Dr. Robert Lee Stuart
Re-elected to Presidency

Dr. Stuart was reelected as president of Taylor for the second term by a unanimous vote of the board of directors at their semi-annual meeting.

Dr. Robert Lee Stuart came into the presidency of Taylor University April 7, 1931. This was at a time of financial difficulties the country over, and the difficulties that were plaguing every other public institution were strangling the breath of life from Taylor University. A time like this required the wisest leadership that could be secured, and Dr. Stuart was elected to the task. With fighting spirit he has carried through the hard years that followed until today the institution is sounder financially than it has been for many years. His has been pre-eminently a business administration. During these years also the school has advanced consistently in scholastic training. This has been due to the fact that in every move an eye has been kept upon the goal of higher accreditation.

The present five-year term of Dr. Stuart expires June 1938. At the recent semi-annual meeting of the Board of Directors of the William Taylor Foundation, he was unanimously and enthusiastically re-elected for another five-year term. This will make possible the planning of a long time program and assures an extended period of conservative advancement.

The announcement of the re-election in the chapel service was received by the student body with extreme enthusiasm, and the expressions of appreciation that have come from many directions show the action of the board has been well taken. R. W. K.

POINTED PARAGRAPHS

From my observations in board meetings and financial meetings, Taylor University is facing a new day financially.

The administration of Taylor is a conservative business administration that will not spend money which is not in sight.

There has never been a saner, more wholesome, and yet more spiritual atmosphere on Taylor's campus than now.

I have often been asked, "When will Taylor enter the North Central Association of Colleges?" It seems to me that our chances are improving constantly and that the day is rapidly drawing near when that long desired end will be achieved.

Our physical equipment is receiving good care and is in good condition. Improvement is constantly going on in the buildings.

If every alumnus and friend of the school will do what you can, a new day will dawn for Taylor University such as we have not seen in our fondest dreams.

Are there young people in your community that you might influence to come to Taylor University? Taylor has made a fine increase in the student body in the last two years. Last year we increased fifty-two over the preceding year; this year we have increased fifty-one over last year.

God is graciously blessing Taylor University. Let her friends pray that as we go forward we may go forward with Christ, giving him first place always.

Roy W. Knight
President of Alumni Association

SECOND SEMESTER begins February 2. Begin now to make your plans to enter Taylor University. Students are already making arrangements for entry.
Reaction of new board members to Taylor

Dr. Lindblom met with the Board of Directors of the William Taylor Foundation for the first time at the semi-annual meeting, October 27. He was elected as a member of the Board at the annual meeting in June. He is pastor of the Free Evangelical Church of Chicago. He is a great pastor, evangelist, and an outstanding worker with youth.

Taylor is to be congratulated on having this splendid Christian gentleman accept a place on the Board of Directors. When Dr. A. W. Pugh presented him formally to the members of the Board he responded with the following word, "I feel the association is going to be very helpful both for Taylor and our work, and I pledge and promise to do all I can to make Taylor known among our people. I enjoy the spirit that rests on this campus and I have fallen in love with Dr. Stuart and you men as I have met you."

On his return to Chicago he sent to the President's office this delightful paragraph: "I have been living in the happy thrills all day. I was so happy for all that I saw and heard at Taylor. I am thanking God for His wonderful blessing upon the work. Your influence for Him upon the youth of Taylor's campus is tremendous. I feel we are going to see great things as we move on in this needy field of service, reaching college youth with a saving, sanctifying Gospel message. The Lord bless you abundantly. I was so glad for the Board meeting yesterday and the good feeling that prevailed."

Dr. Lindblom

Mr. J. C. Bontrager, one of the newer members of the Board of Directors, is a splendid Christian layman and contractor. At the close of the semi-annual meeting of the Board of Directors he said to President Stuart, "In two years time it will not be a problem of getting students, but a problem of knowing what to do with the students who want to come to us." Mr. Bontrager is chairman of the Buildings and Grounds Committee of the Board of Directors.

Gracious outpouring of God's spirit witnessed during Taylor's fall revival

Dr. Turbeville came to us through the ten days and gave us great gospel messages. We perhaps had the finest sustained attendance during the entire meeting of any meeting that has been held on the campus. Dr. Turbeville laid splendid foundations that led up to these great reproducible experiences of Christianity and by the end of the first week these young men and women were seeking to be saved, backsliders were being reclaimed, and believers were being mightily baptized with the Holy Spirit.

