TOTAL,	275

LADIES.

THIRD YEAR,	5
SECOND YEAR,	22
FIRST YEAR,	118
	<hr/>
TOTAL,	145

TOTAL OF BOTH SEXES, 420

COURSES OF STUDY.

1. NORMAL COURSE.

This is sub-divided into (1). The short course ; (2). The complete course. The short course occupies about two years. Students who are quite proficient before entering may graduate in less time. In all cases a *knowledge of the subjects* will be regarded rather than the time spent. The complete course will require about one year more study than the preceding.

FIRST YEAR.

First Term—Arithmetic, Geography, Composition, Writing, Reading.

Second Term—Arithmetic, Geography, Composition, Drawing, Reading.

Third Term—Arithmetic, Geography, Grammar, Book-Keeping.

Fourth Term—Arithmetic, Geography, Grammar, Book-Keeping.

SECOND YEAR.

First Term—Algebra, Elementary Zoology, United States History.

Second Term—Algebra, Natural Philosophy, United States History.

Third Term—Algebra, Natural Philosophy, United States History.

Fourth Term—Algebra, Physiology, United States Constitution.

THIRD YEAR.

First Term—Geometry, Rhetoric, General History.

Second Term—Geometry, Rhetoric, General History.

Third Term—Geometry, Mental Philosophy, Elementary Chemistry.

Fourth Term—Botany, Mental Philosophy, Zoology.

Exercises in Didactics, Gymnastics, Debating and Vocal Music throughout the whole course. Also, a course of reading to be prescribed or approved by the President is necessary to graduation.

2. BUSINESS COLLEGE COURSE.

We are now able to offer one of the most interesting and useful courses of *Educational Training* that has been offered the student of any age or country. Our rooms are large and fitted with all the latest appliances, including Offices, Bank, etc. The course of study is so arranged as to be of incalculable value and advantage to all classes of the community—the Farmer as well as the Merchant, the Lawyer as well as the Banker. The Theory and Practice of Accounts, which should enter largely into every man's education and be taught in every male and female school, forms an interesting and important part of the course of study.

Book-Keeping.

There are two methods of Book-Keeping taught. That by Single Entry and that by Double Entry. As Double Entry is conceded to be greatly superior, this method is mostly used; yet Single Entry is taught in all its forms. The student will enter the Theoretical Department, and after becoming familiar with the fundamental principles, he will be taught to journalize, post and balance books, representing the different kinds of business. Further in this preliminary course he executes invoices and all business papers involved in every set. He is, therefore, familiarized with the use of

INVOICES,
ACCOUNTS CURRENT,
STOCKS,
DRAFTS,
ORDERS,
BALANCE SHEETS,

BONDS,
NOTES,
CHECKS,
ACCOUNT SALES,
LETTER WRITING,
ETC.

The advance Course carries the student into a more extended PRACTICE, in which he enters upon yet more complicated transactions and does business with College Bank, Commission Men and Business Men in General. All business papers are made out in this part of the course, including:

WAY BILLS,
BILLS OF LADING,

SETS OF EXCHANGE,
FORMS OF PROTEST, ETC.

After completing the advanced course, he will enter the offices and become familiar with the Post, Insurance, Rail

Road, and other Offices, and, lastly, enter the Bank, commencing with the position of Book Keeper and advance step by step through all the offices of the Bank. In short, the student becomes so familiar with business customs and the various forms of business papers and accounts, that he can, upon graduation, commence *at once* and *succeed* in the practice of book-keeping in any sphere of business:

RETAIL,	BANKING,	RAIL ROADING,
WHOLESALE,	BROKERAGE,	LUMBERING,
COMMISSION,	INSURANCE,	Etc.

Commercial Law.

In our course of instructions the study of the law relative to all business transactions receives due prominence. Every business man should, to some extent, be his own Lawyer; enough so, at least, to keep himself from the “meshes of the law.” Indeed, the business student is compelled from necessity, to be familiar with much that Commercial law teaches if we would properly understand book-keeping. The subjects treated under this head are:

CONTRACTS,	NEGOTIABLE PAPER,
INTERESTS AND USURY,	REAL ESTATE,
PAYMENTS,	LIENS,
INSURANCE,	AGENCY,
BAILMENT,	CORPORATIONS,
PARTNERSHIP,	Etc.

