ANNUAL REPORT

1956-57

UPLAND, INDIANA

From the President's Desk —

My Christian Colleagues:

When one attempts to gather together the necessary information for an Annual Report, one again is impressed with the great complexity involved in the operation of an institution of higher education. It is not easy to give an adequate picture of the operation of the college in a relatively brief annual report. However, together with our fine staff of co-workers, we will endeavor in this report to give you something of the picture of this year's operation.

We are grateful for what we feel has been a good year at Taylor University. It has been a good year because it is not a one-individual operation, but rather a fine spirit of teamwork. You would be pleased to drop in on an average

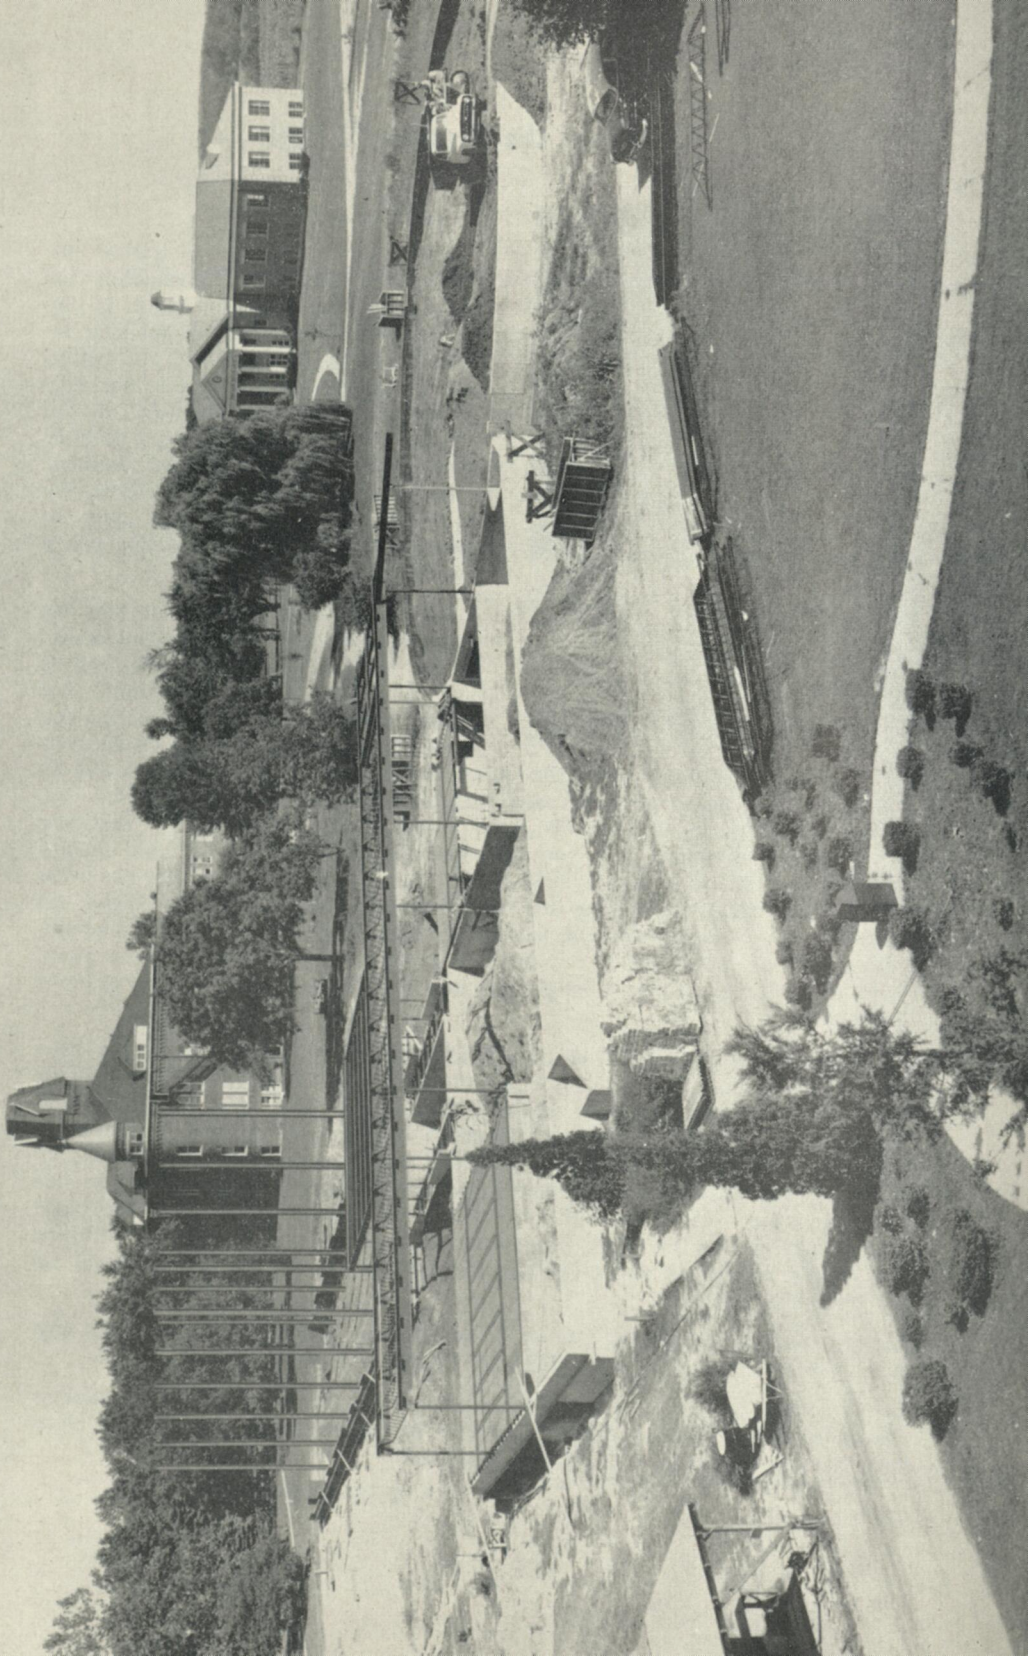

Monday morning to find the Administrative Council on their knees in prayer as they begin a week's activities, and then as they discuss the concerns immediately facing them. To these people, I owe a great debt of gratitude for the progress report that you are receiving. Likewise a very fine faculty makes it possible to report a good year. I personally feel that this has been one of the strongest faculties that I have known since coming to Taylor six years ago. To these good people belongs the bulk of the credit for the teaching ministry of our institution. Likewise there is a large corps of staff people whom we do not see at all in the limelight, yet how vital is their work. We are grateful to them.

But without a student body, of course, we would not have a college. We have had a grand group of young people on our campus this year. They have received excellent leadership from the Student Council and from the presidents and officers of the classes and organizations. I would pause at the beginning of this report to pay them tribute, for in them we see some of the fine leadership for our churches, our public schools, and for leadership positions across this nation and the world. Nor would I overlook the consecrated contribution made by the members of the Board of Trustees, who have been faithful and diligent and greatly concerned about the ongoing program of Taylor. How grateful we are for such men!