There was one day in the meetings when over seventy-five young people knelt at the altar seeking definitely either to be saved, reclaimed, or to be baptized with the blessed Holy Spirit.

We are profoundly thankful to God for the great meeting He gave us. This wonderful fall revival is one of the secrets of the blessed spiritual life that Taylor maintains through the year. We wish our parents, alumni and friends could have been with us and have seen how wholeheartedly this splendid student body responded to the message of full salvation.

Grounds Committee of the Board of Directors.

* * * *

Dr. Herbert Lyon, a prominent physician and surgeon of Buffalo, New York, is another new member of the Board of Directors. Dr. Lyon graduated from Taylor with the class of '26. He is not only outstanding as a physician and surgeon but is a great spiritual leader among laymen of the city of Buffalo. He has organized a Bible Conference out by the lake and it is succeeding in a tremendous way.

Taylor is always happy to see her graduates succeeding in their chosen profession and we appreciate the fact that this busy professional man is willing to give time to his Alma Mater.

Dr. S. H. Turbeville, Class of 1905

Dr. Turbeville speaks fine word for his Alma Mater

"It was my delightful privilege to spend ten days at Taylor University this fall, having been invited to be the evangelistic speaker for the fall revival there. The student body was as fine and as receptive as any that I have ever addressed. A beautiful spirit of harmony and cooperation obtain throughout the college among both faculty and student body. President Stuart seems to have the united support of the whole college force, and the prospects for the future of the college are very encouraging indeed. God bless and continue to prosper Taylor University for we need colleges of her kind in these days." (In a personal letter Dr. Stuart received from Dr. Turbeville he said, "The thrill of joy still lingers for the victories the Lord gave in the revival."

Sammy Morris booklet has blessed people all over the world. Many a revival has been started through the reading of the life story of this spirit-filled black boy. You can get them for five cents a copy or fifty cents a dozen at Taylor University.
Where Else Could This Happen?

President Stuart led the opening chapel for the ten-day fall revival. He used for his text that morning, and as the text for the entire series of meetings, I John 1:7, “But if we walk in the light, as he is in the light, we have fellowship one with another, and the blood of Jesus Christ his Son cleanseth us from all sin,” and tried to cut away all the unnecessary things that might enter into a revival and get the young people willing to walk in the light as God gave them to see the light. There was a very beautiful spirit in the Chapel services.

When the President had finished his brief message we then had a response from Arthur Dahlstrand, president of the Student Council, who told them how he hoped the entire student body would enjoy the meetings and follow Christ all the way and come out with glorious victory.

Following him, Luther Patton, president of the Philo Literary Society, responded and said, “I am sure when we had our meeting the other night they were all one hundred per cent Philos, and we are in for a great program, but I want us to be just as out and out for Christ and be all for Him in these meetings.”

Mr. Charles Garringer, president of the Senior Class, gave a very effective statement as to how he had grown in grace and how he had found such a rich experience with Christ here on Taylor’s campus and he wanted his class one hundred per cent for Christ. Evan Bergwall, the Junior president, stated his feelings in a similar way and urged the Juniors to cooperate to the fullest extent in the revival meetings. George Murphy, the Sophomore president, gave his personal testimony and assured the school that his group would go all the way with Christ. John Zoller, president of the Freshman class, assured the school that his class would cooperate in every respect and then he said to the student body, “If we are to win and have the kind of a meeting God wants us to have every single one of us, as Christians, must be one hundred per cent for Christ.”

November 18 our day of prayer will be especially for our worldwide alumni. These that are out yonder on the firing line in India, China, Africa, South America, and the islands of the sea. We would appreciate a personal word from all of these former students who are stationed in some part of the world. We would like to have this so that when we get together in our days of prayer, and when the Volunteer Band meets, we can pray personally so much more effectively for you on these outposts of civilization.

December 9 we are praying especially, in our day of prayer, for our alumni and former students who are in Christian work in America. We are anxious to have personal letters and reports relative to the work being done by our former students. If they are too modest to report it themselves let their friends and relatives report it to us. May God wonderfully bless this Taylor University family.

