will aggregate nearly a thousand volumes.

STEMEN LABORATORY.

The chief addition to this department during the year has been a gas engine manufactured wholly within the college; an electrical plant is in process of construction.

WALKER MUSEUM.

This splendid foundation is constantly increasing in size and value and will soon be too large for its present quarters. The collections are distributed in the three general departments of Geology (including Archaeology), Botany and Zoology. The specimens have been selected with care and are of constant use; their arrangement is especially adapted to the purpose of comparative study.

During the past year the Museum has received among other gifts two large cases from President T. C. Reade, a number of Mollusks from Prof. and Mrs. C. L. Clippinger, from Rev. B. H. McCoy a number of Paleozoic Brachiopoda and Echinoderms, and a valuable collection, comprising the several departments, from the Geology Class of 1899. Through the efforts of Mr. W. W. Burton, our Philatelist, a Stamp Album has been secured, the donation of the H. C. Mekeel Stamp Co., of St. Louis, Mo.

NO DEBT.

It is the policy of the University to keep clear of debt, hence at the close of this scholastic year she can
"Look the whole world in the face
For she owes not any man."

OUR TELESCOPE.

On the southern part of our campus is located our beautiful telescope. It is a 10½ in. reflector and was made by Lohmann Brothers, of Greenville, Ohio. They are not excelled in perfection of work nor in reasonableness of prices.

It is elaborately mounted and is protected by an observatory which is a gem of beauty. It is one of the few large instruments in the state; perhaps the largest of its kind. The plant is valued at $1000. This instrument is sufficiently large for all class purposes but is not so ponderous and unwieldy as to be of no practical benefit to students. Viewing the heavens is a delightful and profitable exercise that is kept up during the whole year.

OUR MICROSCOPE.

Last year we secured a fine $40 microscope for class use and this year we have added $75 worth of objectives and eye-pieces which make the instrument complete and equal to the best that can be found anywhere.

THE CHINZEI SEMINARY.

We believe that Taylor University is the only Methodist School that has an associated College in a foreign country. The Chinzei Gakwan (Seminary) is the largest Methodist school in Japan and began last year to receive its diplomas from our University. It maintains a comprehensive course of study and the enrollment for the past term has been 125 students. The report comes to us that every boarding student in the school the past year has sought and found Christ. Rev. E. R. Fulkerson, Ph. D. Litt. D. is the President of the Seminary.

CURRICULA.

Before presenting our Courses of Study we wish to explain that our aim is to keep our Curricula harmonious with all other Methodist Colleges and equal to those of the best colleges of the country. Up to this time we do not know of a single case where a student of Taylor Universi-
ty, going to another College has been refused the rank and standing to which he would have been entitled had he remained with us. Any one who will examine our Academic Course will be convinced that our work is of a high order; we propose to make scholars who can hold up their heads among the learned of the land. In the college work proper we have four years crowded with good, solid studies. We have aimed, by the elective system, to give our pupils as large a variety as possible but in no case have we, by this system, depreciated the high character of our work.

PROFESSIONAL COURSES.

In the professional work for teachers we present a course which we think, in every particular, equal to that of our State Normal and of other great Normal Schools of the country. We are educating scores of teachers every year and their standard averages well with that of the students of other schools. In our theological work we have had two points in view; first, to provide courses of study for undergraduates who are only able to spend about three years time in college and must then hasten on to their work in the ministry and, second, to provide a thorough course of professional study, of the highest grade, and adapted only to college graduates. In accomplishing these two things we believe we have succeeded well.
The following are the Courses of Study presented by Taylor University and open to all her students.

COMMON SCHOOL BRANCHES.

There will be classes in all the following branches of study during every term:
- Arithmetic, Penmanship, Reading and Elocution, Grammar, History, Physiology, Spelling and Defining.
- A student is supposed to have completed all these branches before he begins any of the college courses which follow.

UNIVERSITY SENATE.

Before presenting the next two courses it will be proper to state that the Methodist Episcopal Church through its General Conference has appointed a number of learned men to have the oversight of the curricula of all Methodist schools. These men constitute what is called the University Senate and we have had careful reference to the instructions of this Senate in arranging our courses of study. It affords us pleasure to say that the work of the Senate is radical and far-reaching and, so far, has evinced great wisdom. It must accomplish vast good in systematizing and unifying the work of our colleges. We give as the preparatory work for the two courses which follow just what the University Senate has prescribed.