Commercial Arithmetic.

This branch of instruction, being of prime importance, receives the highest attention. Concise and practical methods of all business computations are thoroughly taught and rigidly inculcated.

Penmanship.

Penmanship is given special attention. The Spencerian system is taught and its use thoroughly enforced. Penmanship has now become a science as well as an art, and as such, is presented in a manner calculated to insure a fluent, practical and legible hand-writing. Business penmanship will also be taught during the course.

Telegraphy.

The art of telegraphing is taught by an experienced sound operator, for whose use the department has been supplied with new instruments.

Common English.

These branches are provided for in the course which includes a thorough knowledge of those English branches necessary to a successful business pursuit. As the student is obliged to originate many of his entries, it is of the highest importance that he be versed in Composition. Geography and Spelling, being of no little importance, receive due attention.

COURSE OF STUDY.

First Term—Geography, Arithmetic, English Grammar, Book-Keeping, Penmanship.

Second Term—English Grammar and Analysis, Arithmetic, Book-Keeping, Business Forms.

Third Term—Actual Business, Commission, Banking, Business Penmanship.

Fourth Term—Commercial Arithmetic, Commercial Law, Business Correspondence, Telegraphy.

On the completion of this course a Diploma, conferring the degree of *Master of Accounts*, will be given to the student.

Advanced Students.

Any student who is a good English scholar, or one who has a knowledge of book-keeping, may complete the course in two terms of eleven weeks each. While some may finish some part of the course in one term, yet we do not advertise or agree to make business men in a single term, but we can give as much as any College in that time, and that which is *practical*. In *all cases* students must pass required examinations in all branches of the course before graduating. Those completing the prescribed course will be awarded a diploma.

Charges.

No extra charge is made in this department except for Telegraphy, for which an additional fee of \$6 is charged.

3. PREPARATORY COURSE.

It is the constant aim of our instructors to imbue the pupil with a desire for extended and liberal scholarship. To this end he is advised to put himself at once on a line of study preparatory to a full college course. The relations existing between this institution and the INDIANA ASBURY UNIVERSITY are such that students passing through their preparatory studies here may enter without examination the Freshman Class of that University. Subjoined is a modification of the new Asbury Preparatory Course.

This course has been arranged to meet the wants of a large class of students who have spent several years in high schools and academies. Such students, after completing their high school or academic course, find to their disappointment that they are not yet fitted for college, owing to the large amount of Latin and Greek generally required for admission to the best institutions. The University at Greencastle, has made an attempt to obviate this difficulty by deferring the study of these languages until a later period, and thus enabling the high school graduates to enter, without the loss of time, upon a full college course. It is believed that this end has been accomplished without impairing the efficiency of the college course for purposes of discipline or scholarship.

Junior Preparatory Year.

First Term—Arithmetic, Geography, Grammar, Writing, Reading.

Second Term—Arithmetic, Geography, Grammar, Writing, Reading.

Third Term—Algebra, Geography, Composition, Drawing,

Fourth Term—Algebra, El. Astronomy, Composition, Book-Keeping.

Senior Preparatory Year.

First Term—Algebra, Latin, Elements of Zoology, Elocution and Composition.

Second Term—Algebra, Latin, Physiology, Natural Philosophy.

Third Term—Geometry, Latin, Natural Philosophy, United States History.

Fourth Term—Geometry, Latin, United States History, Zoology.

Freshman Year.

First Term—Geometry, Latin, *Elective*, Greek, English Literature, Natural Science, Commercial Course.

Second Term—Geometry, Latin, *Elective*, Greek, English Literature, Natural Science, Commercial Course.

Third Term—Trigonometry, Latin, *Elective*, Greek, History, Science.

Fourth Term—Trigonometry, and Surveying, Latin, *Elective*, Greek, History, Science.

