Agency in the University Building.
Wagon calls for and delivers all work back to the Agent.

TELEPHONE No. 160.
A Business College in a large city has advantages and facilities for a practical education not to be obtained in a small town. With the school in the heart of the city, the student becomes accustomed to an atmosphere of business activity. With the intimate relations between the school and business public, the course of study is more likely to meet the requirements of actual business. These intimate relations present unequaled opportunities for employment.

This Business College enjoys all the advantages mentioned above. It is one of the largest and best in the West. It is located at the corner of the two most prominent thoroughfares in the city, with large, light rooms, and first-class accommodations. The instruction is thorough in every respect, being under the immediate direction of specialists of experience, recognized ability and reputation. The tuition and expenses are moderate. The course of study includes bookkeeping, shorthand, typewriting, penmanship, arithmetic, commercial law, business forms, etc. Day and evening sessions. Send for catalogues and information.

Fort Wayne, Indiana.

Louis N. Anderson, Emma Crawford, A. Mary Pepple,
May A. Seaman.

ACADEMIC COURSE.

Nathaniel Barton, Henry F. Koepf; Lizzie Lynn,
Robert H. Miller, L. Letie Pepple, Harriet F. Stemen,
Albert J. Warner, George W. Weeks.

COMMERCIAL COURSE.

Otto E. Kucher, Frederick W. Cline, Frank W. Poirson.

On account of the changes from the old to the new it has been found impossible to properly classify the students of the Fort Wayne College for the year 1889-90, and for this reason their names, except those of the graduates of that year, are not given in this catalogue.
COURSE OF STUDY.

Taylor University offers seven courses of study, viz:
1. The Normal Course.
2. The Scientific Course.
3. The Classical Course.
4. The Music Course.
5. The Business Course.
6. The Medical Course.
7. The Art Course.

Graduates in the Normal Course will receive a diploma of Proficiency in Knowledge.
Graduates in the Scientific Course will receive the degree of Bachelor of Science (B. S.)
Graduates in the Classical Course will receive the degree of Bachelor of Arts (B. A.)
Graduates in the Music Course will receive a diploma of Proficiency in Music.
Graduates in the Business Course will receive the diploma of the Business College.
Graduates in the Medical Course will receive the degree of Doctor of Medicine (M. D.)
Graduates in the Art Course will receive a diploma certifying the work done.

NORMAl COURSE.

FIRST YEAR.

First Term.—Arithmetic, Language, Geography, Reading, and Writing.
Second Term.—Arithmetic Language, Geography, Reading, and Writing.
Third Term.—Arithmetic, Language, Geography, Reading, and Writing.
Fourth Term.—Arithmetic, Language, Geography, Reading, and Writing.

SECOND YEAR.

First Term.—Arithmetic, Grammar, Physiology, Geography, History U. S. and Drawing.
Second Term.—Arithmetic, Grammar, Physiology, Geography, History U. S. and Drawing.
Third Term.—Arithmetic, Civil Government, Physical Geography, Physiology and Drawing.
Fourth Term.—Arithmetic, Civil Government, Physical Geography, Physiology and Drawing.
THIRD YEAR.

First Term.—Algebra, English Composition, Latin, German or Commercial Arithmetic.
Second Term.—Algebra, Rhetoric, Latin, German or Commercial Arithmetic.
Third Term.—Algebra, Rhetoric, Latin, German or Book-Keeping.
Fourth Term.—Algebra, Rhetoric, Latin, German or Book-Keeping.

FOURTH YEAR.

First Term.—Geometry, General History, Latin, German or English Analysis.
Second Term.—Geometry, General History, Latin, German or English Analysis.
Third Term.—Geometry, Physics, Latin, German or Political Economy.
Fourth Term.—Geometry, Physics, Latin, German or Moral Science.

FIFTH YEAR.

First Term.—History of Education, Chemistry, Psychology, Astronomy.
Second Term.—Trigonometry, Chemistry, Psychology, Astronomy.
Third Term.—Trigonometry and Surveying, Chemistry and Botany Literature, Principles of Education.
Fourth Term—Surveying, Botany, Literature, Methods of Teaching.

SCIENTIFIC COURSE.

FRESHMAN YEAR.

First Term.—Geometry, General History, Latin (2d year), German.
Second Term.—Geometry, General History, Latin, German.
Third Term.—Geometry, Physics, Latin, German.
Fourth Term.—Geometry, Physics, Latin, German.