Then, of course, we must reach out to our Alumni, and our host of friends who have been praying and supporting, that Taylor's progress might continue.

To all who have had a part in any way to make this a fine year, we express gratitude. Above all, do we thank our God for His abundant mercies and blessings that are beyond our ability to enumerate.

Evan H. Bergwall

This Building a Step of Faith

"Now faith is the substance of things hoped for, the evidence of things not seen." Hebrews 11:1

By faith our forefathers, over III years ago, envisioned Taylor University. By faith they secured the land, saw buildings rise, and students enrolled. By faith they carried on the work of educating youth, saw them graduate and enter the fields of Christian service.

By faith in 1949 a new library building was planned and built, the indebtedness of which is about to be liquidated.

By faith, in 1955, a new dormitory and food service center was planned. An

architect was employed, a loan asked for, and plans were submitted and approved. Today work on the building progresses daily. The building, costing \$750,000 will permit additional people to enjoy the experiences of Christian college life at Taylor University. The food center will provide facilities for 650 at one sitting, and in addition will include a private dining room seating 100. A loan of \$600,000 from the Federal Housing & Home Finance Agency, plus \$100,000 provided by various gifts to the University will pay the cost of construction. However, these funds will not provide dormitory furnishings—beds, dressers, desks, chairs, and furniture for the lounges, or furnishings for the food service center.

By faith we are seeing our dreams come true and by faith we believe the furnishings for the new building will be provided. "According to your faith..." said Jesus. "Ye can ask what ye will in my name..."

This new dormitory and food center building is the evidence of our faith in God and in you. We know that we will not be disappointed.