On completing this course of study, students will find themselves prepared for admission to the Freshman or Sophomore class of most colleges. Or if their circumstances will not allow them to devote further time to study, they may be graduated at this point with the same diploma which is given to the Academic Graduates.

No complete College Course of Study is at present published. As the institution grows in public favor and in resources, it will be possible to extend the instruction. Now, however, the work indicated in the preceding Course of Study is all that can be faithfully and honestly accomplished. We attempt no more than we are able to perform in a way creditable to ourselves and profitable to the students.

4. ACADEMIC COURSE.

To students who have not the time or means to complete a regular college course of study, and who are not preparing for the profession of teaching, the following course is adapted:

Junior Academic Year.

First Term—Arithmetic, Geography, Grammar, Writing, Reading.

Second Term—Arithmetic, Geography, Grammar, Writing, Reading.

Third Term—Algebra, Geography, Composition, Drawing.

Fourth Term—Algebra, Composition, Geography, Book-Keeping.

Middle Academic Year.

First Term—Algebra, Latin, Elements of Zoology, Elocution and Composition.

Second Term—Algebra, Latin, Physiology, Natural Philosophy.

Third Term—Geometry, Latin, Natural Philosophy, United States History.

Fourth Term—Geometry, Latin, United States History, Zoology.

Senior Academic Year.

First Term—Geometry, German, General History, El. Astronomy.

Second Term—Geometry, German, General History, El. Chemistry.

Third Term—Trigonometry, German, English Literature, El. Chemistry.

Fourth Term—Trigonometry and Surveying, German, English Literature, or Commercial Course.

Weekly exercises in composition

COURSE OF STUDY IN MUSIC.

This course will hereafter occupy three years, more or less, according to the industry, natural aptitude and previous advancement of the pupil. The course includes both private and class instruction in the following departments:

Piano, Reed Organ, Pipe Organ, Violin, Notation Harmony and Counterpoint, Vocal Culture and Singing.

When several scholars are so nearly of the same advancement that they may, with mutual advantage, be placed in a class, this will be done. Otherwise the pupils will receive private lessons.

The value of music as an element of education, depends largely upon the other elements of culture acquired with it. It is therefore desirable that students should pursue other studies

at the same time. An exclusively musical education will, however, be given when desired; and instructions may be taken for a longer or shorter time.

In the Piano Forte department, the course will include the following topics:

1. A thorough knowledge of Notation, including all peculiarities in the writing, phrasing, fingering, abbreviations, etc., of ancient and modern works for the Piano.
2. Time, including a Systematic Analysis of all Rhythmic forms.
3. Technical Studies; Bertini's, Czerni's, Kohler's, Duvernoy; the standards in this branch.
4. Reading of Vocal Score. Heller's, Cramer and Clementi.
5. Reading at Sight.
6. Study of Tone, as illustrated in the Playing of Songs without Words, and in the practice of Phrasing.
7. Accompaniment of Instrumental and Vocal Performance.
8. Concerted Performance of Duets, Trios, Quartets, etc., for various Instruments with Piano.

Vocal Culture.

In the department of Vocal Culture, instruction will be given in regard to the anatomy of the vocal organs, and other parts brought into requisition in singing; in the use of the breath, and the condition of the parts necessary to produce good tone; in the fundamental principles of utterance, as applied to singing or speaking; in reading music, intonation, execution of trills and running passages, and in musical expression.

Harmony.

The course in Harmony will embrace the classification of intervals, scales, concords and discords, with their preparation and resolution, thorough bass, diatonic and chromatic harmonics, modulation, suspensions, anticipations, pedal harmonics and musical form. All pupils entering the regular course will be expected to enter the class in Harmony, as a knowledge of this—the grammar of music—is indispensable to every music student.

Organ Practice.

Pupils taking lessons on the Organ will have the use of a pedal Cabinet Organ, and a large Pipe Organ, the latter, one of the finest in the city.

Rehearsals and Exhibitions.

There are, each term, several general rehearsals in which all the students are in turn invited to perform, that they may gain the confidence necessary to enable them to play or sing with composure before others.

Expenses.