SOPHOMORE YEAR.

First Term.—Latin, History of Education, Chemistry, German.
Second Term.—Latin, Trigonometry, Chemistry, German.
Third Term.—Latin, Trigonometry, Chemistry and Botany, German.
Fourth Term.—Latin, Surveying, Botany, German.

JUNIOR YEAR.

First Term.—Latin, French, English Analysis, Zoology.
Second Term.—Latin, French, English Analysis, Geology.
Third Term.—Latin, French, History, Political Economy.
Fourth Term.—Latin, French, History, Moral Science.

SENIOR YEAR.

First Term.—Logic, French, Astronomy, Psychology.
Second Term.—Logic, French, Astronomy, Psychology.
Third Term.—Butler’s Analogy, French, Literature, Orations or Essays.
Fourth Term.—Butler’s Analogy, French, Literature, Orations or Essays.

A full course in music may be substituted for the French in this course.
CLASSICAL COURSE.

FRESHMAN YEAR.

First Term.—Geometry, Latin (2d year), German, General History.  
Second Term.—Geometry, Latin, German, General History.  
Third Term.—Geometry, Latin, German, Physics.  
Fourth Term.—Geometry, Latin, German, Physics.

SOPHOMORE YEAR.

First Term.—Latin, History of Education, Chemistry, German.  
Second Term.—Latin, Trigonometry, Chemistry, German.  
Third Term.—Latin, Trigonometry, Chemistry and Botany, German.  
Fourth Term.—Latin, Surveying, Botany, German.

JUNIOR YEAR.

First Term.—Latin, Greek, Analytical Geometry, Zoology.  
Second Term.—Latin, Greek, Analytical Geometry, Geology.  
Third Term.—Latin, Greek, Calculus, Political Economy.  
Fourth Term.—Latin, Greek, Calculus, Moral Science.

SENIOR YEAR.

First Term.—Orations or Essays, Greek, Astronomy, Psychology.  
Second Term.—Orations or Essays, Greek, Astronomy, Psychology.  
Third Term.—Orations or Essays, Greek, Literature, Logic.  
Fourth Term.—Orations or Essays, Greek, Literature, Butler's Analogy.

Instead of the German of the Freshman and Sophomore years, Hebrew or Arabic may be taken.

Students of the Scientific or Classical Courses who have not taken drawing will be expected to take it as provided in the Normal Course,

BUSINESS COLLEGE.

Arrangements have been perfected by which students in the Business, Shorthand and Typewriting branches will have access to all the privileges and benefits of McDermut & Whiteleather's Business College. The high standing of this institution and the success of these gentlemen as teachers, are a guaranty of the excellence of the instruction in this department. Below is the course of study in the Business College:

SHORTHAND.

Analysis of English Sounds.  
Shorthand Alphabet.  
Principles of Abbreviation.  
Exercises in Words, Phrases and Sentences.  

Dictation Speed Practice.  
Reading and Transcribing Notes.  
Office Dictation.  
General Reporting.
TYPE WRITING.

Proper Method of Fingering.
Speed Practice.
Transcribing Notes.
Business Letters and Forms.
Complicated Tabular Work.

Legal Documents.
Copying Letters.
Manifolding.
Writing from Dictation.

BOOKKEEPING.

Original Entry—Day Book.
Classification—Journal.
Ledger.
Trial Balances.
Balance Sheets.
Closing the Ledger.
Partnership Sets.
Journal and Day Book Combined.

Cash Book.
Bill Book, Invoice and Sales Book.
Wholesale and Retail Business.
Manufacturing.
Special Column Books.
Commission.
Banking.
Etc., etc., etc.

ARITHMETIC—PART 1.

Numeration and Notation.
Fundamental Rules.
Common and Decimal Fractions.
Denominate Numbers, Weights, Measures, etc.

Practical Measurements.
Bills and Accounts.
Counting House Practice.
Analysis.

Part 2.

Percentage.
Profit and Loss.
Trade Discount.
Marking Goods.
Commission and Brokerage.
Interest—Simple Annual and Compound.
Present Worth and True Discount.
Stocks and Bonds.
Investments.
Exchange—Domestic and Foreign.

Commercial Paper.
Banks and Banking.
Insurance—Fire and Life.
General Average.
Taxes.
Custom House Business.
Bankruptcy and Insolvency.
Equation of Payments.
Average of Accounts.
Proportion—Simple and Compound.
Partnership.