Harold E. Camp

Vice President in Charge of Development

TAYLOR UNIVERSITY BULLETIN
UPLAND, INDIANA

SEPTEMBER 1957

Issued every other month. Entered as second class matter at Upland, Indiana, April 8, 1900, under Act of Congress July 16, 1894.

VOL. 50, NO. 3

The Academic Program

Selection and Admission The Admissions Committee and the director of testing are continuing the study comparing actual test results, based on standardized freshman and sophomore tests, with the upgrading of admission standards toward a more effective over-all academic program. Forty-six students were listed on the dean's honor roll at the end of the first semester, as compared with thirty-seven during the second semester of the preceding year.

Reading Improvement Program The reading improvement service under the direction of Dr. Cross continues to be an effective service to the students with the aid of additional reading accelerators and the benefits which come with two years of experience. It consumes approximately one-third of a teaching load, but it is probably one of the most effective instructional devices for the student who comes from the secondary level with reading difficulties.

Affiliation Programs Two new affiliation programs, one in **engineering** with Purdue University and the other in **law** with Indiana University, have been arranged during the year and are listed in the new edition of the catalog. The one in engineering is a three-two program with the student spending three years on the Taylor campus and two at Purdue, after which time both the engineering degree from Purdue University and the bachelor of arts degree from Taylor University will be granted. In the law program the bachelor of arts degree will be granted by Taylor University upon the successful completion of the student's first year in the Indiana Law School. A significant response to both of these curricula is anticipated.

North Central Liberal Arts Study Last summer Drs. Paton Yoder and Hazel Butz attended The North Central Liberal Arts Study workshop at the University of Minnesota and Michigan State University. Dr. Yoder directed the local study during the current year and an extensive progress report is being prepared for presentation to the faculty. The entire faculty has been involved in the study during the course of the year by means of monthly study meetings and the conduct of panel-led discussions, including faculty persons other than those who are members of the Study Committee. The work of the faculty in this area will gradually result in curriculum changes, but perhaps the greatest benefit of the study is in the stimulation which comes from involvement in it and the continuous consideration of the problems which are current in higher education.

Mrs. Roberta Kelly, head of the home economics department, has been appointed to attend the Michigan State University workshop this summer and she will succeed Dr. Yoder as chairman of the local Study Committee during the year 1957-58.

State Cooperative Study Four Indiana colleges, Marian, Huntington, Marion, and Taylor, are cooperating under the leadership of Dr. Lewis B. Mayhew in a study to find ways and means of stimulating faculty and students intel-

lectually for a more effective use of college time toward a greater realization of the true purposes of education. Findings of the joint committee will be released from time to time so that other colleges may also benefit by the committee's work.

**Music
Education
Curriculum**

Under the direction of Dr. Albert Schroer, new head of the music department, significant strides have already been made toward the development of a stronger program for the preparation of music teachers for the public schools. The State Department of Public Instruction is looking with favor upon the strengthening of this phase of teacher education at Taylor.

**Elementary
Student
Teaching**

The new program in elementary student teaching, to which reference has been made in the last two annual reports, continues to receive enthusiastic support, both from the students and from the schools in which they teach. The student teacher spends eight weeks full-time in the community and in the school under the joint supervision of a critic teacher and the head of elementary education at Taylor. Reports from the schools have been enthusiastic and they are asking Taylor to send them more student teachers.

**Educational
Annex Units**

Four of the three-bedroom Atterbury housing units are being located on the original site of Sammy Morris Dormitory. These are being arranged to provide four additional classrooms and office space for twelve faculty persons. Business administration and secretarial training, language teaching facilities and numerous classes of other departments will be accommodated in these buildings.

Report of the Dean of Students

**Student
Government**

Significant progress has been made in effecting an improved student government program. Much of this progress is directly due to more capable student personnel in positions of leadership. The Student Council have achieved greater respect in the eyes of the entire campus as they have capably fulfilled prescribed duties and as they have tackled problem areas with courage and new areas with imagination. Standing sub-committees have been formed within the Student Council with more work being done by more people. In addition, more worthwhile programs such as the evaluation commissions have operated throughout the year. A new dormitory government program began this year and a beginning was made on a manual for dormitory counselors. In cooperation with other Christian colleges, a beginning has been made in bringing together on an annual basis the student leaders from evangelical Christian colleges. Student leaders have regularly attended sessions of the National Student Association and some degree of prominence has been given to them through this affiliation.