PREPARATORY TO THE PHILOSOPHICAL COURSE.

ANNOUNCEMENT OF THE MUSIC DEPARTMENT.

THE MUSIC DEPARTMENT AND ITS AIM.

The Music Department of Taylor University offers to its patrons, first-class advantages for a practical and complete musical education. It is a school where music is taught not merely as an accomplishment, but as a science as well. It is the object of a musical education to awaken and refine sentiment. Therefore, we use only the best works; those which are calculated to educate and develop the appreciation of the beautiful.

Pupils are examined and assigned work suitable to their advancement upon entering the department.

THE STUDY OF THE PIANO-FORTE.

Students studying this branch are taught a proper position, touch, how to play with expression, correct time, etc. The greatest care is taken to establish a thorough technical foundation. The foundation of a true legato touch is the foremost matter with the average pupil.

The course for the Pianoforte will require from four to five years for completion, according to the ability of the pupil. Promotion is not limited by time, but depends upon the progress of the student. It is advisable that one should begin the study of music with the determination of completing at least a certain part of the course, if not the whole. Instruction is given by private lessons, and in classes of two or three students of equal advancement.

COURSE OF STUDY.

Grade III—Loeschorn, Opp. 66; Heller, Op. 47; Prentice; Bertini, Opp. 677.
Grade V—Czerney, 50 Finishing Studies; Cramer.
Grade VI—Hensett, Op. 5; Book I. Bach, Preludes and Fugues.

SONATINES AND SONATAS.
Kuhlaw Sonatines. Vol. I.
Haydn Sonatas, Selected.
Mozart Sonatas, Selected.
Beethoven Sonatas, Selected.

MISCELLANEOUS.
Chopin Valses.
Chopin Nocturnes.
Chopin Preludes.
Mendelssohn's Songs Without Words.
Beach's Inventions.

STUDY OF THE REED ORGAN.
The course of the Reed Organ is complete as that for the Piano, with studies selected suitable for this instrument. There are styles of music for which the Organ is the only instrument suitable. Those studying this branch will be taught compositions best adapted to its use.

VOCAL CULTURE.
Grade I---Concone, 25 Studies, Selected Exercises and Songs.
Grade II---Concone, Nos. 30—50.
Grade III---Vaccai; Marchesi, Op. 1, Part I.
Appropriate Songs and Ballads, English and German Oratorio and Operatic Airs, with Orchestra Accompaniment. Before finishing this course, the student must be able to read vocal music at sight; to play accompaniments, and have studied Harmony and Musical Literature.

CHORAL MUSIC.
Three Choral Classes will be organized the First and Second Terms. The beginning Class will commence with the rudiments, and study to the minor key. The Junior Class will commence with the formation of the minor key, and study the primary chords in major and minor keys un-
til they can be recognized, named and written. Satisfactory examination must be passed before admission to a higher class is granted. Tuition, $1.00 per term; books and music furnished. The Senior Choral Class will be expected to furnish music for Recitals, Concerts, etc.

Recitals will be given monthly; concerts, once per term, at which pupils will appear as they are qualified.

Harmony and Musical Literature will require two years for completion, (in class.) Without theory the graduate is merely a performer, not a musician. Music students expecting to teach, should not neglect this study. Thorough Base; Harmony, Parker; Musical History, Wade; Musical Form, Pauer; Harmony and Composition, Stainer; Literature of National Music, Engel.

Membership in Orchestra free.

STRINGED INSTRUMENTS AND BAND MUSIC.

Prof. W. H. Mershon better known as the "Drummer Boy of Shiloh," commenced the study of Piano at eight years of age, at Fort Wayne, Ind., under Prof. Struby, a graduate and a teacher of Leipsic, and graduated on this instrument at the age of sixteen years. He then entered the army as the Drummer Boy of Co I, 30th Ind. Vol., was wounded at the Battle of Shiloh, convalescent, was transferred to the V. R. C. Corps Band, where he came under the daily instruction of Prof. W. Rouden of London, in String and Band instrument work, and was mustered out of the army as principal Musician of the Band. He traveled for five years with the celebrated cornet party, "The Alleghenies," as Leader of Band and as Cornet and Drum Soloist. He has held the position of Director of music in the "University of Colorado," Lane University of Kansas, and Greer College, Ill. and this last year as special teacher of String and Brass instruments in Taylor University.

