Thaddeus Reade Lectures
Scheduled February 2

ANNUAL PASTORS' CONFERENCE
PROGRAM ANNOUNCED

"Faith in the 20th Century" is the theme of the fifth annual Thaddeus C. Reade Lecture Series and Pastors' Conference to be held Thursday, February 2.

The Reade Lecturer for 1961 will be Dr. William Georgiades, a noted Christian psychologist and Associate Professor in the School of Education, University of Southern California, and Research Consultant, Whittier Union High School District, California.

He has been a visiting Lecturer at Brigham Young and Mary­land Universities, and among many other posts has served as coordinator of numerous International Cooperation Administration Contracts involving educators from more than twenty countries.

Dr. Georgiades has authored ten publications, is listed in Who's Who in American Education and was named a Danforth Associate in 1958.

He holds memberships in six national professional organizations, including life membership in the National Education Association.

Titles of his three addresses are "Religious Faith and Psychology," "Religious Faith and Human Personality," and "Religious Faith in a Changing Society."

A gifted and evangelistic layman, he has been acclaimed one of the outstanding Christian leaders in his field.

The purpose of the Thaddeus C. Reade (Continued on page 2)

TRUSTEES VOTE RELOCATION

Science Lectures Set

A Nobel prize winner and five other outstanding American scientists are scheduled to take part in the fifth annual Science Lecture Series to be held at Taylor University, March 12-15, 1961.

The array of guest lecturers will include Dr. H. J. Muller, Professor of Zoology, Indiana University, Nobel prize winner in 1946; Dr. Ralph Over­man, Chairman, Special Training Division, Oak Ridge Institute of Nuclear Studies; Dr. Henry Koe­ffler, Chairman of the Department of Biology, Purdue University; Dr. John Vayhinger, noted clinical psychologist and Professor of Pastoral Psychology and Counseling, Garrett Biblical Institute; Dr. Charles W. Shilling, Director of Biological Sciences Communication Project for the American Institute of Biological Sciences; and Mr. John Whitnah, Division of Biology and Medicine, U. S. Atomic Energy Commission.

Reade Lectures, Pastors' Conference Plans Set

(Continued from page 1)

Lectures is to bring to the campus outstanding scholars who present stimulating addresses of current religious significance.

The subject of this year's workshop sessions is "The Church Plant."

Three main areas will be considered: Plant Utilization, Planning New Facilities, and Conducting a Financial Campaign.

Outstanding consultants in these fields will lead the workshops. Heading the Plant Utilization study will be Mr. Charles J. Betts, A.I.A., who has been consulting architect for the Board of Church Extension of the Disciples of Christ for the past 13 years. He is a registered architect in 21 states and holds a senior certificate of the National Council of Architectural Registration Boards.

Prior to his present position, he was a draftsman, specification writer, engineer and superintendent with an architectural firm for 13 years.

He is a member of the Gideons International, having served as Colorado-Wyoming President and International Representative. Other memberships include the American Institute of Architects, the Church Architectural Guild of America and the Indiana Society of Architects, of which he is president.

Joseph H. Kimbel, President of Church Enterprises, Inc., South Bend, Indiana, is the architectural consultant. His organization specializes in handling church materials, supplies, and preengineered plans for package church buildings. He counsels church boards across the country regarding new buildings, remodeling, locations and equipment.

He is a member of the Commission on Church Extension and Evangelism of the National Association of Evangelicals, is chairman of the Church Extension Board of the United Missionary Church and is church consultant for Christian Life Magazine.

EDUCATION DEPARTMENT HEAD RECEIVES DOCTORATE

Robert B. Hayes, Associate Professor of Education and Chairman of the Division of Education and Psychology, recently received the doctor's degree from the University of Kansas. A total of sixteen Taylor professors now hold doctorates.

Hayes received the A.B. degree from Asbury College, and the M.Ed. and Ed.D. degrees from the University of Kansas.

He is a member of the National Education Association, the Indiana Teachers Association and the American Association of University Professors.

The sessions on Church Financing will be led by Paul H. Chase, Vice President of Chase Associates, Kirkwood, New Jersey, a fund-raising firm serving conservative churches across the U.S.

Of the nearly 1,000 churches which his organization has served, he has personally participated in more than 200 campaigns for new buildings, major remodeling programs and debt liquidation.

Mr. Chase is a frequent consultant for conferences and workshops on church finance.

