Taylor University Theatre is a co-curricular education program supporting the liberal arts mission of the university by providing a broad range of theatre experiences that span most theatrical periods, genres, and styles. Plays that probe the human condition and reveal human action with integrity, authenticity, and a sense of "Grace," provide us the opportunity to understand better what is true about others and ourselves. While individual plays may not necessarily reflect the ethos of the Taylor community, we believe that this theatrical pursuit of truth resides at the heart of a Christian liberal arts education.

"For who in all the world would guess
That God would search out loneliness."