PARTNERSHIP AND BUSINESS FORMS.

Position of Body, Hand, Paper, etc.
Best form of Letters, Figures, etc.
Forms of Notes, Checks, Drafts, Bills, Receipts, etc.

COMMERCIAL LAW.

Property.
Contracts.
Negotiable Paper.
Personal Property.
Partnership.
Bailments.
Real Estate Conveyances.

Agency.
Corporations.
Guaranty.
Right of Stoppage in Transitus.
Liens.
Insurance—Marine, Fire and Life.
Etc., etc., etc.
PREPARATORY.

Spelling and Defining.  Punctuation.  Reading.
Composition.  Etc., etc., etc.

LECTURES.

NOTE.—It will be convenient for students of Taylor University to take the Preparatory Course and Part 1 of the Arithmetic Course in the regular classes of the Normal Course before entering the Business College.

ART DEPARTMENT.

(MISS TIBBALS.)

Drawing—Free Hand and Mechanical.

Since drawing underlies all mechanical arts as well as the "fine arts," it has been placed as a requirement in the Normal, Scientific and Classical courses.

Special Work—Course of Study.

Perspective; Design; Painting in Oil, Objects, Life, Landscape; Water Colors; Sketching, in-door and out; Lectures on Artists, and on the Purpose and History of Art.

EXPENSES.

Drawing, $1.00 per term of ten weeks. (This price applies to the students in the regular college courses.) Full course in the Art Department, $12.00 per term. For special arrangements, special prices.

All dues must be paid to the President of the University.

MUSIC COURSE.

This course will be provided for in full at the usual rates before the opening of the school year. Students of music can come to Taylor University with the assurance that they will have first-class advantages at reasonable rates.
REMARKS ON THE COURSES OF STUDY.

TEXT BOOKS.

The Text Books for every study will be carefully selected, and changes will not be made except where the advances in knowledge and methods make it necessary. Owing to the reorganization of the faculty and the additions made necessary in many departments in passing from Fort Wayne College to Taylor University, explanatory information concerning the courses of study can not be got ready in time for this first catalogue of Taylor University; but all these things will be arranged before the opening of the first session of the University.

It will be well, however, to state that the arithmetic classes of the Normal Course will embrace all the essentials of arithmetic. They are intended for the general student and for those who are preparing to teach. Special business methods in arithmetic will be taught in the Business College.

It is undoubtedly better that a student should pursue studies according to some definite plan than at random. There is mutual interdependence, even in academic studies, which should not be overlooked. It is earnestly advised that students commence at the beginning of the foregoing courses of study and prosecute them consecutively to the end. Students sometimes think it is best to select studies from any part of the course, but in almost every case their judgment in after years has been that it is much better to begin at the beginning and proceed through the course of study as laid down in the catalogue. If students desire to change from one course to another, and it meets the approval of the Faculty, it can be done. Or, if for good reasons, the student desires to take studies out of their regular order, and it can be arranged without conflicting with other recitations or the forming of extra classes, it may be done. We desire, however, to lay emphasis on the following suggestions:

1. Settle upon what course you want to take, and then make everything bend in that direction.
2. Let neither trifles, nor ease, nor honest hard labor, nor mountains of difficulty hinder you. Remember, "Where there's a will there's a way."
3. Be present, ready for work, on the first day of the term.

MILITARY TACTICS.

A military company is organized each term and continued through the year. Springfield rifles and acoutrements have been furnished by the State, and the cadets are drilled in the U. S. Infantry tactics by a competent and experienced commander.

The drill is optional, but when a student has joined the company, he is expected to be prompt and regular on all drills.

A fee of one dollar is charged to pay for instruction.

The purchase of uniforms is also optional, though it is urgently requested that all members provide themselves with the prescribed uniform. This consists of coat, pants and cap of dark blue, with Indiana regulation buttons. The suit costs only $14.00, and is serviceable and becoming. Some of the advantages from the drill are as follows:
1. It affords exercise. Boarding students particularly are liable to suffer from want of exercise. The change from active employment to the sedentary life of the student deranges the system. The military drill in a large measure counteracts this.

2. The drill cultivates good form in standing and walking, and promotes neatness in dress. Spurgeon says that every theological seminary ought to have the drill to enable its members to walk without shuffling, or stooping or stumbling. A manly, erect carriage is certainly induced by long continued military drill.

3. The prompt obedience, unflagging attention, and steadiness of nerve required in executing the orders of the commandant, afford a valuable mental and moral discipline.