A special workshop for wives also has been planned. The general topic for discussion will be "The Parsonage." Practical concerns such as decorating the parsonage, remodeling, and planning a new parsonage home will be considered.

Mrs. B. Joseph Martin will lead this session.

Registration fee is $2.00 for the day. There will be no registration fee for wives. Cost of meals is $1.00 for lunch and $1.25 for dinner. For reservations or additional information contact the Taylor Public Relations Office.

Registration is limited to 1,000 young people between the freshman year in high school and 28 years of age. For further information contact June Nilsen, Youth Conference Registrar, Box 583, Taylor University.

The Conference cabinet is inviting alumni and friends to join the college in prayer for the services.

WILLS, ANNUITY PROGRAMS EMPHASIZED BY COLLEGE

The Wills, Bequests and Annuities programs of Taylor University are receiving increased emphasis as part of the financial program of the college, President B. Joseph Martin has announced.

New materials have been prepared which explain in detail the various programs and the advantages and opportunities offered by each.

The purpose of this program is to provide donors opportunity for sound financial investments which will yield substantial returns and which also will help promote the ministry of the college.

Persons interested in receiving information concerning any of these programs are invited to write to the Director of Public Relations, Taylor University.
Dr. Nussbaum Lectures With Oak Ridge Unit

Dr. Elmer Nussbaum, radiation scientist and head of the Division of Natural Sciences at Taylor will be a visiting physics lecturer at Tampa University, January 8-14, with the mobile training unit of the Oak Ridge Institute of Nuclear Studies.

He will conduct lecture sessions in the University classrooms and hold laboratory periods in the training unit. The Institute also sponsors the visiting lecturers.

The mobile unit visits approximately one college in each state, and a total of eight colleges per year.

Dr. Nussbaum also took part in a similar nuclear training program at Furman University, Greenville, North Carolina, November 28 to December 3.

SCIENCE LECTURE SERIES

(Continued from page 1)

The series will convene Sunday evening with an address, "Design in Human Behavior," to be presented by Dr. Vayhinger in Maytag Gymnasium at 7:30.

Monday's agenda will also feature Dr. Vayhinger, who will speak at Chapel and two lecture sessions. In addition, he will hold conferences with psychology and religion majors.

"Educational Signposts"

Dr. Shilling also will address a class session Monday at 2:30 and will deliver an evening lecture on "Educational Signposts" at 7 o'clock.

The Tuesday schedule will include an address at 9:30 a.m. on "A Christian's Answer to Communism" by Mr. Whitnah. This will be followed during the day with lectures by Drs. Shilling and Koeffler, with a second address, "Life Forms to be Expected Elsewhere than on Earth," to be presented by Dr. Muller at 7:30 p.m.

Dr. Overman will address faculty and students during the chapel hour on Wednesday, will present a class lecture in the afternoon, and is scheduled for a conference with science majors.

Climax of the three-day meetings will be a banquet for science students at 6:15 p.m., when Dr. Overman will speak on "The Atom in Your Future."

The science series is planned by the Taylor Science Club, and the appearance of the guest speakers is sponsored by the National Institute of Biological Sciences.

The public is invited to attend the evening lectures on Sunday, Monday and Tuesday.

C B M C OFFICIAL VISITS CAMPUS

Dr. T.E. McCully, (back row, center), Executive Secretary of the Christian Business Men's Committee International, is shown with a group of Taylor business students during a recent visit.

The former Director and Chairman of C.B.M.C. addressed the student body and faculty during the chapel hour and lectured to business classes. He also spoke to the Marion C.B.M.C. and the Taylor Collegiate C.B.M.C., which met together for a dinner meeting on the campus.

His son, T.E. (Ed) McCully, Jr., was one of five missionaries martyred by the Auca Indians in 1956.

Dr. McCully is on the Board of Inter-Varsity Christian Fellowship, and is Vice-President of the Auca Missionary Foundation.

STRONG CONFERENCE SCHEDULE TO CHALLENGE TROJANS

The Taylor basketball team victimized the Alumni in a pre-season warm-up, 88-53, during Open House ceremonies, November 19.

In the season opener, Cedarville college succumbed to the Taylor fast break, 113-75. The Odlomen then lost two in a row, a 96-91 set-back at the hands of Indiana Tech and a first round 79-69 defeat by Fort Benjamin Harrison. Taylor then regained form to defeat Huntington, 87-83, and in the Taylor tourney conquered Greenville, Illinois, 115-86 before losing a tight championship game, 75-70, to powerful Kentucky State.