**Scholarship
Committee**

As chairman of the scholarship committee, the dean of students has given leadership in bringing about a new scholarship program for foreign students which will begin in September, 1957. Time has

been spent in correspondence in continuing the present scholarships and loan funds and bringing into existence a few new ones.

Parents' Committee Work was continued with the Parents' Committee, regular letters were sent to parents of all students, and the tea for parents and faculty initiated during the fall freshman week program proved to be a pleasing success.

Counseling In the area of counseling the emphasis was placed on the entering student but it was rather obvious that counseling services were sought by an increased number of upperclassmen. It is the opinion of the dean of students that the level of counseling was higher this year due to increased interest on the part of more faculty members, more conscientious individual counseling by the head residents, the specialized services of psychology professors, and a greater desire on the part of the student to utilize the services offered by campus personnel.

Personnel Staff The work in the personnel area has been made much more effective by the upgrading of the personnel staff. Rev. Everett Craven, Head Resident of men, Miss Roberta Kessler, Head Resident of freshmen women, and Mrs. Wadsworth, Head Resident of women in Magee-Campbell dormitory and women living off campus, have been instrumental in raising the morale and adding effectiveness, not only to their counselling program, but to general campus life.

Report of the Registrar and Director of Admissions

Recruitment

The increased enrollment of the past year which gave a total of 594 students (no duplications) represents the number of young people who can be housed adequately in present facilities. The increased enrollment has been due again to the recruitment program which has been stepped up now for three years and which pays good dividends both in numbers and in quality of students.

Taylor First Choice One of the most telling areas for prospective students is the young people who indicate Taylor as their first choice on the state-wide scholarship testing programs. In the programs administered by Ohio and Indiana and which covered Indiana, Illinois, Michigan and Ohio a total of 86 young people indicated Taylor as their first choice college.

Trojan Council The Trojan Council which is under the direction of students (although supervised by the Director of Admissions) was stepped up this year. Students were put in charge of this program in which the students both visit and write young people whose names are gathered from the prospective student inquiries. During the Easter vacation and as well as that of the summer the students visit these young people in order to further their interest in Taylor. Our students have been very faithful in writing and contacting these young

people and have gained much themselves by this wider view of both recruitment and admissions.

**Varsity
Quartet**

The Varsity Quartet is also in the recruitment program as they contact many young people in their program. Reports of their work are constantly being received.

**Alumni
Guidance
Counselors**

The large number of inquiries being received from prospective students is due in part to the work of the Alumni Guidance Counselors in interviewing prospective students in their respective areas. There are now seventy-nine Guidance Counselors.

Admissions Committee

The Admissions Committee proves to be a valuable source of advice to the Director of Admissions. At the present time the committee has felt no need to change the policy to admit young people who are in the upper one-half of their high school class rather than in the upper two-thirds, but may move to the former figure soon.

Professional Meetings

The Registrar attended the state meetings of the Indiana Association of Registrars and Admissions Officers at Wabash College last October. The Registrar served as secretary-treasurer for the state group. She has been appointed to the advisory board of the Scholarship Testing Program of Indiana Colleges and Universities for a two-year term.

GENERAL SUMMARY OF STUDENTS

A report showing the number of students who received training at Taylor during the year 1956-57 is listed below.

1956-57

First Semester	Men	Women	Total
Seniors	49	50	99
Juniors	72	64	136
Sophomores	55	75	130
Freshmen	97	86	183
Unclassified	7	5	12
Total			560
Second Semester			
Seniors	36	69	105
Juniors	64	62	126
Sophomores	54	67	121
Freshmen	95	77	172
Unclassified	10	11	21
Total			545
For the college year (no duplications)			594
Total Number of A.B. degrees			42
Total Number of B.S. degrees			53
Total Number of Baccalaureate degrees			95

STATISTICS ON MAJOR FIELDS

Juniors and Seniors
Second Semester, 1956-57

Biblical Literature, 8; Biology, 9; Business, 11; Chemistry, 17; Christian Education, 10; Classical Language, 1; Elementary Education, 69; English, 19; History, 15; Home Economics, 12; Mathematics, 9; Music, 10; Physical Education, 30; Philosophy, 1; Psychology, 13; Science, 1; Social Science, 4; Social Studies, 7; Sociology, 12; Speech, 2; Zoology, 7; Two-Year Business, none; Pre-Engineering, 5; Pre-Nursing, 11; Pre-Medical, 6.