**TEACHERS COURSE IN BIBLE STUDY.**

This course will open Monday, October 13, 1880, and continue four weeks. Missionaries, Evangelists, Deaconesses and Sunday School Teachers will find it specially suitable as a preparation for their work. Two Bible readings will be given in the University building each day. Dr. Daniel Steele, of Boston, will deliver two lectures during the course on "How to Teach the Word." Dr. S. A. Keen, Cincinnati, Ohio, will deliver three lectures on "Preparation for Teaching the Word."

Miss M. C. Hedrick, for five years superintendent Calcutta Girls School, Calcutta India, will deliver two lectures on "How to Save the Masses."

Bishop William Taylor, of Africa, Dr. C. A. VanAnda, of Indianapolis, Ind., and E. P. Brown will also lecture during this course.

Tuition for Teachers course in Bible Study, including lectures, $5.00; Missionaries free.

**NORMAL COURSE IN SACRED MUSIC,**

Commencing October, 13, 1890, and continuing four weeks. Forty lessons will be given; also a chorus class will be organized, to which all taking Normal Course will be admitted free. This course will be expressly adapted to teachers, choristers, organists, with all who may lead in Sacred Singing. The course will include Notation, Expression, Articulation, Adaptation, Organization and Government. A complete programme will be sent to all desiring to enter this course, by addressing R. E. Hudson, Alliance, O., or Dr. C. B. Stemen, Fort Wayne, Ind.

Tuition for Normal Course of forty lessons, including chorus class of ten lessons, $10.00.

**REGULATIONS.**

**THINGS REQUIRED.**

1. Full employment of study hours in study.
2. Prompt attendance on all prescribed exercises.
3. Attendance at church at least once on the Sabbath.
4. Cheerful compliance with all temporary prudential rules established by the faculty.
THINGS PROHIBITED.

1. Visiting immoral places.
2. Use of intoxicating liquors.
3. Use of tobacco on University premises.
4. Playing cards on University premises.
5. Use of profane or obscene language.
6. Dancing on University premises.
7. Throwing paper, slops, or rubbish out of the University windows.
8. Noisy, disorderly or unseemly conduct of any description.

RATES.

All tuitions, incidental fees, and rent for instruments are to be paid in advance. For board in the University building one-half is to be paid at the beginning of the term, and the other half at the middle of the term. Whenever the student is obliged to leave before the term expires he will be charged $4.00 per week for the time he has been in school, and the balance will be refunded in cash. No money, however, will be refunded for absence during the last two weeks of the term.

BOARDING ARRANGEMENTS.

Wings attached to the main building will accommodate ninety students. The rooms will be neatly and comfortably furnished. Everything needful for health and comfort will be provided. Rooms in the houses of citizens residing within convenient distance of the University can be had at moderate rates.

A spacious dining-hall is attached to the University building. This hall will accommodate two hundred boarders. Meals are served at convenient hours and in a way that is entirely satisfactory. It is the aim of the steward to keep the best cook and waiters that can be obtained.

Any number of students may find boarding places near the University at varying rates.

LITERARY SOCIETIES.

The Thalonian Literary Society, the oldest society of the institution, was organized thirty-five years ago. Among its former members are found some of the most prominent citizens of the city or state. The last annual reunion June 26th, was an occasion of great interest.

The Philalethean Society was organized in 1878. It has a large membership and is rapidly increasing its influence.

Each of the societies has an elegantly furnished hall. Both societies are open to ladies and gentlemen, and all students are recommended to identify themselves with one or the other, as thereby they will receive a training that only the literary society can give.
GENERAL INFORMATION.

The Fort Wayne College was established in 1846, by the ministers of the North Indiana Conference of the Methodist Episcopal Church. It was chartered in 1847 as the Fort Wayne Female College. Subsequently this institution was consolidated with an institution known as the Fort Wayne Collegiate Institution for Young Men, and the present name was assumed. The Fort Wayne College is open to both sexes on equal terms. The school building was erected in 1846-7, the corner-stone being laid June 23, 1847. The building is located on a plat of ground containing three acres, at the west end of Wayne street, Fort Wayne, Allen county, Indiana. The location is one of the most desirable in the city. Fort Wayne is a city of 40,000 inhabitants, a railroad center accessible from ten different directions, and is a well ordered and healthful city.