Instruction is given by Prof, Mershon on Violin, Guitar and all other stringed instruments and also on Cornet, Clarionet, Flute and other wind instruments. He uses the Boston Conservatory Methods with all stringed instruments. The uniform price for any of the above instruments is 50 cents per lesson, counted only by the term unless in case of protracted sickness and the pay is invariably by the term in advance.
OUR METHOD.

GREEK.

The intense interest in Greek manifested by our classes attests the value of this study in a college course. We strive to get all the advantages that can be derived from this great language. We spend two terms on the First Book, two on the Anabasis, one each on the Iliad, Odyssey and Memorabilia. We read one term from each of the following: Herodotus, Plato, Thucydides, Sophocles and Æschylus, and read the whole New Testament in Greek, besides miscellaneous Greek reading.

LATIN.

The course in Latin is thorough and complete. Special attention will be given to Preparatory Classes and the work is carefully graded.

This course includes selections from the best classical authors: Cæsar, Sallust, Livy, Cicero, Virgil, Tacitus and Plautus.

Latin Grammar and Prose Composition are studied, not only with reference to the perfect mastery of the Latin Language, but also to assist the student in acquiring a knowledge of the derivation of words and the laws of syntax and to express the translations in the purest and strongest English.

PHYSICAL SCIENCES.

Physics—The course in Physics is arranged so as to give a broad view of the subject, extending throughout an entire year.

By the combination of lecture, recitation and laboratory methods of instruction, the student is made to feel at home. Free discussion is encouraged, thereby helping clear thinking and close reasoning.

In the third term particular attention will be given to the study of modern Electrical appliances.

An Elective course is offered in Sound, Light, Heat, Electricity and Magnetism.

Chemistry—The first term is given to General Chemis-
try, formation and determination of all common metals, by both the blow pipe and wet processes.
An Elective course is offered in Laboratory Methods and Physiological Chemistry.

NATURAL SCIENCES.

Botany—The course in Botany follows the work as near as possible as found in Gray's Botany together with Clark's and Bessey's Laboratory Manuals. Drawings showing the structure of a plant, in twenty-five families, are required. Students are encouraged in the formation of an herbarium.

Zoology—We now have a good collection of the different groups of the animal kingdom, typical examples of both vertebrates and invertebrates, which give material aid to the study of Zoology. Through the kindness of friends and former student these collections are constantly growing in number and value.

Geology and Anthropology—This subject takes up Stratification of the rock systems in connection with Paleontology, Dynamical Geology, Structural Geology with the principal minerals, fossils and distribution of metals and fuels, and Historical Geology, followed by a short course in the Natural History of Man.

Mineralogy.—This course embraces a short review of Dynamic and Structural Geology, Crystallography, and the determination of only such minerals as are of economic importance.

GERMAN AND FRENCH.

The aim of this department is to give instruction in the principles of Grammar and word Analysis, to enable the student to read these languages at sight, and to interpret German and French Masterpieces intelligently. To this end selections are carefully made from the works of both modern and ancient authors; much attention being given to the study of Modern Languages and their Literature as a means of culture. Composition work is required, and such exercises in conversation as are best adapted to the advancement of the class.

The selections read in the last year will bear upon subjects taught in the other departments as Philosophy, History and Science.
ENGLISH LITERATURE.

The course in English Literature is outlined as follows:

First Term—Anglo-Saxon Age, Age of Chaucer, Age of Caxton, and Age of Elizabeth. Special study of Shakespeare.
Essays are required upon topics assigned.
Third Term—American Literature.

ENGLISH LANGUAGE.

A thorough knowledge of English is the only true basis for other attainments.
In English Grammar, two classes will be formed. The beginning class will commence with simple sentences, and study the parts of speech in connection with analysis.
There will be daily exercises, practicing pure English in conversation.

ELOCUTION.

It is the design in this Department to teach Oratory as an Art based upon absolute laws of nature, and to give students thorough and systematic training in the principles of expression. The basis of the method used is the development of the individuality of the student. The work is psychological in its nature, seeking to induce right states of mind out of which true expression must grow.

GEOGRAPHY.

Geography is taught as one of the Empirical Sciences. The topical method of recitation is used in description and the Socratic in map lessons. Map drawing is a prominent feature in class work. The student learns to make outline, progressive and relief maps.

HISTORY.

In addition to two terms' work in General History and one in English History, and one year's work in United States History, we expect, by the opening of the new
college year in September, to have a special reference library for the department of history ample for exhaustive study in this subject. The Seniors of our degree courses will be required to pursue this subject throughout their senior year, by advanced methods.