Piano, according to grade and number of pupils in class,	\$10 00 and 15 00
Singing, " " " " " "	10 00 " 15 00
Organ, " " " " " "	10 00 " 15 00
Violin, and other Orchestral Instruments, . . .	10 00 " 15 00
Harmony and Composition, in classes,	5 00
Use of Grand and Square Pianos, and Organs for practice for an hour per day, per term,	2 00

Students who settle for music at the *close* of the term instead of the beginning, will be charged 60 cents per lesson. Students who pay in advance will be entitled to drawback for all lessons not received, when the fault lies with the institution. Twenty lessons constitute a full term.

All these classes, excepting Harmony, are limited to from three to four pupils.

Pupils studying several branches, will be allowed a reduction of 10 per cent.

All the Lectures, Soirees, and Concerts, are free to pupils of the department.

GRADUATION, DIPLOMAS, ETC.

Students having passed through all the studies of any of the above Courses of Study, and having sustained satisfactory examinations therein, will be *graduated*, and will receive diplomas certifying their faithfulness and the extent of their scholastic attainments.

The fee for a diploma is \$2.50. The Graduating Exercises are held at the close of the summer term in June.

Expenses.

Tuition is eight dollars per term of ten or eleven weeks. Students who are present less than a term at one time, will be charged for tuition at the rate of one dollar per week. Holders of Scholarships will pay three dollars instead of eight.

Board, including a furnished room in the college building, costs about \$2.25 per week. The board is plain but wholesome, and costs just what is charged for it. Most of the teachers board at the same tables with the students. Pupils who desire other accommodations can find such in private families, at prices ranging from \$2.50 to \$3.50 per week. Students who hire their own rooms outside of the college, and who wish to take their meals in the college, will be charged \$2.50 per week.

Fuel and lights are provided by the students. Wood and oil are for sale at reasonable figures on the college premises. The personal washing of students must be paid for by the students. Bedding is washed without extra charge.

The rooms in the college building are furnished with bed and bedding, stove, table, chairs, washstand, bowl and pitcher, slop pail, mirror and lamp. Unnecessary wear or breakage, either accidental or intentional, will be charged to the occupants of the rooms in which the damage occurs, unless the offending parties can be readily ascertained.

Thus, a room furnished with stove, table, chairs, washstand, bowl and pitcher, slop-pail, lamp, mirror, bed and bedding,

table board at same table with teachers, and *tuition*, will cost for the different terms as follows :

Fall Term in Advance	\$30 00.	If not in Advance	\$32 50
1st Winter Term	" 33 00.	" "	36 00
2nd " " "	33 00.	" "	36 00
Spring	" " 30 00.	" "	32 50

Carpets furnished, when desired, at \$1.00 per term for each occupant of room.

Students who prefer to room and board in private families, will pay \$8.00 per term for tuition.

THESE EXPENSES MAY BE MADE EVEN LIGHTER.

1. Students may furnish their own beds, mattress, pillows, sheets and coverings. A reduction of ten cents per week will then be made. Bedding not washed in this case.

2. Self-boarding students may board themselves at a cost somewhat less than above. Rooms may be had in the vicinity of the college for this purpose.

3. Employment on Saturdays and at odd hours may often be obtained. Many students have defrayed one-half their expenses for the year past in this way.

4. FREE TUITION SCHOLARSHIPS are issued at the close of each term to those students whose average scholarship and deportment have reached 95 per cent. This entitles the holder to a reduction of \$5.00 per term from the above charges. This reduction is open to all, and is not difficult of attainment. A large percentage of our students have gained this abatement.

This advantage is peculiar to this school.

Students paying in advance, and being obliged to leave before the term for which they have paid has expired, will be charged at the rate of \$3.25 per week for the time they have been in school, and the balance will be refunded in cash; except that no deduction will be allowed for the last week of each term. Students entering for less than a term will be charged \$3.25 per week.

The Expense for Books

May be largely diminished by *renting books* from the text book circulating library.

GENERAL INFORMATION.

Location.