Public Relations

The Public Relations Department has endeavored to advertise Taylor, create good will, conduct a program of evangelism, enlarge Taylor's service to the community, interpret her program needs and progress to her public, and secure gifts. Effects to carry out these goals are listed below.

Publications

In addition to bi-monthly issues of the Bulletin, several other publications have been produced this year by the Public Relations Department.

Development Brochure The "Investment In Youth" development brochure was officially presented to the Board of Trustees and to the alumni at Homecoming Day last October. Since then it has served an important role introducing Taylor's development program to industrial and educational leaders. The brochure outlines Taylor's long range development program.

Speakers Bureau Brochure A new service to the public, "The Taylor University Speakers' Bureau," was organized this year. An attractive, 32-page brochure, "Taylor University Presents the Speakers' Bureau," presents members of the faculty, administration, and staff, as speakers for many types of meetings and programs.

In listing the background and qualifications of the speakers, the publication gives a clear picture of the academic and spiritual character of the college.

Academic Program Folders Work is progressing on six new colorful-pictorial academic folders to be used in student recruitment. Areas to be presented are Pre-Professional, Church Vocations, Elementary and Secondary Education, Business, Physical Education and Fine Arts.

Taylor was represented at the following conventions.

1. National Sunday School Association, held in October in Chicago.
2. Christian Education Conference, Park Street Church, Boston, in October. Alumnus Fred Prinzing represented Taylor.

3. National Association of Evangelicals, Buffalo, in April.
4. National Holiness Association, Minneapolis. Alumnus Gordon Johnson represented Taylor.

New Exhibit A new display booth was built for Taylor last summer by the Capex Company of Chicago. The display was used in all the conventions listed above.

Conventions On Campus The National Sunday School Association held their second successive Labor Day weekend conference at Taylor. The group seemed delighted with the accommodations and expressed the desire to return this year.

Community Days The college entertained community leaders from Blackford and Grant counties, at Hartford City Day and Grant County Day. Each occasion included a banquet and evening program. The Grant County Day program was a Lyceum concert by Pruth MacFarlin. The Hartford City Day program featured College and Hartford City talent. These affairs were very well attended, and genuinely appreciated by the guests. These occasions are undoubtedly of great benefit to the college, and provide opportunity for Taylor's Christian inuence to be experienced by many who would not otherwise visit the campus.

College Evangelism

The ministry of evangelism sponsored by Taylor University is unique in its field. The work of the college evangelist covers four areas—evangelism, radio, church relations and general public relations.

The scope of the evangelistic work conducted by Rev. and Mrs. David Le Shana is recorded in the figures below:

Total revival campaigns held	23
Total preaching services	360
High school assemblies	13
Result of meetings: over 375 public decisions for Christ; 50 decisions for missionary service	

Services to The Church Renowned through the years for effective Christian service to the church, Taylor has recently made significant efforts to enlarge the effectiveness of this ministry.

Church Relations Committee A Church Relations Committee has been formed, consisting of seven ministers who are acting in an advisory capacity to the University. Under the leadership of Dr. Thurman Morris of Fort Wayne, the committee gave leadership to the new Pastors' Conference, and is exploring areas of mutual interest to the college and the church.

The Pastors' Conference Taylor's first annual Pastors' Conference was held on campus February 7 in conjunction with the new Thaddeus C. Reade Memorial Lectures, delivered by Dr. D. Elton Trueblood. Over 150 pastors attended the one-day conference, which included panel discussions, workshop sessions and a question and answer period.

Quarterly News Letter A news letter, "Memo to the Ministry," is mailed quarterly to 3000 ministers, to keep pastors informed of campus activities and developments.

Radio

Taylor's radio program, "Chapel Meditations," has enjoyed a year of expansion. It is currently heard over six Indiana radio stations in Peru, Wabash, Elkhart, Kendallville, Anderson and Richmond.

HCJB Since April, "Chapel Meditations" has been broadcast to the South Pacific and Australia, from HCJB in Quito, Ecuador. Broadcast time is given to Taylor in exchange for a scholarship for an eligible student from Ecuador.

Plans are in the discussion stage concerning the inauguration of a new type of Christian program to be presented by Taylor.

Angel in Ebony

Angel in Ebony has become a program of major proportions as the following figures show:

Number of prints sold: 66

Number of prints maintained by the college:

Preview, 2; rental, 10

Number of showings by the 10 rental prints: 200

A multitude of testimonies has revealed the tremendous value of this film.