REGULATIONS.

ENTRANCE EXAMINATION.

Students bearing the personal certificate of a former teacher concerning studies satisfactorily completed will be given credit for the work they have done; otherwise they must pass an examination (usually oral) upon entering Taylor University. The purpose of this examination is to properly classify the students, and to insure that none take classes too far advanced for them, and that all have a sufficient amount of work.

Every student must register at the beginning of each term, before entering any of the classes.

The Tuition is alike for all students, $14 for the fall term, $11 for the winter term, and $11 for the spring term and must be paid to the registrar at the beginning of each term. Fees for board and rooms furnished by the University must be paid to the president.

When rooms are taken it is understood that it is for a whole term, and no reduction will be made if they are vacated before the term closes.

THINGS REQUIRED.

1. In order to secure all the refining benefits of the association of the sexes in school life, the utmost prudence will be exacted on the part of the young men and young women.

2. Full employment of study hours in study.

3. Prompt attendance on all prescribed exercises.

4. Attendance at church once each Sabbath.

5. Attendance at Sunday afternoon lecture.

6. Cheerful compliance with all temporary, prudential rules established by the Faculty.

All absences excused or unexcused will count as zero in
the average of scholarship in the class from which the absence occurred unless the work has been made up satisfactorily to the professor in charge.

No student will be permanently excused from any class in which he has enrolled without petitioning the Faculty.

THE LITERARY SOCIETIES.

The societies shall adjourn not later than 10:30 P. M.

No special meeting shall be held during study hours without permission.

Athletic sports on the campus are forbidden during study hours.

Students desiring to visit other students during study hours must obtain permission from a professor.

Students must not leave town without permission.

Students will not be permitted to leave the grounds during study hours without permission.

No student may at any time enter the room of a student of the opposite sex without the special permission of the Dean.

THINGS PROHIBITED.

1. Marking or defacing the University building.
2. Use of intoxicating liquors.
3. Use of Tobacco.
5. Use of profane or obscene language.
6. Noisy, disorderly or unseemly conduct of any description.

BOARDING.

The University Dining Hall is situated near the recitation rooms.

Boarding at the Dining Hall will cost, per week, $1.50.

The University Dining Hall will be conducted on the principle that healthy food and cultured table manners are essential factors in good education.

STUDY HOURS.

Study hours are from 8 A. M. to 12 noon, from 1:30 P. M. to 5 P. M., and from 7:30 to 10 P. M., during which time each student is required to be in his own room; 10 P. M. is
the hour for retiring, after which perfect quiet must prevail. Study hours on Saturday from 7:30 to 10 p.m.

PLEASE READ THE FOLLOWING CAREFULLY.

Tuition is payable by the term in advance and no deduction will be made, except in case of protracted sickness, and then for not more than half a term.

Room rent payable by the term in advance, and no deduction made.

The coming year the best possible arrangements will be made for those students who wish to board themselves.

Students will not be permitted to enter classes till all dues are satisfactorily adjusted. Where students room or board outside the college halls it must always be with the approval of the faculty.

FAITH FUND.

The Faith Fund of Taylor University consists of the profits on the "Sammy Morris" book which amounted, last year, to about twelve hundred dollars and the direct gifts to the fund which aggregate several hundred dollars each year. All this money is given to our young men who are preparing for the ministry and to the children of the preachers either travelling or local. The money is given in checks either for board or room-rent and is voted by the
faculty to those who need help. Hitherto the income of the "faith fund" has been sufficient to reduce the entire expenses of board, light, fuel and tuition for ministerial students and the children of ministers to $90 a year and we expect to be able to continue the same special reductions to these students in the future.

MUSIC.

Instrumental Music, 50 cents a lesson.
Vocal Music, 50 cents a lesson.
Harmony and Theory, each, $5.00 per term.
Piano Practice, 3 cents an hour.
Organ Practice, 2 cents an hour.

DONATIONS AND BEQUESTS.

The bright prospects of Taylor University together with the fact that it now has valuable property, and is out of debt, and proposes to keep out of debt, are very encouraging to the local preachers and friends of Bishop Taylor, who may be able and desirous to donate or bequeath real estate or money to the University.

Parties who would like to aid the University can do so either by giving a sum of money outright or, where this is not practicable by giving it and receiving from the Trustees of the College an annuity for life. Those who wish to remember us in their wills may use the following

FORMS OF BEQUESTS.

FORM 1.