Extensive improvements have quite recently been made to the College building. In 1884 an addition, 60x73 feet, and four stories high was erected. This stands immediately in front of the main edifice of the old building, and presents a handsome appearance. This addition contains chapel, recitation rooms, library, office, dining room and laboratory, and cost about $15,000. The recitation rooms of the old building have been partitioned into music and art rooms, and are well fitted for those purposes.

TAYLOR UNIVERSITY.

A financial crisis having fallen upon the Fort Wayne College, its trustees were authorized to sell the property of the institution, and they have done so, conditionally, to the Taylor University. These conditions will all be met in due time.

The Taylor University is named in honor of Bishop William Taylor, formerly a local preacher of world-wide fame and most remarkable achievements, but now Bishop of the Methodist Episcopal church for Africa.

The Taylor University begins its history under very favorable circumstances. With its inspiring name, its aggressive management, its able and experienced faculty, and its favorable location, it sends greetings to all young men and young women, who contemplate attending a good school and asks them to consider its advantages.

Only young ladies will occupy rooms in the college dormitory. These rooms will be fitted up in the most desirable and attractive manner and the ladies occupying them will be under that mild but firm restraint, that will secure their confidence and the approbation of their parents.

Young gentlemen students will room out of the college building. They may board at the college, with private families, or may form a club and employ a cook, thus reducing expenses to the minimum.
EXPENSES.

Board and lodging for ladies in University dormitory,.........$2.70 per week.
Board and lodging in private families,.........................................$3.00 ‘”
Board and lodging in clubs,..............................................................$1.70 to $2.00 ‘”
Board at University dining hall,......................................................$2.20 ‘”
Tuition per term of forty weeks,......................................................$8.00
Incidental fee per term,.................................................................$1.00
Chemistry fee, per term,.........................................................$3.00

Entire cost of the school year of forty weeks, music, art and business specialties excepted, from $110.00 to $175.00.

Children of ministers are charged half rates for tuition in the Literary courses. These half rates include local preachers and their children.

THE FORT WAYNE COLLEGE OF MEDICINE.

Has been combined with the Taylor University and will add much to the resources of the institution. Only the didactical instruction of the medical course will be given at the University building.

The business department of the college will afford better advantages than ever before.

TEACHERS.

All persons preparing for teaching, or for more advanced positions in teaching, will find the facilities afforded by Taylor University exactly suited to fit them for their aspirations.

A GENERAL EDUCATION.

Those who have no profession in view, but desire a suitable education to enable them to be good citizens of our great country, will find every advantage in Taylor University to best fit them for a life of true success, through the experienced instructors, the literary societies, and the general associations and surroundings.

CLASSICAL STUDENTS.

The classical course of study, and the corps of teachers provided by Taylor University, with ample apparatus and means of illustration, show for themselves the advantages Taylor University offers to classical students.

THE FACULTY.

The trustees of Taylor University congratulate themselves and the public on the able faculty they have secured for the school year 1890-91.

Each individual member of the faculty is especially experienced in the line of work which has been assigned him. Dr. Stemen as acting president, general financial agent, and teacher of Physiology, will do a great work for Taylor University this year. Prof. S. D. Hillman has had a long experience in educational work in Pennsylvania and New Jersey, having been a prominent professor at Dickenson College for many years. His ripe experience, his popularity among his students, and his past success, recommend him as the man for the place and the hour. Prof. C. L. Clippinger, who is so widely known in our patronizing territory as a successful teacher, an earnest general worker for the school with which he is connected, and a Christian gentleman, has returned to Fort Wayne and will give his whole time and energy to Taylor University.
The acquisition of Rabbi A. Guttemacher as teacher of Hebrew and Arabic enables Taylor University to offer unusual advantages in this line. The trustees feel confident that many students of Hebrew will take advantage of this favorable opportunity.

At the time of going to press with the catalogue, arrangements have not been completed for the departments of Music and Modern Languages. The trustees pledge to the patrons of the University that these departments will be under the control of able specialists in these lines.

Rev. R. E. Hudson has provided courses in Bible Study and Sacred Music, to which special attention is called. The renowned and able lectures connected with this line of the University will deservedly attract wide attention.

The other members of the faculty were with us last year. Their successful work has already introduced them favorably to the friends of Taylor University.

The Superintendent of the Public Schools of Allen county, Indiana, will occasionally visit the Normal Department, to observe the work of the students, and to answer any questions that may be put to him in the practical line of school work.

IMPROVEMENTS.