Consultants

Gonser and Gerber For three years, Mr. Jay Gerber, of Gonser and Gerber, Public Relations and Development consultants, has given valuable assistance to the Taylor program in three main areas: (1) The preparation of an educational "blueprint," (2) The organization and integration of staff activities in the development and public relations areas, and (3) The development of programs that will enlist the participation of hundreds of persons who are interested in Taylor.

Report of the Librarian

The most important change in the library during the past year was the addition to the staff of a professional cataloger. Her work has helped increase the efficiency of the service of the library as a whole.

The following statistics will give some idea of the growth and status of the library at present:

Accessions (May 1956—May 7, 1957)—2,000 volumes

Withdrawals (May 1956—May 7, 1957)—31 volumes

Total holdings—May 7, 1957—31,942 volumes

Audio-Visual materials added—13 records; 28 filmstrips

Circulation (Sept. 1956—May 1, 1957)—13,931 total

Students, 12,785; faculty, 670; others, 476

Campus Improvements

- Dining Hall Service** A marked improvement in the quality, variety and quantity of food was realized at no increase in cost by securing the services of the Prophet Company, professional caterers.
- Married Student Housing** Thirty-nine officers cottages from Camp Atterbury are now located in Fairlane Village at the north end of the University addition. There are two sections, a north group with twenty-two units and a south group with seventeen.
- Several of the units are now occupied and all are expected to be ready for use by the beginning of the school year. The houses are of two sizes—two and three bedroom units. All are equipped with electric stoves and an oil space heater.
- Faculty Offices** On the site where Sammy Morris Hall formerly stood, four officers cottages are now being completed for faculty offices and counseling use.
- Chemistry Department** Improvements were made in the Chemistry Department by installing new fluorescent lights and enlarging the chemistry classroom.
- Business Office** The Business Offices have been re-decorated, and the front office remodeled with new counters and other improvements.
- Athletic Fields** A new athletic field area, to include new football and baseball fields, is now taking shape. All the grading has been completed. The baseball field is to be ready for use by next spring, and the football field is expected to be completed in about two years. Also, a new football practice field is being prepared.
- Grounds** A much needed student parking area has been made available next to the post office building by removing the old G.I. trailers which are no longer in use.

An "Effective Christian College"

Taylor's unique program as an "Effective Christian College" has included a variety of regularly scheduled weekly activities such as Ambassadors, Holiness League, Day of Prayer and Sunday evening services.

Highlighting the year were the following special events which had a profound effect upon campus life and which, in the future, will bear fruit in Christian service:

- Fall Religious Emphasis Week**, with Dr. Bob Smith
- Missionary Conference**, with Dick Hillis and Nate Scharff.
- Youth Conference**, with Dr. Bob Cook and G. Christian Weiss.
- Spring Revival**, with Dr James DeWeerd.

Chapel services, conducted three times each week, afforded stu-

dents and faculty inspiration and guidance through the ministry of many leading interdenominational and denominational leaders.

In addition, many students gained rich experience by participating in approximately 500 Gospel Team assignments during the year.

Alumni Fund

Three New Records Set The Alumni Association set three new Alumni Fund records this past fiscal year, which ended on June 30.

Alumni giving for 1956-57 totaled \$38,015.70, compared with \$27,803.65 the previous year. Since the beginning of the Taylor Alumni Fund program five years ago, alumni giving has increased over 300 per cent.

The percentage of alumni contributing to the fund reached a new record of 38.6% compared with 30.4% the preceding year. The national average in alumni participation among private coeducational colleges is 17.4%, according to a recent American Alumni Council report.

The 1956-57 drive was headed by National Fund Chairman, Maurice Coburn, Administrative Assistant to Governor Stratton of Illinois. Other leaders were John Nelson, Kokomo, Area Organization Chairman, and J. Floyd Seelig, Indianapolis, Class Agent Chairman.

Regional Chairmen Forty-nine regional chairmen gave leadership to the Fund Drive this year, in organizing committees to contact other alumni. Many gave energetic leadership to this work.

Class Agents Twenty-five alumni agreed to serve as Class Agents this year to challenge the members of their classes to take part in the Fund Drive and other alumni activities.

A RECORD OF ACHIEVEMENT

	1956-57	1955-56	1954-55
Alumni Giving to Taylor	\$36,015.70	\$27,803.65	\$17,701.68