Ted Engstrom gave the same kind of a statement for the Thalo Literary Society, assuring us of their cooperation, and gave his own personal testimony of how he found Christ so definitely and fully in his Gospel Team work and that he was ready to cooperate one hundred per cent in a great meeting. So, following that kind of an opening you would not be surprised that we had a great meeting.

SPECIAL SHORT TERM BIBLE COURSES AT TAYLOR

The management announces a special short course in Bible studies in Taylor University, from February 2 to 25. The subjects are arranged so as to be valuable both to ministers and laymen, and are offered at a time deemed most convenient for the larger number. Here is a very unusual opportunity for those who cannot pursue study during the whole year.
Things for which those of us at the home base are profoundly thankful:

FIRST: That God is blessing Taylor with a splendid student body. The records will show that the total attendance for this year will be considerably over one hundred more than it was two years ago and what a fine group of students it is that are here on our campus.

SECOND: That we have been able for four consecutive years to balance our budget.

THIRD: For a group of friends who have been taking from one to twenty-five memberships in the William Taylor Foundation, and many others who have been sending smaller gifts. Do not feel at any time that any gift is too small. Send it on to Taylor with your prayers.

FOURTH: We are thankful that God has put his seal on Taylor University with another great revival. His blessed presence is resting upon Taylor's campus. We are starting off one of the happiest years in the history of the school. Dr. Turbeville the closing day of his wonderful ten days with the institution said that during these ten days he had not heard one word of criticism from any one while he was here. Of course, since he was a graduate of the school there was a constant stream of students going to the consultation room for conferences with him.

FIFTH: We are thankful that He is opening doors for the quartets and Gospel Team work and that souls are being saved through the work done by Taylor University students.

SIXTH: We are thankful that this year many students have consecrated their hearts and lives to Christ, not to be ministers only here in America but to take this great gospel out to the ends of the earth.

These are but a few of the things for which we are profoundly thankful, for God has so gloriously blessed us that it makes us feel like walking humbly before Him and we are determined to do His will at any cost.

One alumnus was influential in writing a will that came to Taylor in a time of great need, another alumnus succeeded in getting a $25,000 gift for the institution.

You are out on the firing line, going in and out of homes where you know the people that are interested in the type of work Taylor is doing. You too can help to write wills and estate notes.

Keep Taylor's needs upon your mind and heart. If you know of these persons and do not feel free to deal with them, write immediately to the President or Field Secretary and they will give personal attention in the completing of these tasks. Be sure to see that the following form is used in every will:

"I give, devise, and bequeath to Taylor University of the William Taylor Foundation, a corporation organized and existing under the laws of Indiana, with its office and place of business at Upland, Grant County, State of Indiana,"

Be sure to describe accurately how you want the fund used. If it is a memorial library, or memorial scholarship fund, make your description specific as to the use of this fund.

"I designate the President of Taylor University and the President of the William Taylor Foundation as the executors of my estate, giving to them the full right to sell any real estate, and any of the personal property, which may be included in said devise or bequest, at the death of the donor, and reinvest the proceeds thereof in the establishment of said Fund, all without any order of any court whatsoever."

There are so many appropriate memorials that could be built on Taylor's campus. One of the immediate and urgent needs is a library building. Another is a Science hall; another is a new Chapel building. If you are interested in some one of the departments of the school, set aside an amount sufficient to endow that department.

If you have any new reference books or rather valuable up-to-date books that would be useful in the Taylor University library write to us and tell us what you have and we can use them.

Better still, send us a gift of $5.00 or $10.00 and suggest that we buy some new books for these hungry minds that we have here on our campus.

Please put us definitely on your prayer list and plead with God to meet every financial and spiritual need of the school.

The Way to Pentecost

A new edition of this great book is just coming off the press. It is written by Dr. Samuel Chadwick, late principal of Cliff College, Sheffield, England. It is one of the greatest books that I have read in this field. It has proved such a blessing to my own soul that I carry it with me and read and study it.

I wish you would get this book and read it, it will bless your heart. The book is so biblical and so true to the Holy Spirit and inspired with the word of God that it drives one to his knees. The book will bless you spiritually and intellectually. Every pastor and Christian worker should have this book.

In lots of ten we can supply them to you at fifty cents apiece.

Why not get ten of them and start a study class in this field? Send your orders to Taylor University and they will be promptly filled. Single copies, prepaid, seventy-five cents.

If you have been a member of the William Taylor Foundation, have you sent in your ten dollars or more for this year?