The dormitory rooms of the college building will be neatly furnished before the opening of the session which begins September 2, 1890, and the appearance of the University grounds will be greatly improved. Since only ladies will room in the college building, it is hoped that both wings of the dormitory, so nicely refitted, will be filled by lady students at the opening of the first term of Taylor University.

THE APPEAL OF TAYLOR UNIVERSITY TO OLD STUDENTS.

Let every former student of the Fort Wayne College who expects to attend some school during the year 1890-91, come to Taylor University and bring as many others as possible with him.

Let all the old students of Fort Wayne College who are now in business make a special effort to turn a great tide of students to Taylor University.

For catalogues or any other information, address C. B. Stemen, Acting President, Fort Wayne, Ind.

WHY GO TO SCHOOL?

WHY GO TO TAYLOR UNIVERSITY?

You are associated with persons of same advancement, and each one of you has special care and attention from the teachers.

A university is not a mere school or academy. In attending your particular department you necessarily learn much from the other departments with which you are associated, and thus your culture broadens.

THE PEARSON ORATORICAL PRIZE.

Rev. W. F. Pearson, D. D., of Philadelphia, has provided a prize of $25 in gold for that gentleman student of Taylor University who shall excel in an oratorical contest, to be held in the University Auditorium, on Wednesday
evening of commencement week. Not less than four gentlemen students of Taylor University, selected by the faculty from members of the literary societies, shall contest for this prize. The judges of the contest will be selected by the president of the University, and the decision will embrace both the matter of the oration and the manner of its delivery.

**THE MOONEY ESSAY PRIZE.**

The Rev. Geo. W. Mooney, of New York City, has provided a prize of $25 in gold for that lady student of Taylor University who shall excel in an essay contest. The conditions of the contest and the night on which it shall be held to be the same as those of the oratorical contest.

**CALENDAR FOR THE SCHOLASTIC YEAR 1890-91**

First term begins Tuesday, September 2, 1890, and ends November 7, 1890.
Second term begins Monday, November 10, 1890, and ends January 23, 1891.
Third term begins Monday, January 26, 1891, and ends April 3, 1891.
Fourth term begins Monday, April 6, 1891, and ends Thursday, June 18, 1891.

**VACATIONS.**

Thanksgiving vacation, November 27 and 28, 1890; Holiday vacation from December 23 to December 30, 1890. Washington's birthday, February 22, 1891.

**EXAMINATIONS.**

There will be monthly written examinations, and a special final examination, oral and written, during the first half of commencement week.

**COMMENCEMENT DAY.**

Thursday, June 18, 1891, will be commencement day.

FORT WAYNE, - - INDIANA.
The Twelfth Annual Session of the Fort Wayne College of Medicine (Medical Department of Taylor University) will begin on Tuesday, September 9, 1890, and will terminate on March 9, 1891.

This is the only Medical School in Northern Indiana; and the extensive district, comprising Southern Michigan and Western Ohio, of which Fort Wayne is the center, furnishes numerous students desirous of entering a medical profession through a medical college so easily accessible.

Past experience has demonstrated the fact that Fort Wayne has every facility for successful medical instruction. The city has a population of 40,000 and is the center of five railroads, of which the Professor of Surgery is the official surgeon of two, and most of the patients of the Pennsylvania and some of the Wabash systems of railroads are cared for at the City and St. Joseph hospitals. All the clinical material of the free wards of both hospitals are at the disposal of the Professors of Clinical Medicine and Surgery. This is necessarily abundant in a city the size of Fort Wayne, and besides this, each clinical instructor brings as many of his private cases before the class as are of interest in the demonstration of lectures.

An additional opportunity for the observation and treatment of disease is furnished by the Free Dispensary established and controlled by the college; and students are expected under the supervision of the Professors to diagnose and treat cases and visit the patients at their homes.

The Faculty desires to call special attention to the fact that female students are admitted to study in this school upon the same terms and with the same privileges in every respect as male students; and each class hitherto has included ladies whose standing has been equal to that of any of the gentlemen.

The instruction in this College consists of didactic lectures, clinical teaching, recitations and practical work in laboratories. Monthly examinations in the subjects lectured on are held, and the students marks received in these examinations will influence his standing in the final examination at the close of each term.
The course of instruction will embrace all the usual branches of Medical Science and Art, and will be conducted by teachers who are experienced educators and eminently qualified in their respective departments. Special care will be taken with the students individually, both in clinics and monthly examinations, so as to render them really proficient and able to practice with skill by the time of their graduation.