This Institution is located at the West end of Wayne Street, in the city of Fort Wayne, Allen County, Indiana. Fort Wayne is a beautiful and healthy city of about 30,000 inhabitants. It is approached by five railroads: The Pittsburg, Fort Wayne & Chicago; the Wabash, St. Louis & Pacific; the Grand Rapids & Indiana; the Fort Wayne, Jackson & Saginaw; and the Fort Wayne, Muncie & Cincinnati. Students arriving by any one of these roads, will find hacks at the depot to convey them directly to the college.

The College Building

Contains rooms for about one hundred students; and a chapel, recitation rooms, dining room, etc. Students may find rooms in the city near the college if they prefer. Several buildings are under the control of the Principal for this purpose.

A new building is contemplated, and it is hoped that within the current year it may be ready for occupancy.

Library, Apparatus, Etc.

A fair reference library is open to all students without expense. It includes the New British Encyclopedia as far as published; Chambers', Appleton's and Zell's Encyclopedias; Allibone's Dictionary of Authors; Webster's and Worcester's Dictionaries; and numerous historical, biographical and scientific reference books. Hourly use is made of these books in the preparation of lessons by the students.

Apparatus for illustration in Chemistry and Physics is provided ample for the ordinary experiments of the text books, and additions are made every term. Geography is illustrated by a large McVickar Tellurian globe, a twelve inch Fitz globe, a set of new outline maps, apparatus for Foucault's experiment and for map drawing, etc.

Physiology is illustrated by a fine articulated human skeleton from Paris, a set of plaster moulds of the muscles, brain and

viscera ; a set of splendid charts of Anatomy, and many alcoholic preparations. Dissections of domestic animals are frequently made, and during the winter, advanced students have the opportunity of attending the demonstrations of anatomy in the medical colleges of the city.

Literary Societies.

The Thalonian Society, composed of ladies and gentlemen, meets every Friday evening in a well furnished hall. The exercises consist of debating, reading, essays, reciting choice selections, and music.

The Philalethean Society meets, for the present, in a school room well adapted to the purpose. As soon as a suitable room can be devoted to the exclusive use of this society, such room will be furnished appropriately. Membership and exercises as above.

Several debating clubs are also in operation.

Recitations, Standing, Examinations, Etc.

Attendance on recitations is obligatory. Each student is expected to take full work and labor to the full measure of his strength. A daily record of the merit of each student in his recitations is kept. This is supplemented by a written examination every month. Students who reach a grade of 95 per cent. in scholarship, punctuality and deportment, are entitled to *honorable mention* and given free tuition for the ensuing term. All students who average above 85 per cent. are called *first grade* students. Those between 85 per cent. and 70 per cent. are called *second grade* students. Those lower than this are called *third grade* students.

Reports

Are sent to parents and guardians monthly, stating the standing in scholarship and deportment of the student for the preceding month.

Religious Exercises.

Morning prayers are held daily excepting on Saturdays. Attendance is required.

A daily prayer meeting is well sustained. Attendance voluntary.

Students are required to attend some orthodox church on

Sunday forenoon. The church selected may be Catholic or Protestant according to the desire of the parents or the students.

Government.

The college belongs to the Northern Indiana Conference of the Methodist Episcopal Church. The government is vested in a Joint Board of Trustees and Visitors, consisting of the Trustees hereinbefore named, and Visitors appointed from year to year by the Annual Conference.

The internal administration is deputed in a large measure to the Faculty.

The attempt is constantly made to awaken the conscience of the students to a strict regard for the rights of others, and to a sense of their duty to themselves, to society, and to God. Owing to the fact that the large majority of our students are young men and women of maturity, who value their advantages and make the most of them, there is very little of the trickery and knavery that is so annoying in many eastern institutions. Were all students endowed with this high spirit of honor and keen sense of propriety, perhaps no rules would be needed. The hackneyed rule "*Do right*" would suffice. To aid students in interpreting this rule, and applying it to the relations of school life, the following Requirements and Prohibitions are made.

Things Required.

1. Due diligence in study.
2. Attendance on all prescribed exercises of School.
3. Attendance at church on Sunday forenoon.
4. Presence in study room in study hours.
5. Prompt compliance with all regulations deemed by the Faculty beneficial to the school as a whole. When such regulations are regarded by the student as burdensome, he is urged to interview the President on the subject and state his objections in courteous and respectful language, when due consideration will be given to the complaint.