I give, devise and grant to the Taylor University of Upland, Grant County, Indiana, for the purpose of endowment only, the following property, to-wit:

upon the expressed condition that the Trustees, Directors, Officers, Agents or Representatives of such Institution shall not use any of the property herein devised, for current expenses, or for buildings or improvements, but that the rents, interests and profits of such property shall be used solely for the purpose of paying the current expenses of such Institution. And upon their failure to apply said rents, or upon their attempt to use any part of the principal herein conveyed, then such property shall revert to my heirs herein named. And said Trustees shall have no power or authority to charge the property herein conveyed with any debt or obligation of any kind. The same is to be held by them intrust solely for the purpose named.

FORM 2.

I give, grant and devise to the Taylor University, of Upland, Indiana, Grant County, State of Indiana, the following described property, to-wit: for the purpose of improving the buildings of said University and towards building new ones if necessary, and adding to its apparatus, for one or all of these purposes as its trustees may deem for the best interests of the Institution, and for no other purposes, except that any unused portion may be passed by them into the endowment fund.
LITERARY SOCIETIES.

The Thalonian Literary Society was organized in 1853.
The Philalethean Literary Society was organized in 1878.
Both societies are open to ladies and gentlemen, and all students are recommended to identify themselves with one or the other, as thereby they will receive essential training that only the literary society can give. Suitable places for the society meetings have been provided.

PRIZES FOR 1899.

THE CHRISTIAN HERALD PRIZE.

Louis Klopcsch, A. M., Ph. D., Publisher of the Christian Herald, New York City, offers the Christian Herald prize of $50.00 to the victors in a debate between four contestants, two affirmative and two negative. Twenty-five dollars will be given to the speaker whom the judges decide to be the best debater, $15.00 to the second best debater and $10.00 to the third.

THE MOONEY PRIZE.

The Rev. George W. Mooney, D. D., of New York City, will give a diploma to the best one of two orators; to the best one of two declaimers; to the best one of two soloists in a singing contest; to the best one of two performers in instrumental music and for the highest yearly scholarship.
The contests will be held during commencement week.
The judges in all the contests will be selected by the President of the University.
The contests will be open alike to ladies and gentlemen.

THE THALONIAN PRIZE CONTEST.

The Thalonian Literary Society will open to its active members a contest in which the following gold prizes will be given: $5 to the best declaimer; to the best orator; to the best essayist; to the best piano soloist; to the best vocal soloist; $10 to the best debater; $5 to the second best debater. This contest will be held during commencement week of 1900.
THE PHILALETHEAN PRIZE CONTEST

The Philalethean Literary Society will give a prize debate for $25.00; first prize $10.00; second prize $7.00; third prize $5.00; fourth prize $3.00; also a prize of $5.00; to the best declamer; to the best essayist; to the best orator; to the best vocal soloist; to the best performer in instrumental music. This contest open to the active members of the Philalethean Society will be held during Commencement week.

PRIMITIVE METHODIST CHURCH.

This Denomination at its last General Conference appointed a University Faculty charged with supervising and promoting the work of education among their ministers and others who might desire it. An arrangement has been entered into with this Faculty by which they stand in the capacity of an Associated College of Taylor University: In this Associate College fifty-three students were enrolled the past year.

READING ROOM.

A reading room furnished with many periodicals and Magazines will be open to students and all friends of the school at suitable hours. Unchangeable law; No talking in the reading room.

A FEW BROAD HINTS.

1. Our University is not a reformatory and hence we do not want students who have shown themselves unmanageable at home or in other schools.
2. We do not want the idle, the lazy.
3. We do not want those who are more bent on amusement than on study.
4. We do not want Tobacco users. Quit before you come.
5. We do want the best young people of the land, whether they be rich or poor.
6. We want the earnest, the true, who come for hard study and are determined to develop strong, noble characters; to all such we extend a welcome hand and we shall be glad to aid them in their work.
7. We are often asked whether students must furnish anything for their rooms; we answer no, but we do desire each student to bring a half-dozen napkins with his name stamped on them.

---

DONATIONS IN 1898--99.

The Faculty have ordered that all books donated to the library and all specimens, relics or pieces of apparatus contributed to the several departments shall be acknowledged in the Catalogue. We therefore append the following list.

The Rev. Henry Date of Chicago, donated at the beginning of the school year, half of the supply of song books we have used this year in our religious services.

Our course in History has been strengthened and through the energy and liberality of our students we shall have ready by next September a well equipped reference library in History.