The dissecting room and laboratories for practical instruction in Anatomy, Chemistry, Toxicology, Urinalysis, Microscopy, Histology, and Pathology will be attended by competent demonstrators under the direction of the Professors of the cognate chairs.

Courses of lectures will be given in special subjects, such as Hygiene and State Medicine and the Analysis of Potable Waters, Dermatology, Medical and Surgical Pathology, Bacteriology and Orthopedics, and students are earnestly advised to avail themselves of these opportunities for acquiring knowledge now regarded as indispensible for the complete education of every medical practitioner.

There are two large and commodious general hospitals in Fort Wayne, and these, together with the Free Dispensary connected with the College, furnish excellent opportunities for the clinical study of a vast variety of most interesting and instructive surgical and medical cases.

THE ST. JOSEPH HOSPITAL.

This hospital, under the complete supervision of the Sisters of Charity, is situated at the corner of Broadway and Main streets, a few minutes' walk from the College. It is supported by a large territory and its usefulness is highly appreciated by the people of Allen County, and even of places considerably remote from Fort Wayne.

THE CITY HOSPITAL.

This hospital is situated at the intersection of East Washington and Barr streets, but two squares from the center of the city. It is very accessible for ambulance cases, and is often the scene of capital operations by the surgical staff.

CLINICS.

The Surgical and Medical Clinics are not surpassed for variety and usefulness by any institution in the west. With abundant material for the illustration of every department of medicine and surgery, are combined the close observation and personal inspection of each and every case. Each student is made to feel a personal interest and responsibility in every case, and can follow the progress of each case from day to day and note the immediate effects of treatment. Auscultation and Percussion are taught by the Professors of Theory and Practice both didactically and clinically, thus affording facilities which are offered at other schools by special private and expensive courses only. A special course in practical instruction in obstetrics will be afforded the members of the graduating class, and each member will have an opportunity to attend at least one case of confinement during the session.
THE FREE DISPENSARY.

This beneficent institution has been for over two years in operation under the management of the College of Medicine, and attracts a large and increasing number of patients who receive medical and surgical attention and medicines and appliances gratuitously. It is supported solely by voluntary subscriptions of the public and the Faculty. Students here, under the supervision of a Professor of the College, have opportunities of examining and treating diseases presented in great variety, and of attending patients at their homes.

CHEMISTRY.

A course of forty lectures in General and Medical Chemistry will be given by the Professor, and at least one hundred hours of laboratory work, under the direction of the Demonstrator, will be required of each student. The Chemical Laboratory is large and commodious, supplied with gas and water, and at present fitted with tables and apparatus for twenty-five students.

PRACTICAL PATHOLOGY AND HISTOLOGY.

These departments have been newly arranged, and are intended to furnish the best opportunities to students of becoming practically versed in these important studies.

If alumni or other friends of this college have any interesting pathological specimens which they would be willing to donate, they are requested to express them to Dr. G. W. McCaskey, at his expense.

PRACTICAL ANATOMY.

Every branch of Anatomy will be thoroughly taught and demonstrated. The Professor of Anatomy will personally conduct the demonstrations, giving students the double advantage of his instructions, not only in his didactic lectures but also on the cadaver.

OPHTHALMOSCOPY AND OTOLOGY.

Instructions in the use of Ophthalmoscope and Otoscope will be given, free of charge, to every member of the class who will provide himself with the necessary instruments, and this department will be made quite thorough and interesting.

RAILWAY SURGERY.

The Professors of Surgery, who are surgeons to several railroads entering Fort Wayne, will deliver special lectures on the accidents and emergencies incidental to the practice of the railway surgeon. The alumni of this college have been very successful in obtaining appointments in this capacity.

BOARD AND LODGING.

There are many excellent boarding houses in the immediate vicinity of the University. On reaching the city students should go at once to the office of the Secretary, at No. 94 Calhoun street, at Gross & Pellen's drug store, where they will be furnished with directions for boarding houses. The rate per week varies, of course, with the accommodations, and can be found from three and one-half dollars upward. In many instances, heretofore, students have gone even below this figure. Table board can be had in the University at $3.20 per week.
Students when writing for information, are requested to address W. P. Whery, M. D., Secretary, 94 Calhoun street, or C. B. Stemen, M. D., Dean, 74 Calhoun street, Fort Wayne, Ind.