Other scores to date:
Taylor, 84; Hanover, 68.
Taylor, 87; Goshen, 77.

Taylor now holds a 1-0 record in the conference and resumes Hoosier Conference play on January 7, at Franklin.

Remaining games:
Jan. 7 Franklin . . . . T
Jan. 10 Manchester . . H
Jan. 14 Anderson . . . T
Jan. 17 Indiana Central . . . H
Jan. 21 Marion . . . . T
Jan. 28 North Park . . . . T

Jan. 30 North Central . . . H
Feb. 4 Anderson . . . T
Feb. 7 Manchester . . . T
Feb. 11 Hanover . . . H
Feb. 18 Indiana Central (8:45) . . H
Feb. 21 Franklin . . . . H
Feb. 24 Calvin . . . . T

Return of Questionnaires Urged

How many Taylor alumni are in the ministry? How many are doctors? What percentage have graduate degrees? In response to a questionnaire which the Alumni Office sent to all graduates and former students several weeks ago, hundreds have been received, from which the above and many other valuable facts are being compiled. However, alumni who have not yet returned their questionnaires are urged to do so as promptly as possible in order to complete the tabulation.

A complete study of the results will be included in a future Alumni Magazine.

Those who did not receive a questionnaire, or who misplaced the original, may secure another copy by contacting the college Alumni Office.
TRUSTEES VOTE TO RELOCATE COLLEGE

(Continued from page 1)

remaining in Upland, the Board of Trustees prayerfully voted to relocate Taylor in Fort Wayne,” Dr. Shilling stated.

Shortly after the fire which destroyed the administration building on January 16th, 1960, Taylor received invitations from three Florida cities to consider relocating in their communities.

These were followed by invitations from twenty-one Indiana cities including Fort Wayne.

The Board of Trustees, at their June meeting last spring declined the Florida offers in favor of remaining in Indiana, where the college has a heavy concentration of alumni and friends.

GRATITUDE EXPRESSED

“We are grateful for the interest shown by the many Hoosier communities which have generously extended invitations and shown appreciation for the value and influence of a Christian liberal arts college in the community,” Dr. Martin commented. “However, the extensive advantages offered by the city of Fort Wayne, and the opportunity it offers Taylor for community service has prompted the Board to select this fine Indiana city as the new home of the college.”

Dr. Shilling, a native of Upland, has expressed deep appreciation for the support and friendship of the Upland community, and residents of Marion, Hartford City and other communities in Grant and Blackford counties. He stated that many local citizens in this area have supported Taylor's program to the best of their ability for many years.

TAYLOR’S FUTURE ROLE

“In view of the tremendous educational needs facing our country in the next decade when college enrollment is expected to double, and in appreciation of the strategic role of higher education in the security of America and the free world, Taylor is compelled to take whatever measures are necessary to fulfill her expanding responsibilities,” the Trustee Chairman stated.

“Thus, the Board has elected to return to Fort Wayne in order to better serve Indiana and the youth of our country,” Shilling affirmed.

“This is certainly the most historic step in Taylor's 114 years, but chasms are never crossed by little steps,” commented Taylor's President Martin.

Many considerations prompted the selection of Fort Wayne, including increased community support and more work opportunities for the many students who need part-time employment.

President Martin is shown removing the historic documents from the cornerstone of the Administration Building which was destroyed by fire a year ago.

Cornerstone Laid In 1893 Yields Historical Documents

Taylor's past came alive on December 20, 1960, when the 67-year old cornerstone was extracted from the ruins of the Administration Building when the remains were razed by a wrecking crew.

The cornerstone contained a variety of documents including two copies of the cornerstone-laying program.

A story on the contents and their significance will be featured in the March ALUMNUS.

There will also be greatly enlarged opportunities for practical laboratory experience for students in the fields of nursing, business, medicine, Christian education, psychology, music, journalism, social work, and elementary and secondary public school teaching.

The 160 churches of the city will be able to serve the student body which represents approximately forty denominations.

The college also will gain a much larger community to serve and will make a significant educational, cultural and religious contribution to the life of Fort Wayne.

“The city will provide an excellent outlet for Taylor's strong evangelical Christian influence. The college will extend every effort to be a good citizen and an indispensable asset which will deserve the highest community respect,” Dr. Martin concluded.