Students of the institution are required to refrain from :

1. Visiting the rooms of other students in the college building during study hours, unless by special permission.
2. Smoking tobacco on college premises, playing cards, making unnecessary noise, or playing any tricks which would

disturb or annoy any one, within or about the college premises.

3. Marring or injuring the property of others.
4. Visiting saloons or gambling houses, or improper places of amusement
5. Dancing in the college building.
6. Using profane or obscene language.

CALENDAR FOR 1880-81.

1880.

April 20—Spring Term begins.

June 25—Spring Term closes. 10 weeks.

Annual Commencement, evening of June 24.

Annual meeting of Joint Board, June 24, 9 o'clock A. M.

July 13—Summer Normal begins.

August 20—Summer Normal ends.

August 31—Fall term begins.

November 5—Fall Term closes. 10 weeks.

November 9—First Winter Term begins.

December 24 to January 3—Holiday Vacation.

1881.

January 28—First Winter Term closes. 11 weeks.

February 1—Second Winter Term begins.

April 15—Second Winter Term closes. 11 weeks.

April 19—Spring Term begins.

June 24—Spring Term closes. 10 weeks.

Annual Commencement, June 23.

Meeting of Joint Board, June 23.

SPRING TERM

—AND—

SUMMER NORMAL TERM

—OF THE—

FORT WAYNE COLLEGE AND NORMAL SCHOOL.

Special Inducements for Teachers and Applicants for License to Teach.

Review Classes—Will be conducted in all the common branches.

Grammar—Taught in a thorough and interesting manner. Each pupil furnished with a *complete key* to the sentences in Harvey's Grammar, showing the analysis by a beautiful and simple style of diagram. This key will be in such form that the student can take it home to his next school.

Geography—Mathematical, Political and Physical. *New apparatus* to illustrate all branches of the subject. Splendid McVickar Globe, a 12 inch Fitz Globe, new Outline Maps, Etc. Foucault's experiment to show that the "*world does move though*" will be exhibited constantly.

Map Drawing—Will be taught to those desiring it. The beautiful colored maps made at the *first trial* by our students, are admired by all.

Reading—In addition to the usual drill in elocution given in reading classes, the student will be instructed concerning the authors of the selections, so that the dreaded *examination in reading*, given by some county superintendents, will be less formidable.

Writing—And how to teach it will have due attention.

Arithmetic—The student can review such parts of the subject as he most needs to learn.

Physiology—Is taught by one of the most accomplished and experienced surgeons in the West. He is also an able teacher. Models in plaster of all the different parts of the body will be used daily. A splendid set of life-size charts of anatomy is also at the disposal of the class. A beautiful articulated human skeleton imported from Paris, and pronounced by competent judges one of the finest in America, is also in daily use.

An *advanced class in Anatomy* will be formed for those who wish to study the subject more thoroughly.

U. S. History—Will receive due attention.

The Theory and Practice of Teaching—The instruction in this subject will touch the following points:

History of Education, Organization of a School, Seating, Programme, Class Movements, Recitation, Opening Exercises, Government, School Law, Methods of Teaching all the Common Studies, etc., etc.

Vocal Music—Prof. Kinsey, the well known author of music and conductor of musical institutes, will be with us during the spring term and give instruction in singing and harmony. No extra charge for vocal music.

Chemistry and Physics—Prof. C. L. Clippinger, A. M., of Delaware, Ohio, has been engaged for the ensuing year. Apparatus [for experiments in the sciences is provided; and Chemistry, Botany, Zoology, Physics, etc., will be thoroughly taught.

Time—The Spring Term will begin April 20, and close June 25.

The Summer Normal will begin July 14 and continue till August 20.

Expenses—For Spring Term—Room furnished, table board and tuition, will cost \$27.50 in advance, or \$32.50 in installments. Parts of a term at the latter rates.

For Summer Normal—Same accommodations as above—\$20 in advance or \$3.50 per week in installments.