Students should arrange to get here very early in the session, as the accumulation of clinical material during the summer, renders the first few weeks in the session especially rich in clinical instruction.

**NEW CURRICULUM OF STUDY.**

According to notice given last year, the Faculty have instituted a course of studies involving attendance at three full sessions of the College. A graded course is prescribed and strongly recommended to students, but each may choose either the general or graded course. This new curriculum is obligatory on all students who matriculate in the session of 1890-91, and subsequently. It is in accord with the demand of the profession and the public for the elevation of the standard of medical education. The Medical Boards of most States now require a minimum of three years' college study to qualify a graduate for practicing medicine in their respective jurisdictions.

**THE GRADED COURSE.**

_For the First Year._—Anatomy and Dissections, Physiology, General and Medical Chemistry, Practical Chemistry in Laboratory, Materia Medica and Pharmacy, Hygiene and State Medicine, Clinics in College, Hospitals and Dispensary.

_For the Second Year._—Descriptive Anatomy and Dissections, Surgical Anatomy, Histology and Microscopy, Materia Medica and Therapeutics, Practice of Medicine and Physical Diagnosis, Surgery and Minor Surgery, Obstetrics, and Gynaecology, Pediatrics, Dermatology, Clinics.

_For the Third Year._—Practice of Medicine and Clinical Medicine, Surgery and Operative and Clinical Surgery, Clinical Obstetrics, Pediatrics and Gynaecology, Pathology, Medical Jurisprudence, Ophthalmology, Otology, Rhinology, Laryngology and Neurology.

**PRELIMINARY REQUIREMENTS.**

Each student before matriculation must present satisfactory evidence, by examination or otherwise, of proficiency in the fundamental branches of an English education. To be admitted without examination, the applicant must show a teacher's certificate, or proof of graduation from a literary of medical college or from an academy or high school, or matriculation in a college that exacts a preliminary examination.

The National Medical College Association passed resolutions insisting on a stricter preliminary examination, which, however, will not take effect until the session of 1892-3, and will not apply to students who have matriculated before September, 1892.

**ADVANCED STANDING.**

Students will be admitted to the second year's course who comply with the preliminary requirements of admission and who present satisfactory certificates from a recognized medical college of attendance upon one full course of studies, and of examinations in the studies of the first year's course of this college.
Any student who has taken two or more courses at this or another recognized medical college, may be admitted to the third year's course by passing an examination in Anatomy, Physiology, Materia Medica and Chemistry, unless proof be presented of having passed the first examination in these branches in an accredited college. Graduates of regular and recognized colleges may enter the third grade without examination; and, after taking the third year's course in this college, will receive the degree of Doctor of Medicine on passing the examination in Practice of Medicine, Surgery and Obstetrics.

REQUISITES FOR THE DEGREE OF DOCTOR OF MEDICINE.

The candidate must be twenty-one years of age and of good moral character; must have studied medicine three full years, and studied three winter terms in a medical college, the last term being in this institution; must have dissected two sessions and received practical instruction in the Chemical and Histological Laboratories; must have paid in full all college dues, including the graduation fee; and must have passed examinations in all branches of medicine taught in this college to the satisfaction of the Faculty.

The degree will not be conferred on any candidate absent without permission from the Public Commencement.

FEES.

Matriculation (payable but once) ............................................. $ 5 00
General Lecture Fee, annually,* ........................................... 40 00
Dissections, each year for two years, ................................. 5 00
Chemical Laboratory, .......................................................... 5 00
Hospitals and Dispensary, annually, .................................... 5 00
Graduation Fee, not returnable, ........................................... 25 00
Any Single Course, ............................................................... 10 00

Fees must be paid in advance, and promissory notes cannot be received.

All fees should be paid to the Secretary of the Faculty, and his receipt is evidence of such payment, to be produced before admission to the examination for the degree.

No ticket or other certificate of attendance upon the college exercises will be issued to any student until the end of the term and all dues are paid.

Students who have paid for three full courses in this college will be admitted to any subsequent course by paying a matriculation fee.

Persons desirous of taking instruction in Practical Anatomy, Histology, Chemistry, or any special course, are permitted to do so on the payment of the fee for the respective course together with the matriculation fee.

The general lecture fee will be reduced one-half in favor of graduates of other regular medical colleges who attend a course of instruction in this college.

*Students who have paid the general lecture fee for two courses, in this or another recognized college, pay $20 for the third course.
